

AC: confirmed weekly cases

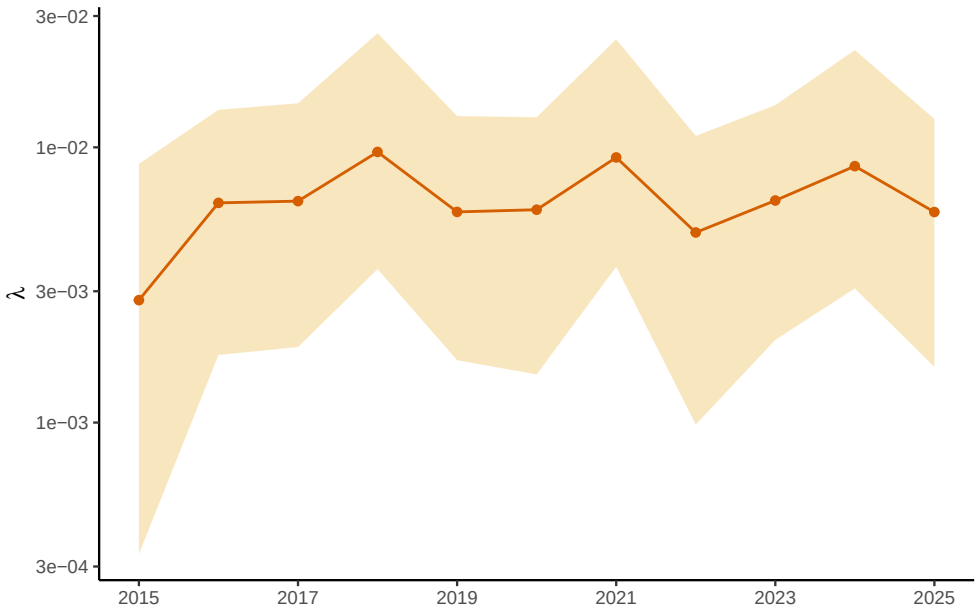

Retrospective weekly susceptible fraction

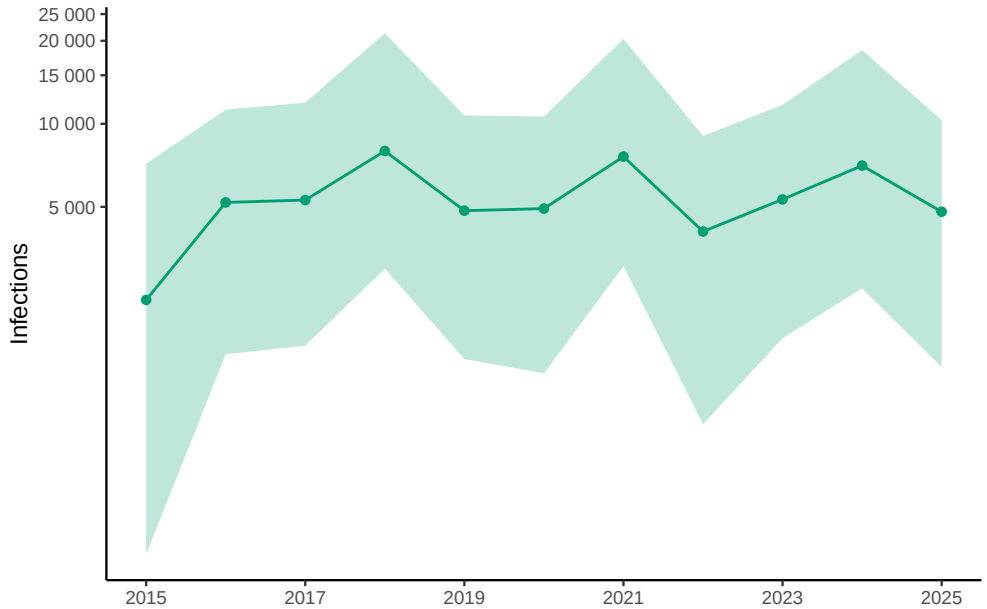

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

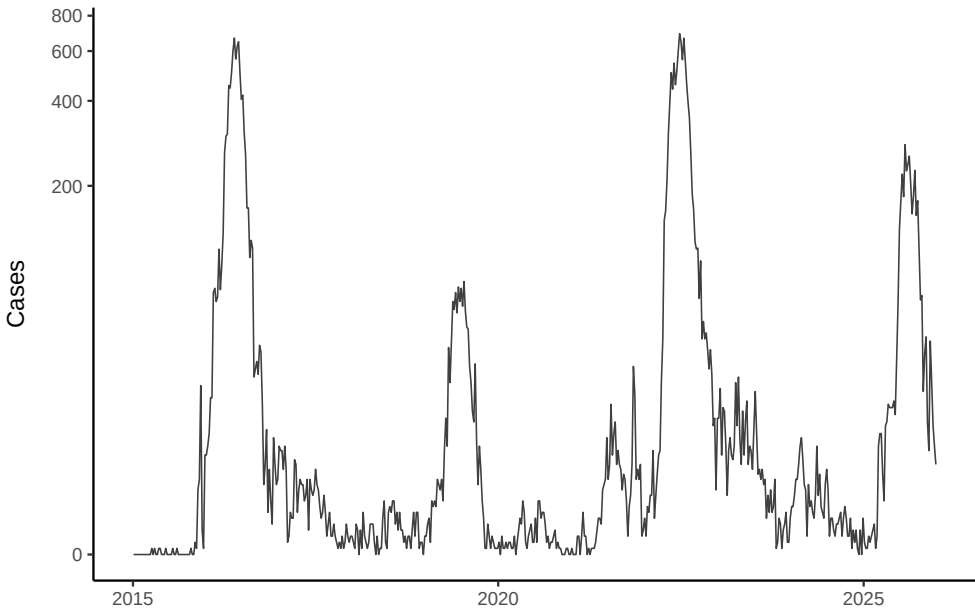

Annual FOI posterior

Annual latent infections posterior

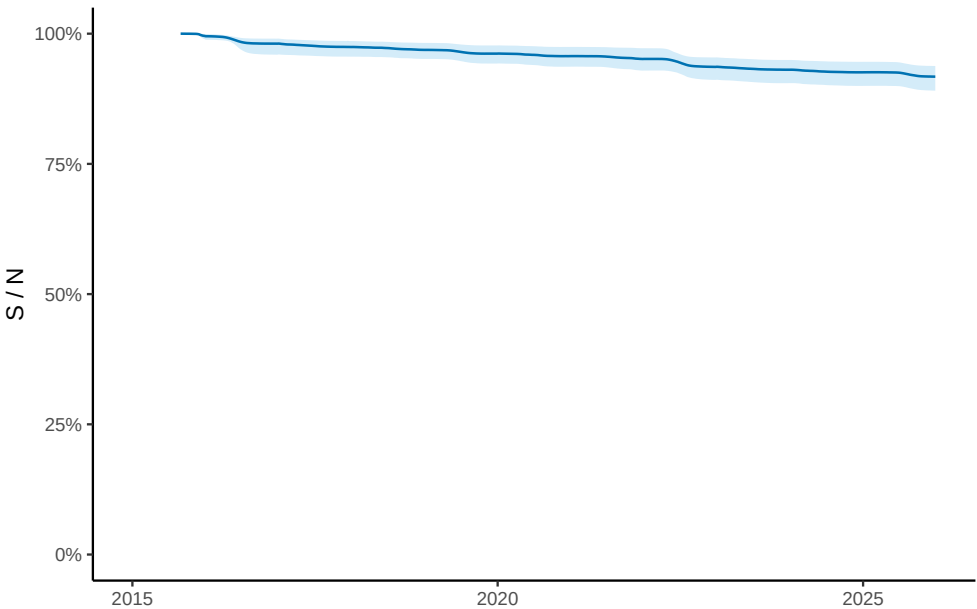

AL: confirmed weekly cases

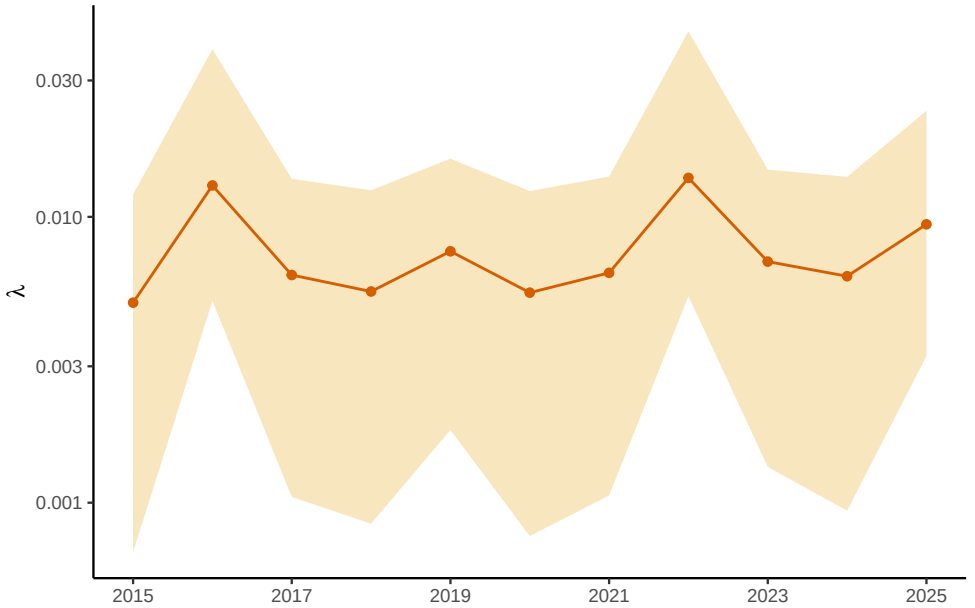

Retrospective weekly susceptible fraction

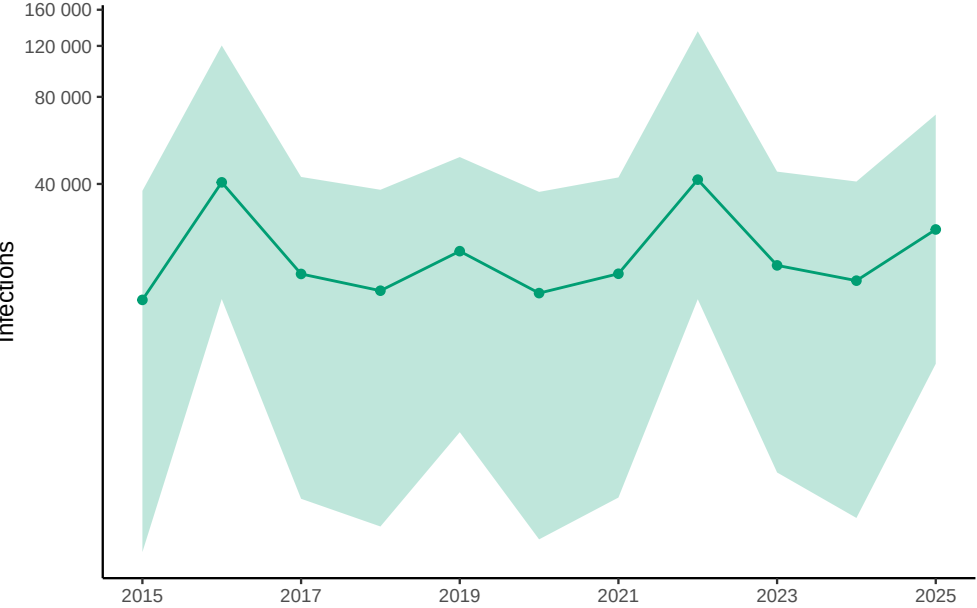

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

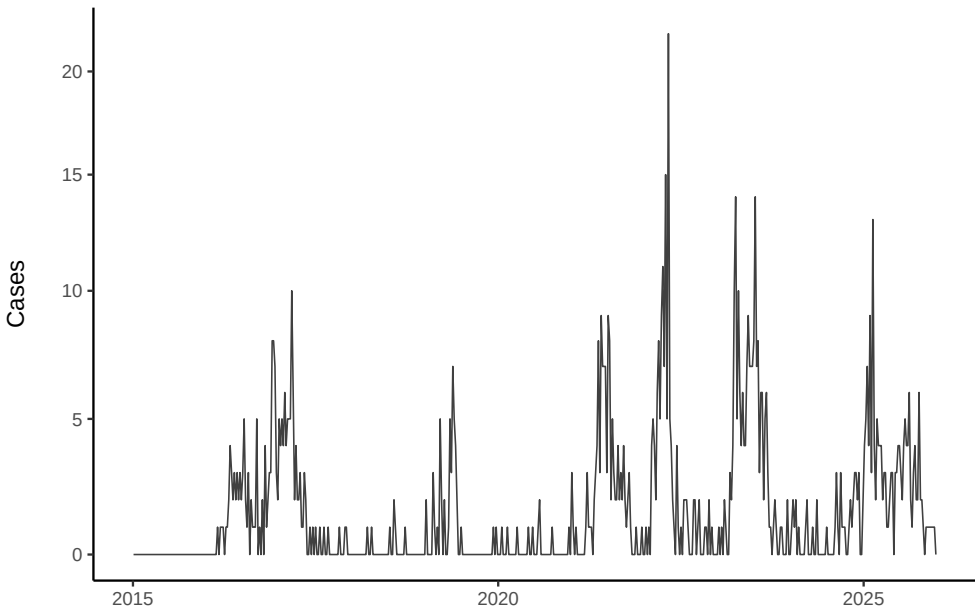

Annual FOI posterior

Annual latent infections posterior

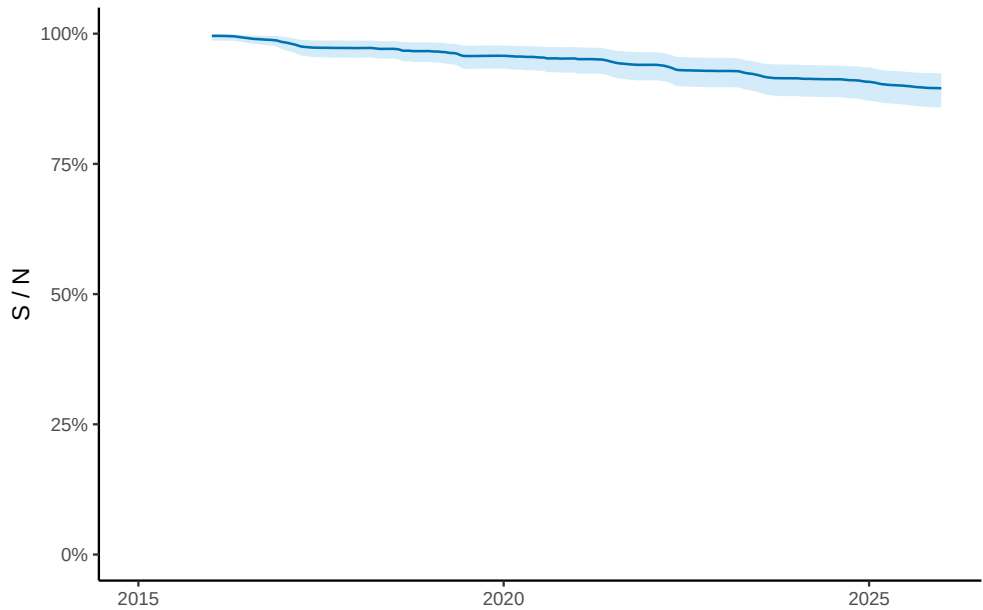

AM: confirmed weekly cases

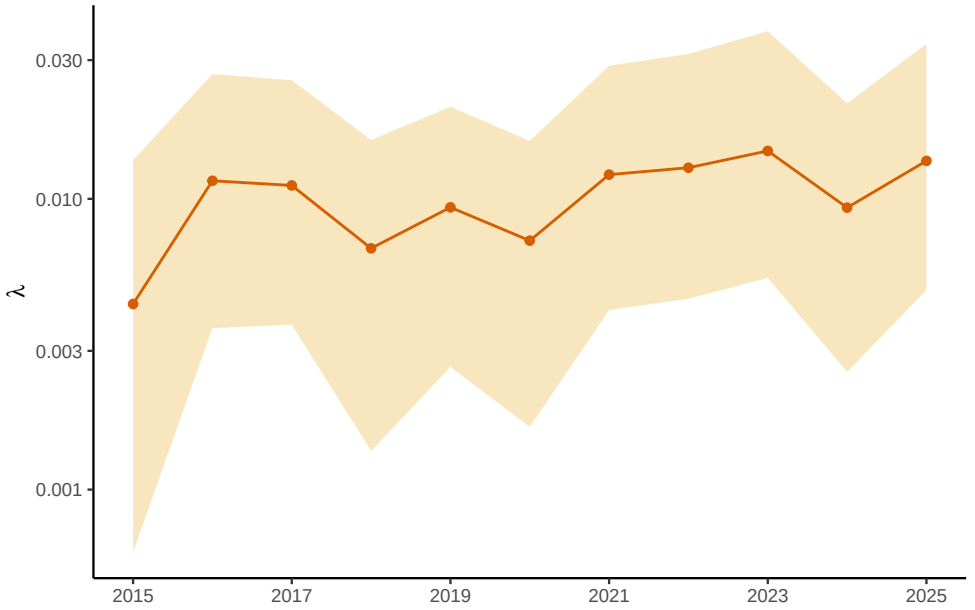

Retrospective weekly susceptible fraction

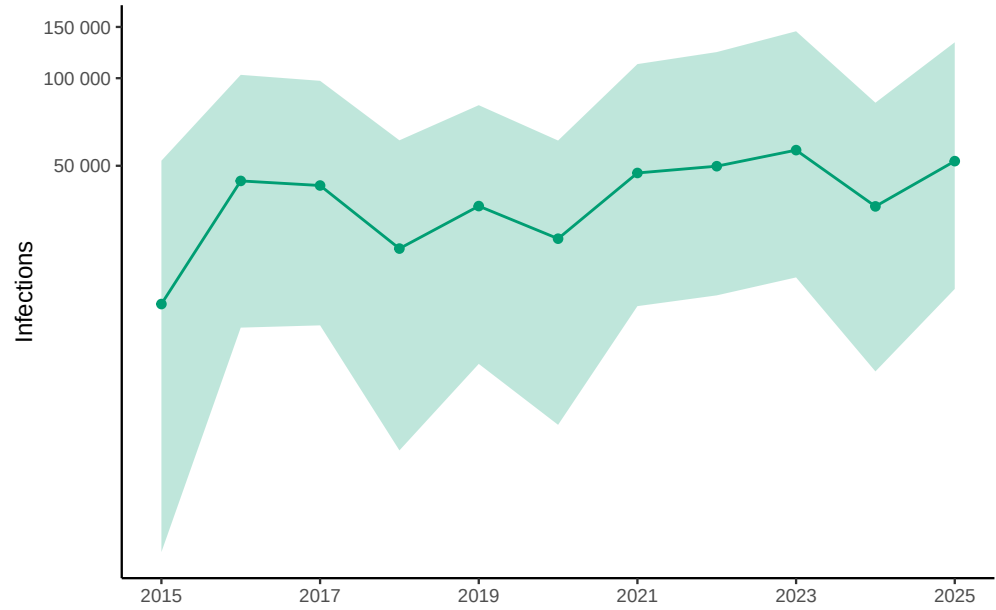

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

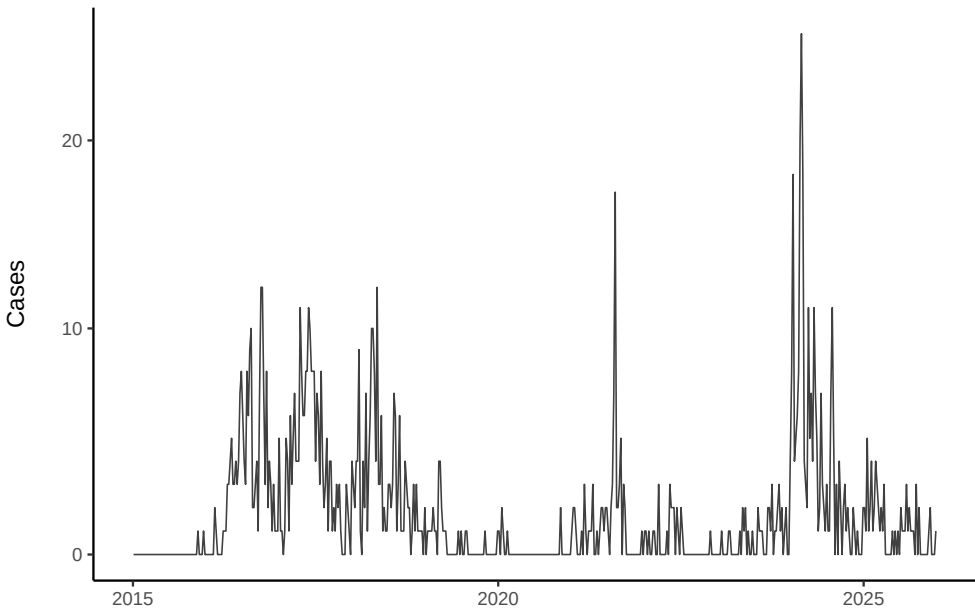

Annual FOI posterior

Annual latent infections posterior

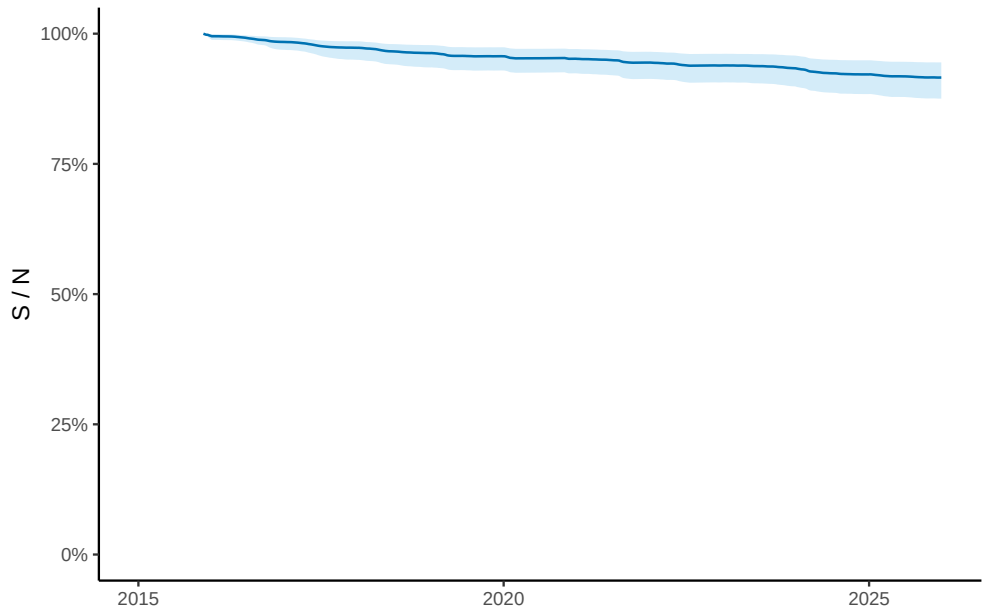

AP: confirmed weekly cases

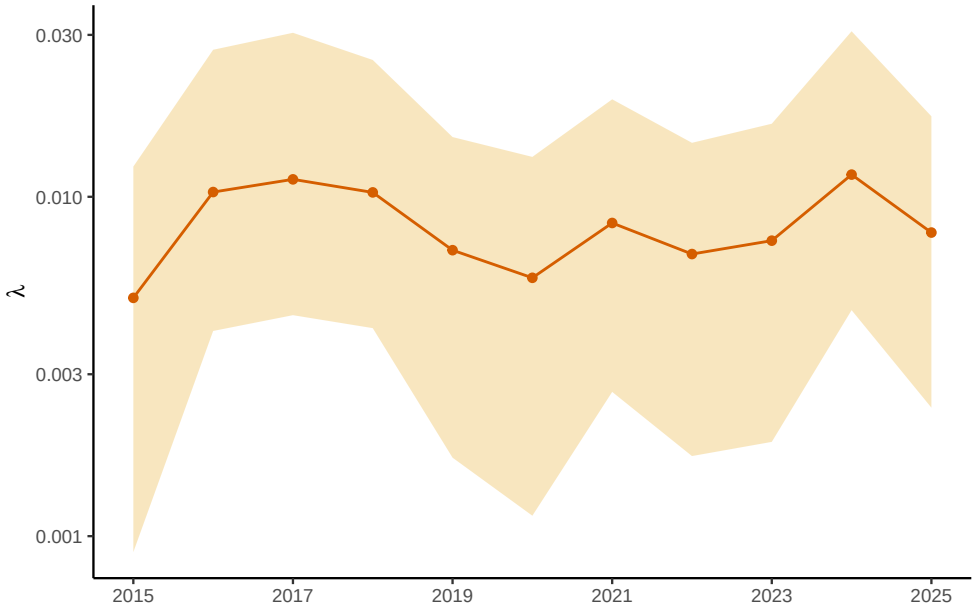

Retrospective weekly susceptible fraction

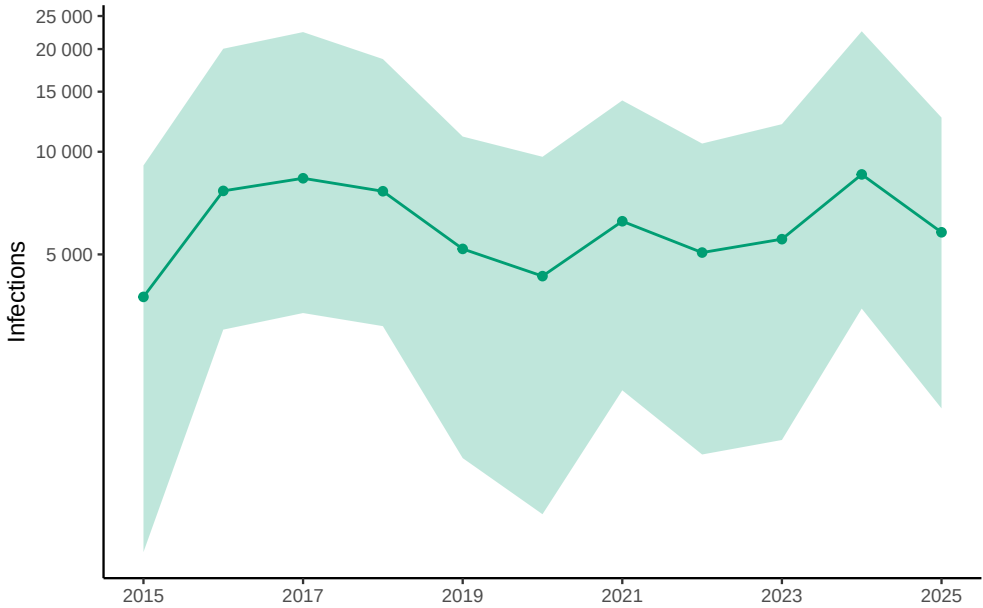

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

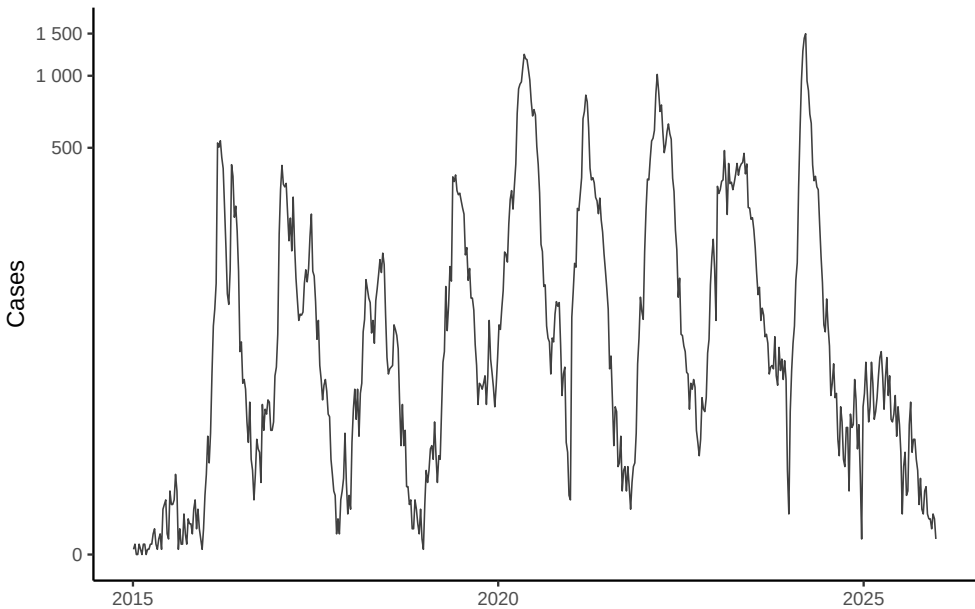

Annual FOI posterior

Annual latent infections posterior

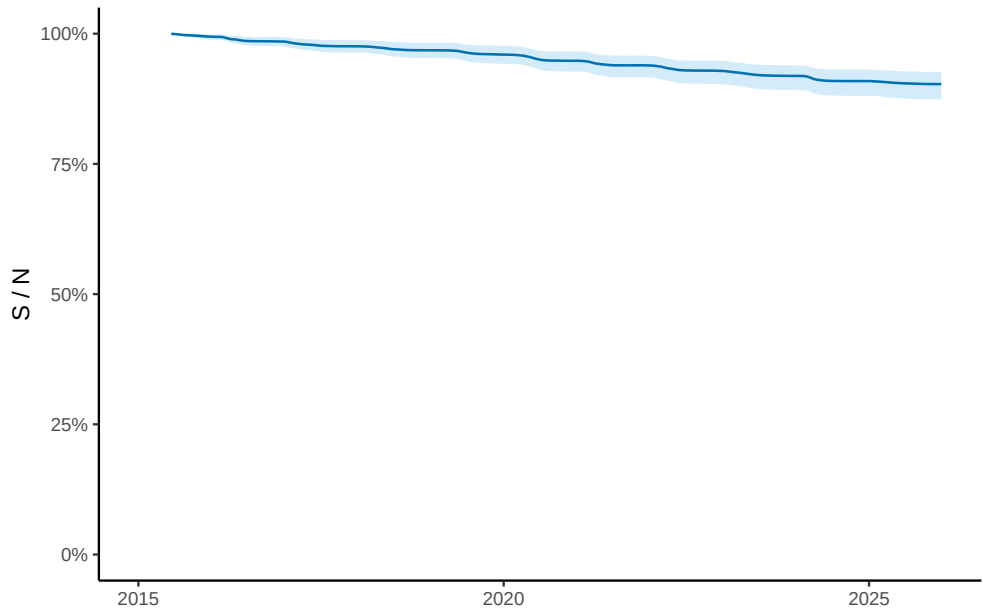

BA: confirmed weekly cases

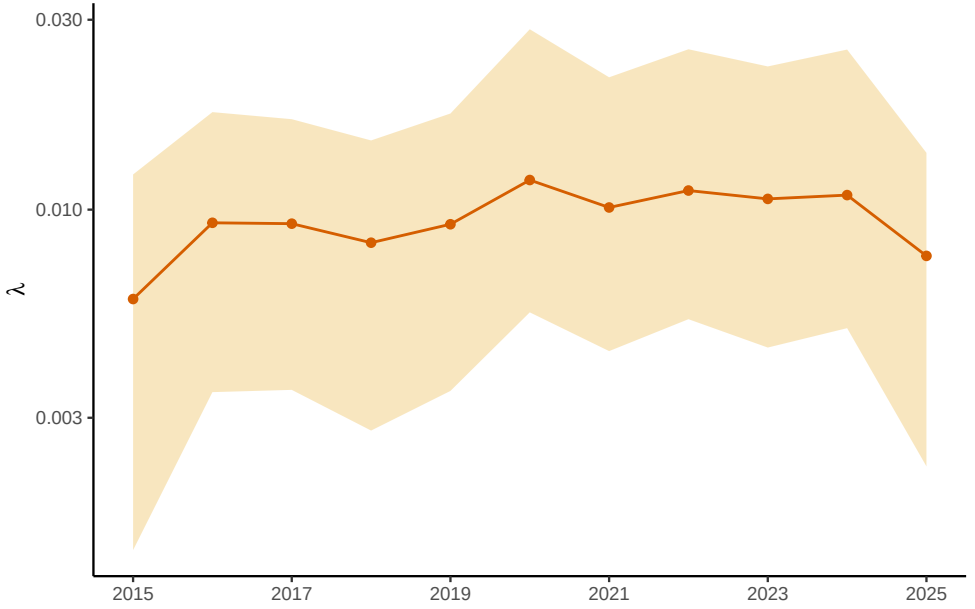

Retrospective weekly susceptible fraction

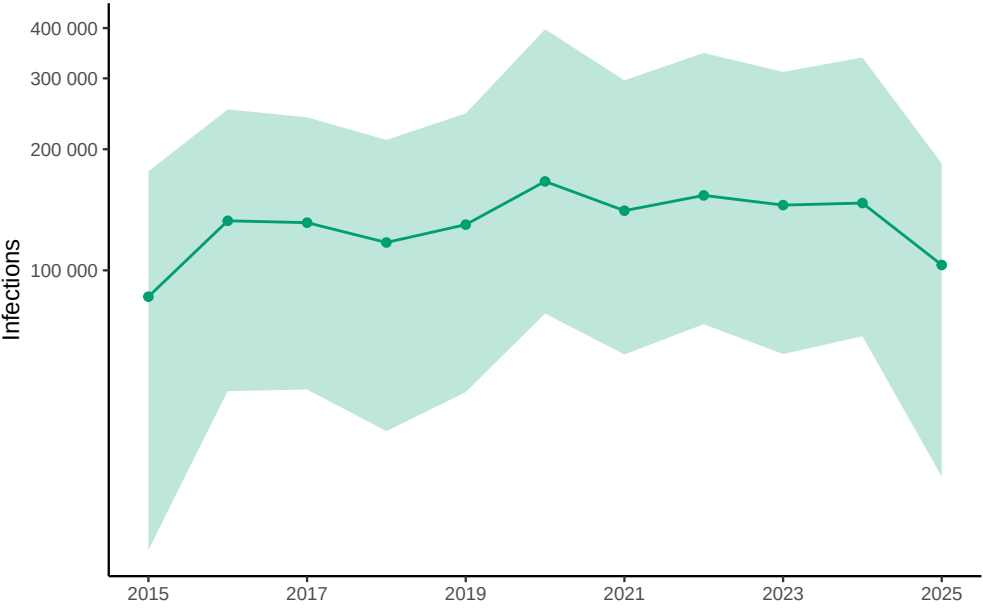

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

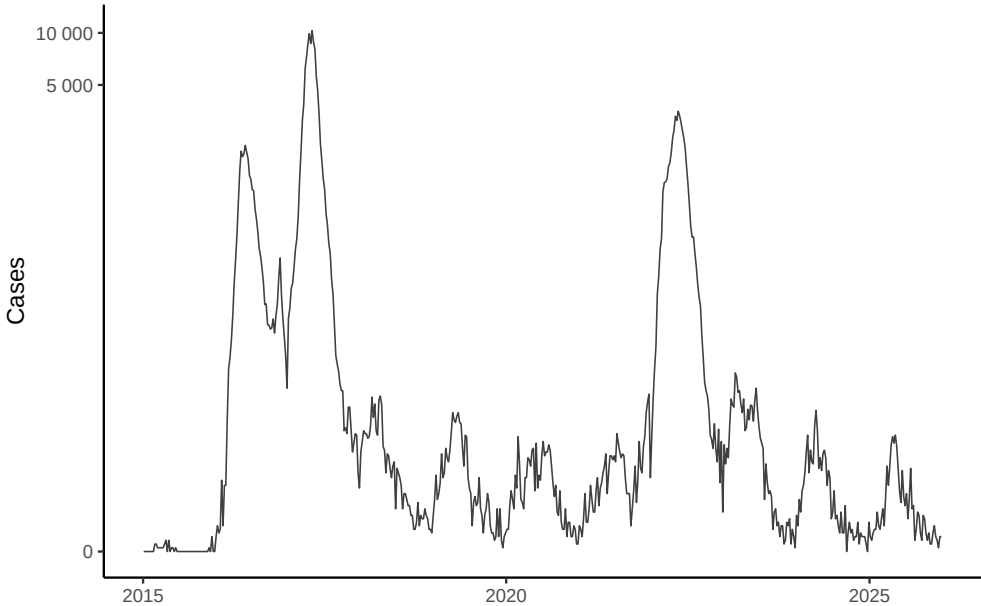

Annual FOI posterior

Annual latent infections posterior

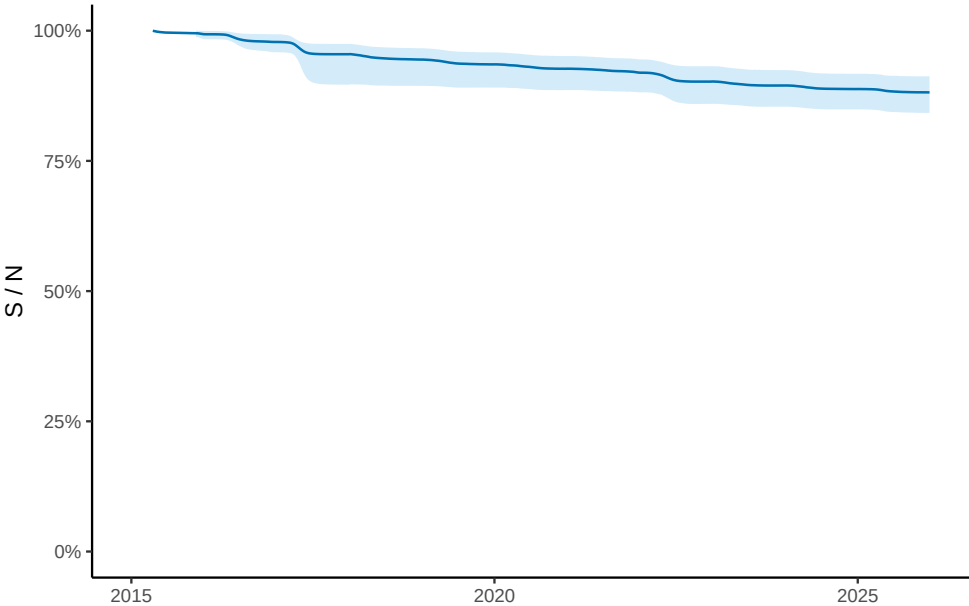

CE: confirmed weekly cases

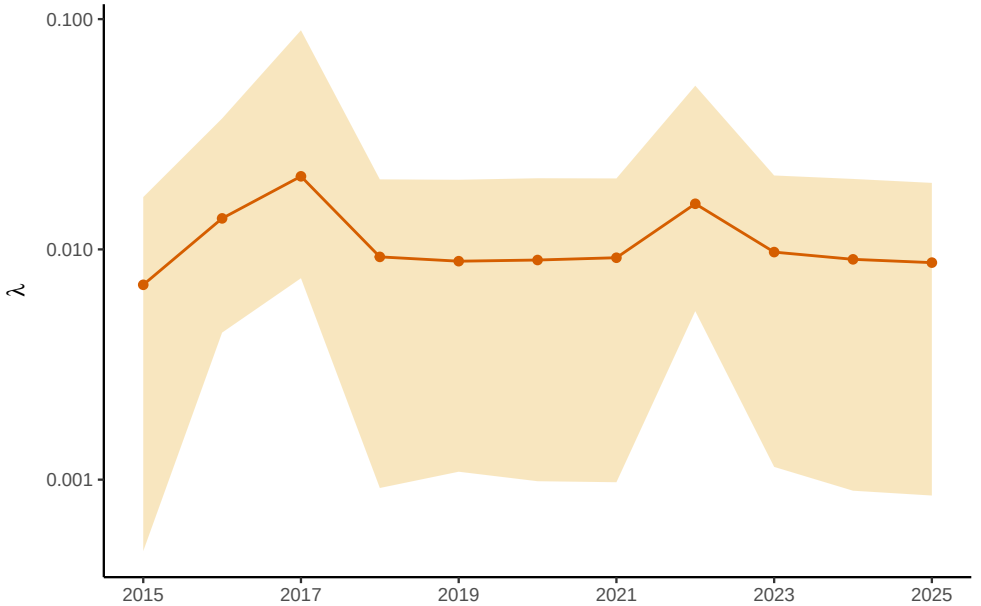

Retrospective weekly susceptible fraction

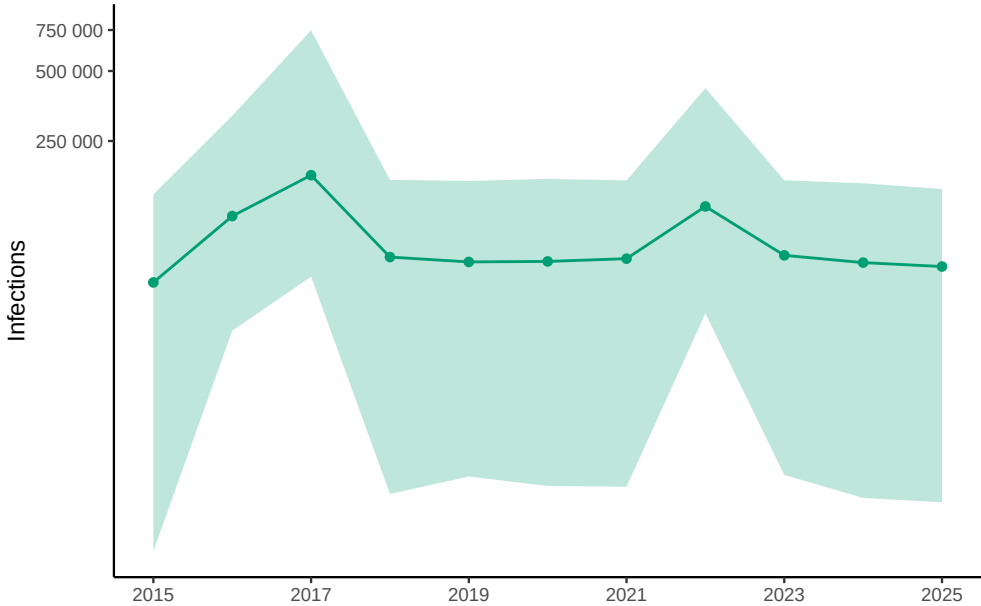

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

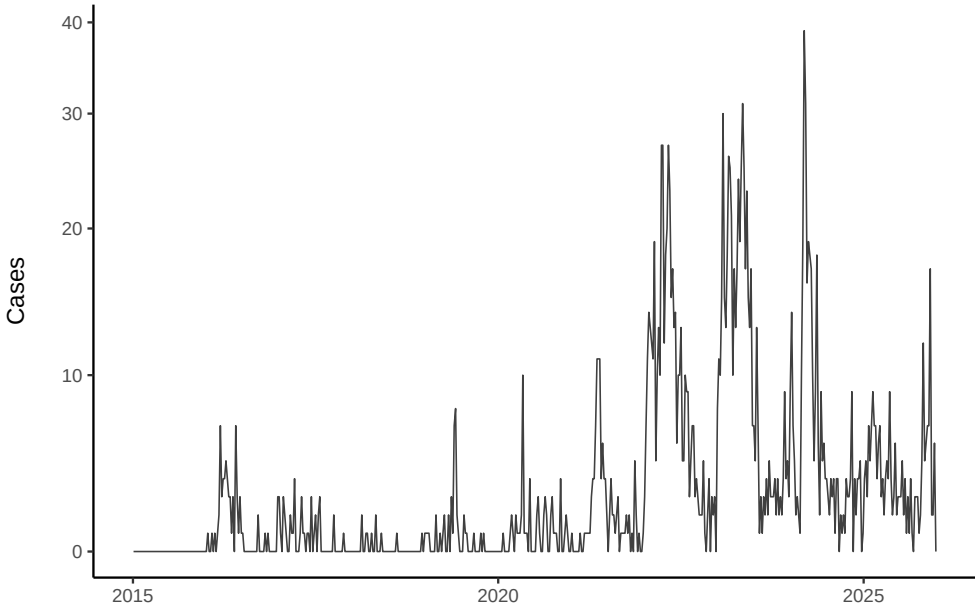

Annual FOI posterior

Annual latent infections posterior

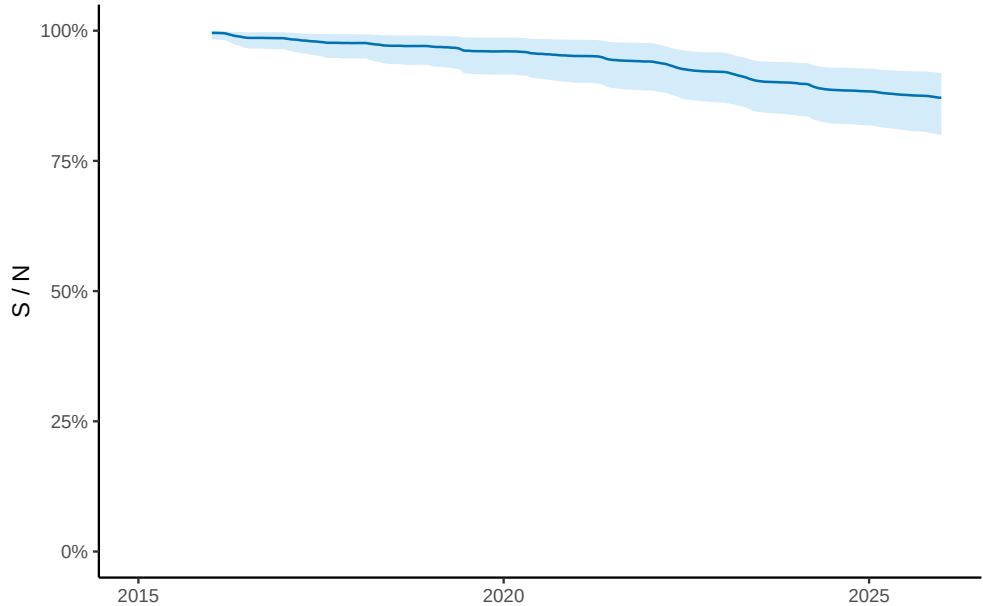

DF: confirmed weekly cases

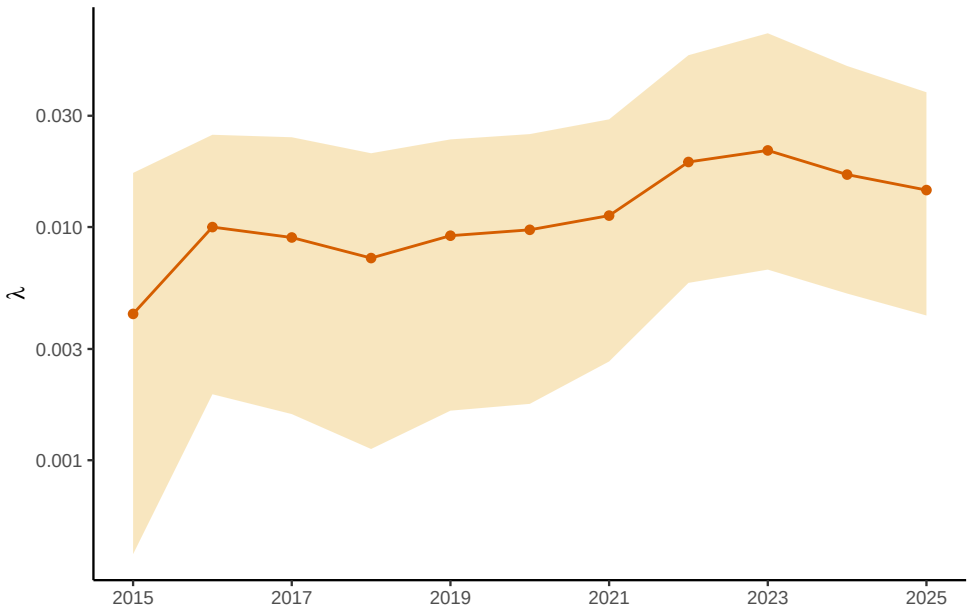

Retrospective weekly susceptible fraction

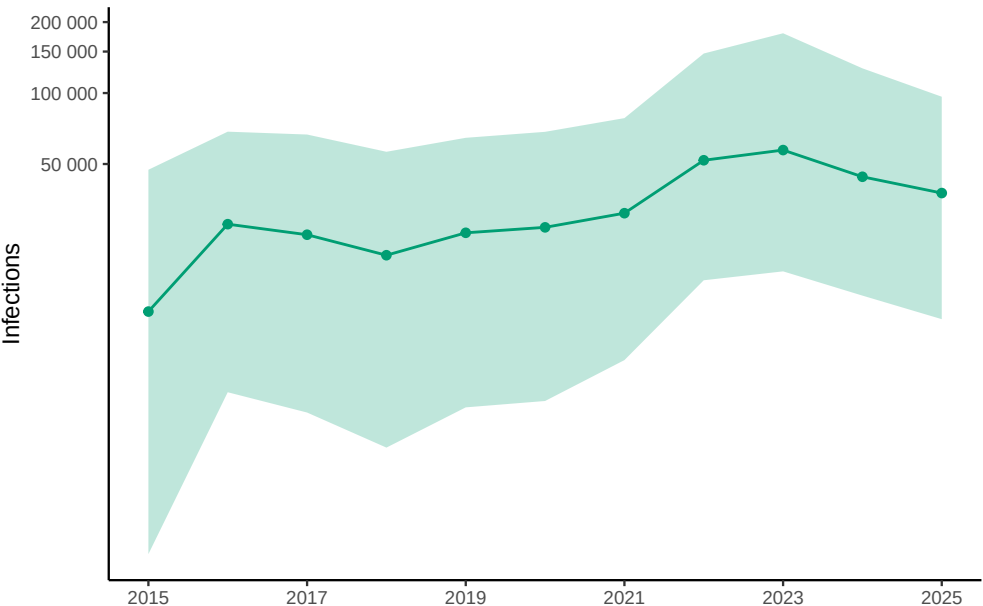

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

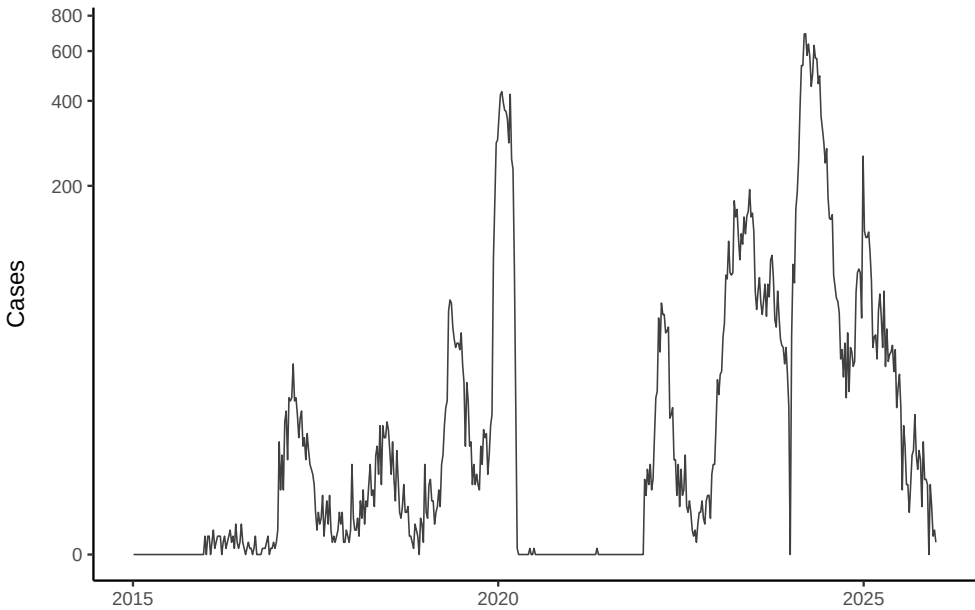

Annual FOI posterior

Annual latent infections posterior

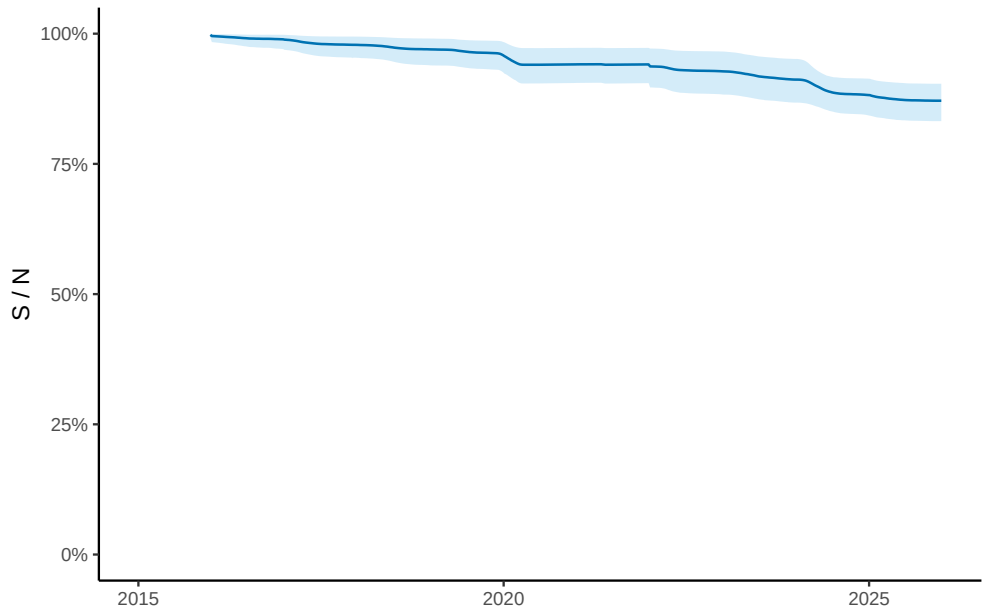

ES: confirmed weekly cases

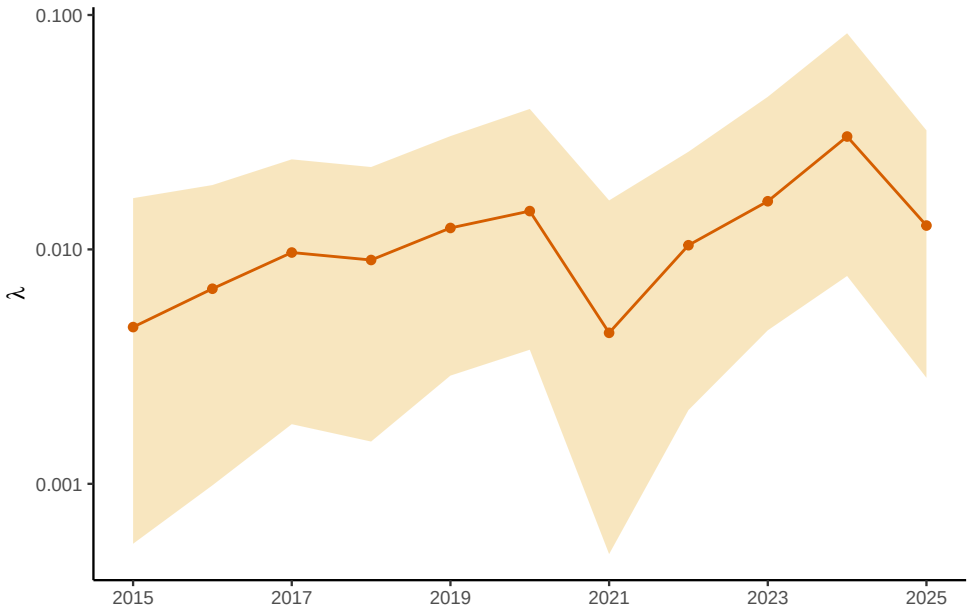

Retrospective weekly susceptible fraction

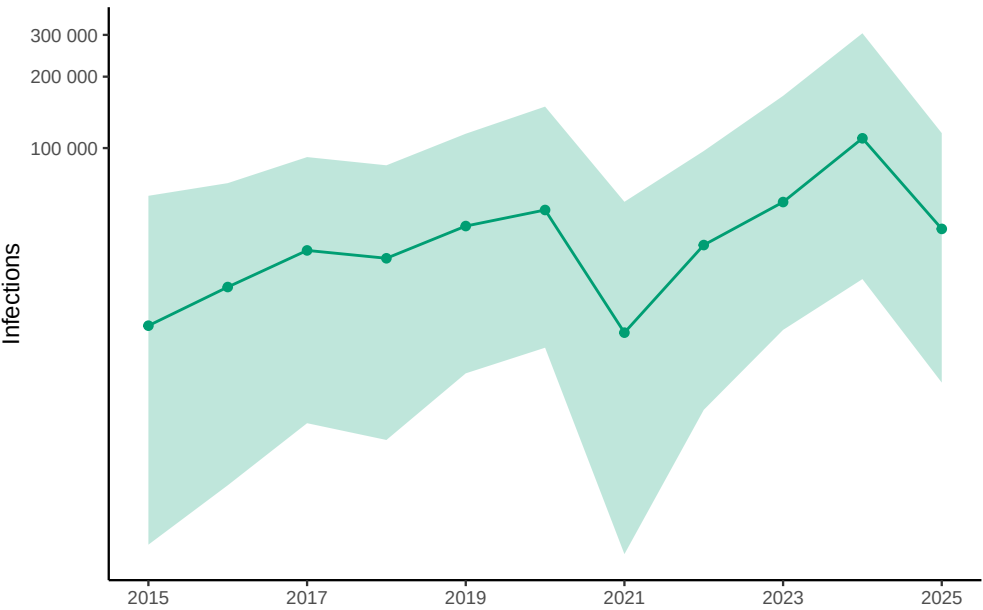

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

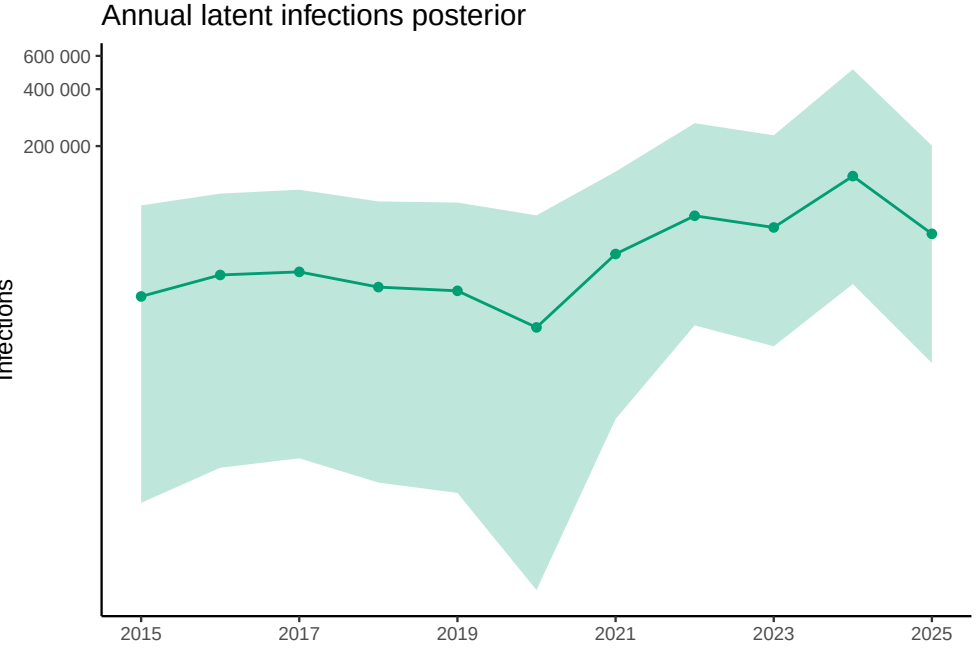

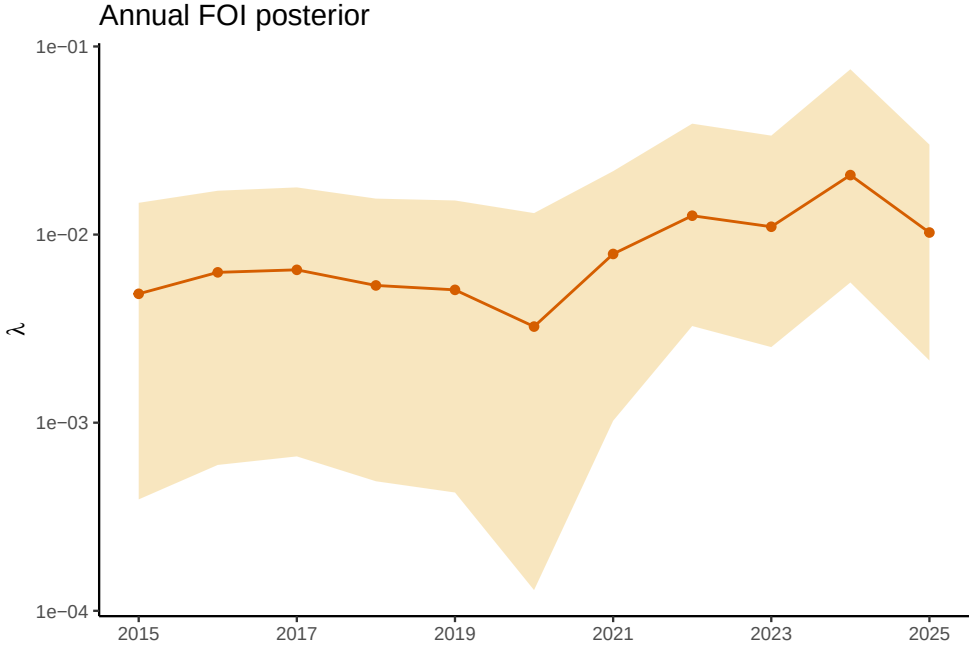

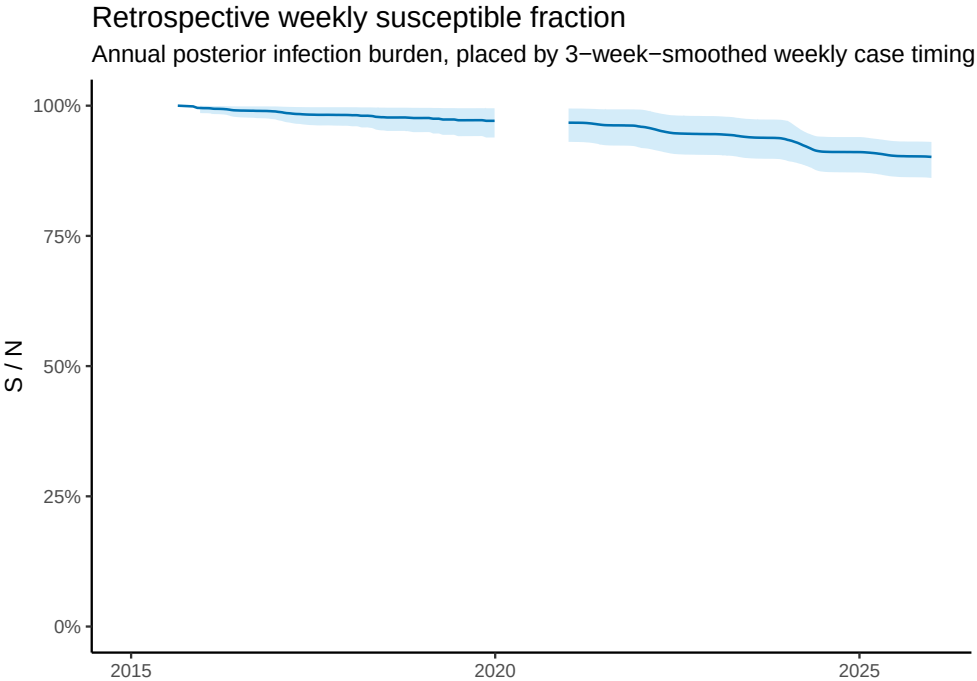

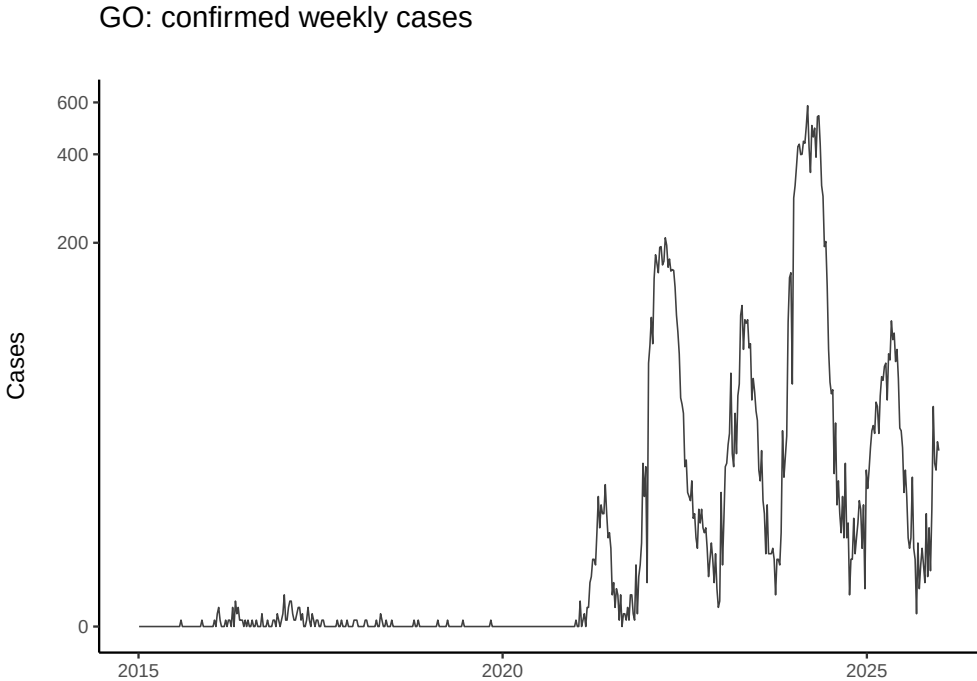

Annual FOI posterior

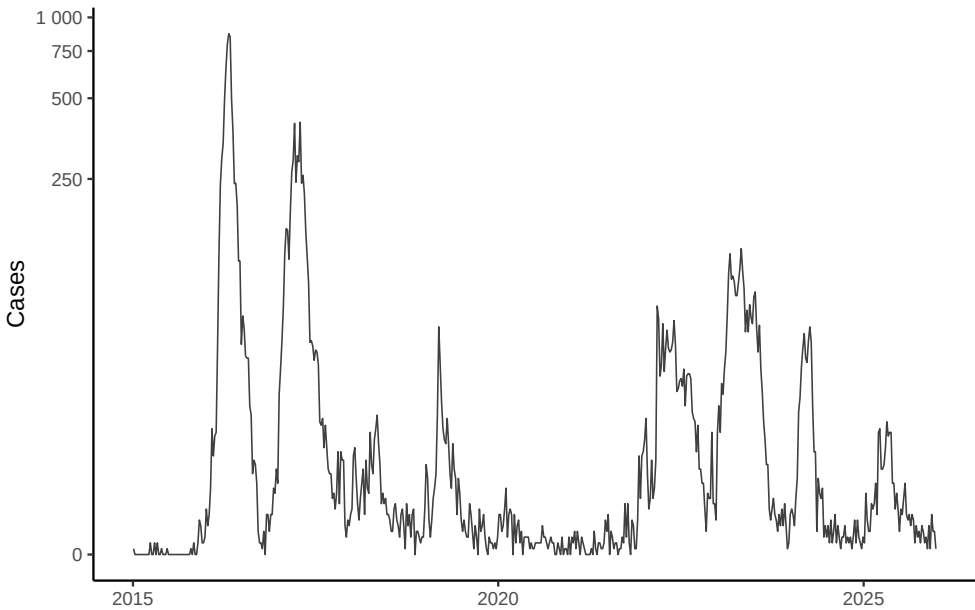

Annual latent infections posterior

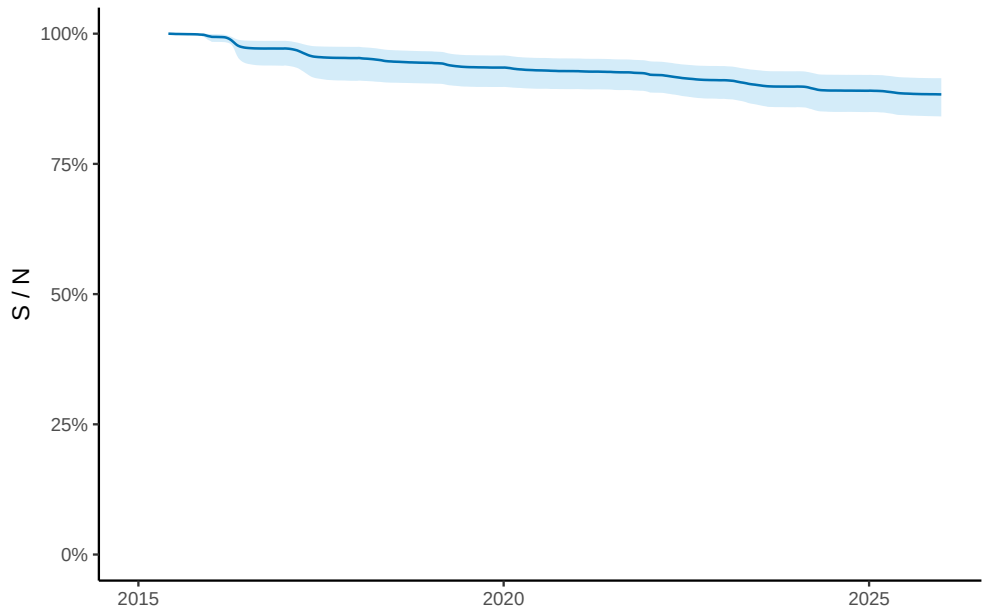

MA: confirmed weekly cases

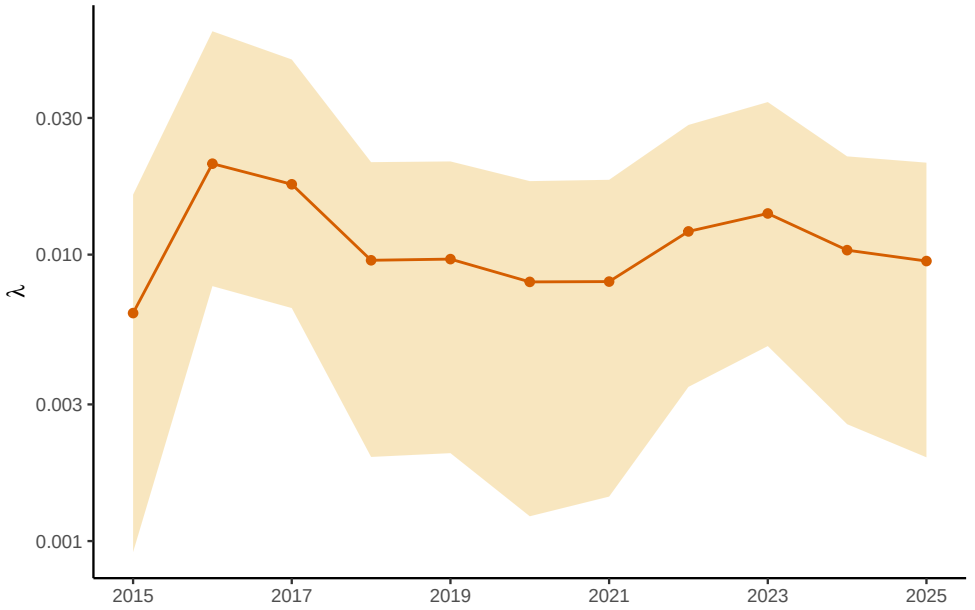

Retrospective weekly susceptible fraction

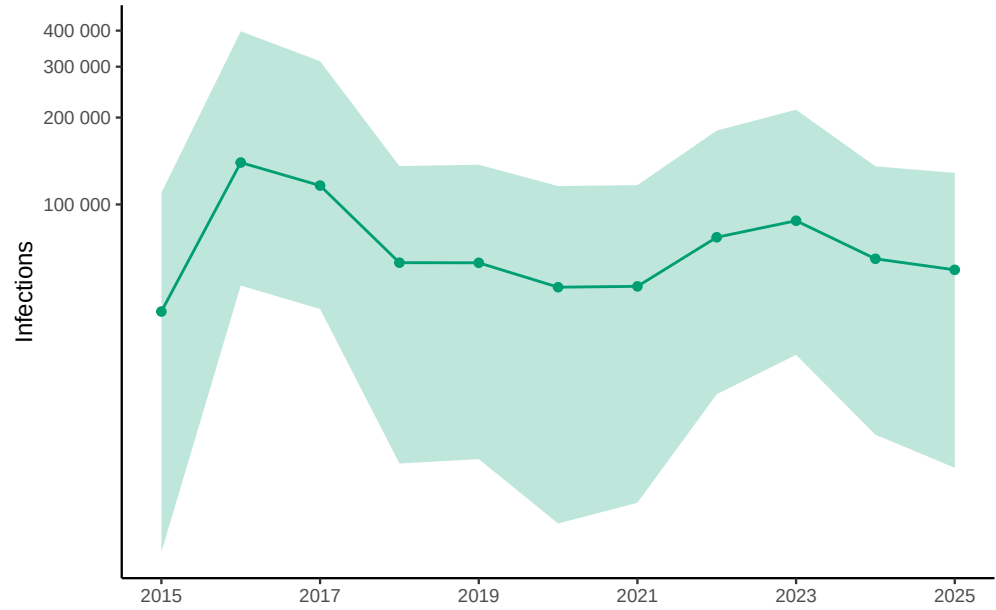

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

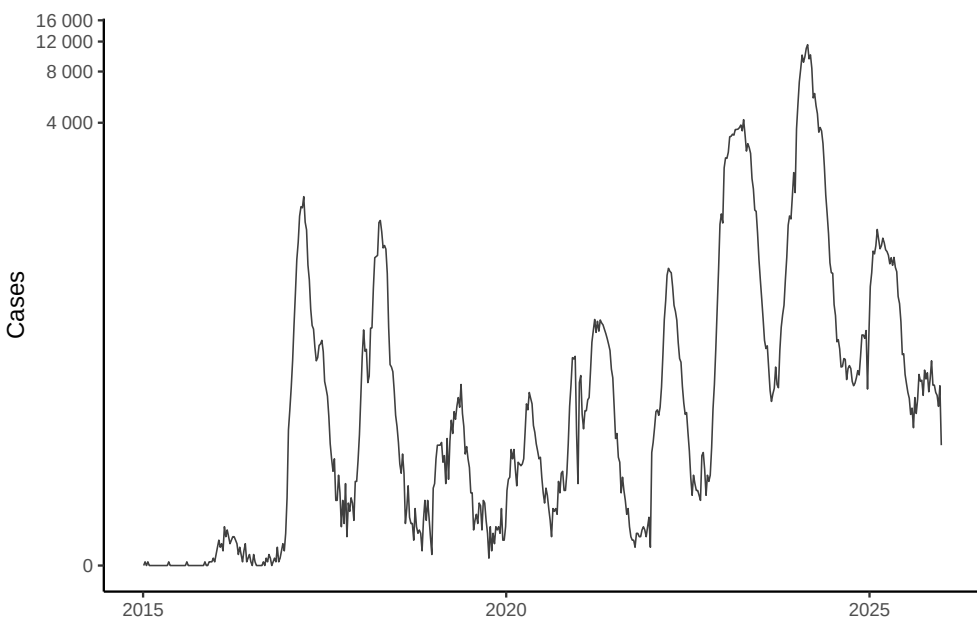

Annual FOI posterior

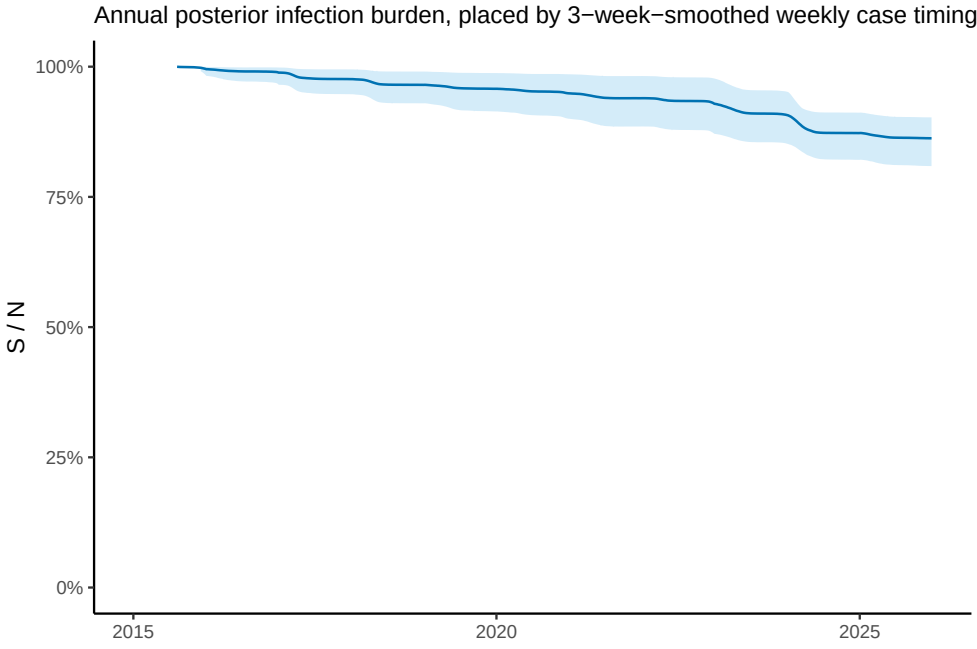

Annual latent infections posterior

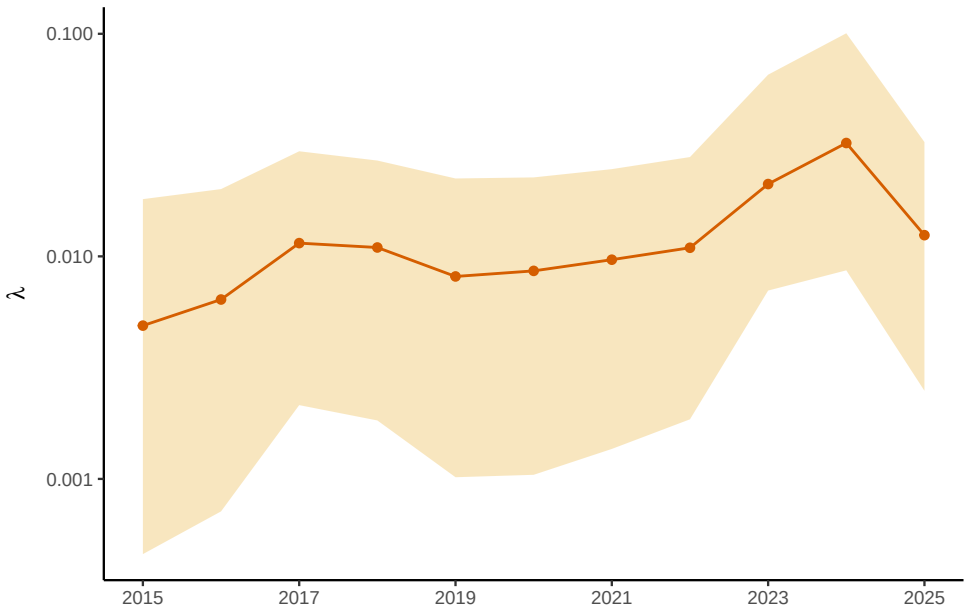

MG: confirmed weekly cases

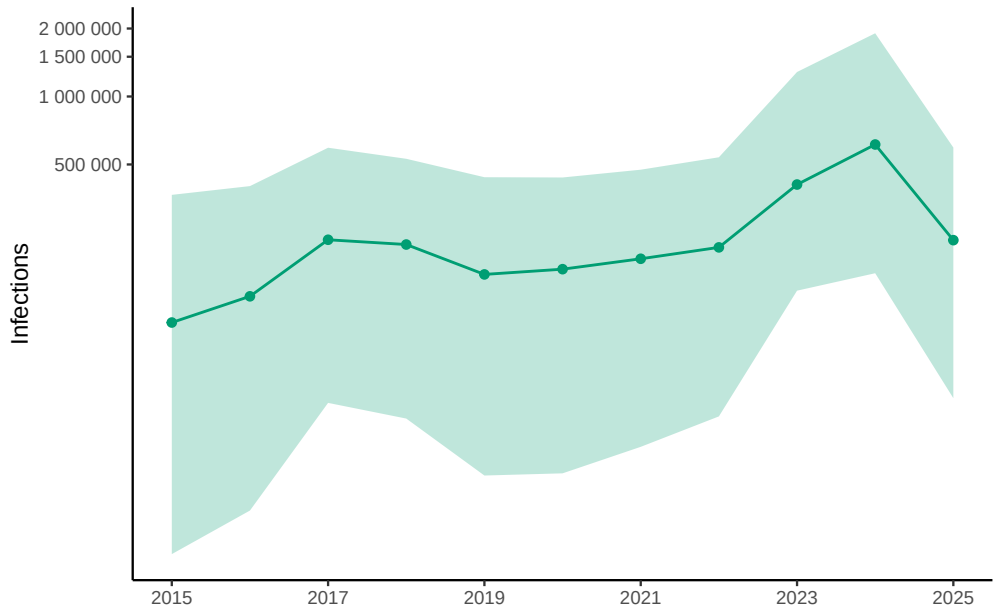

Retrospective weekly susceptible fraction

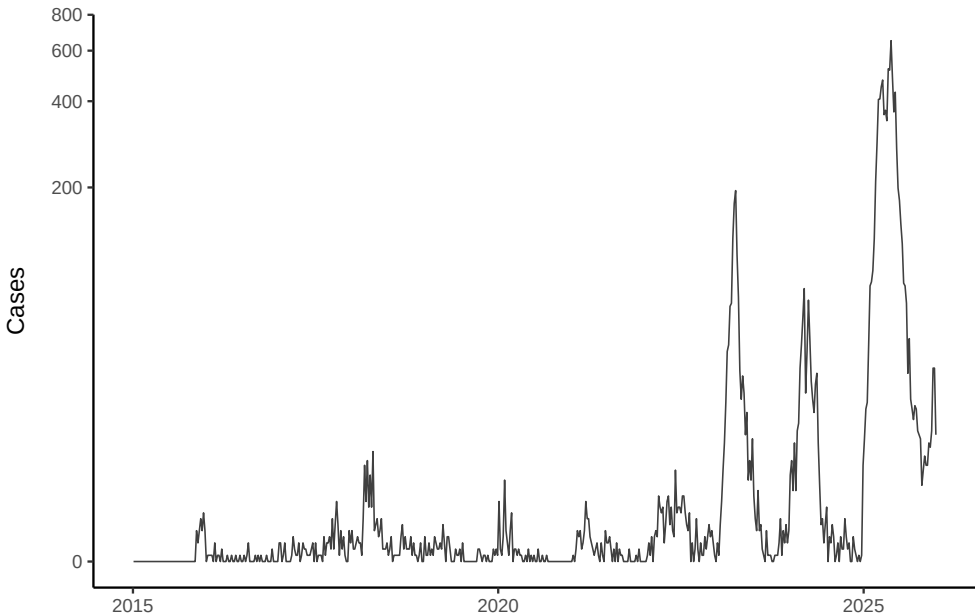

Annual FOI posterior

Annual latent infections posterior

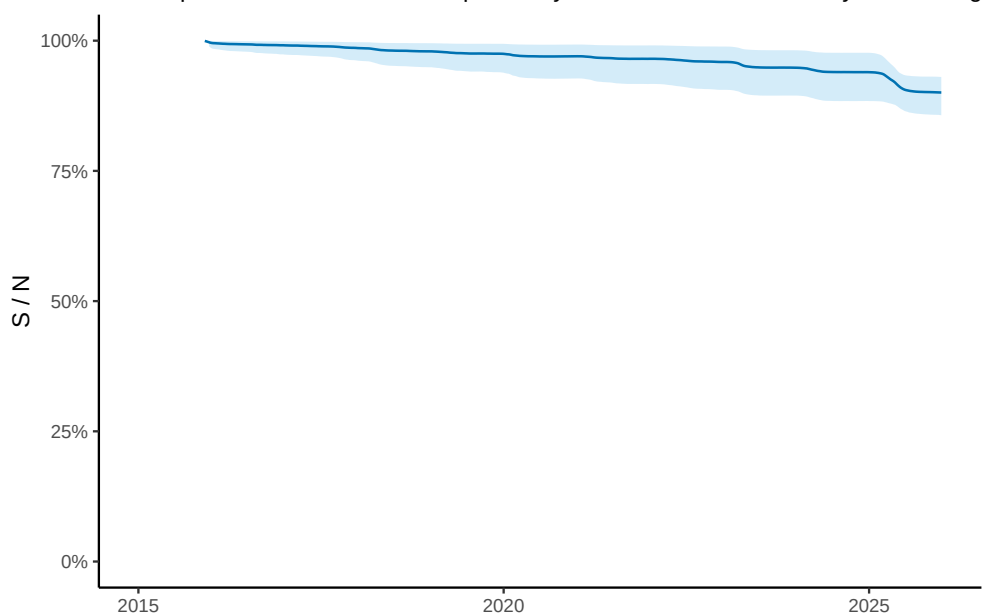

MS: confirmed weekly cases

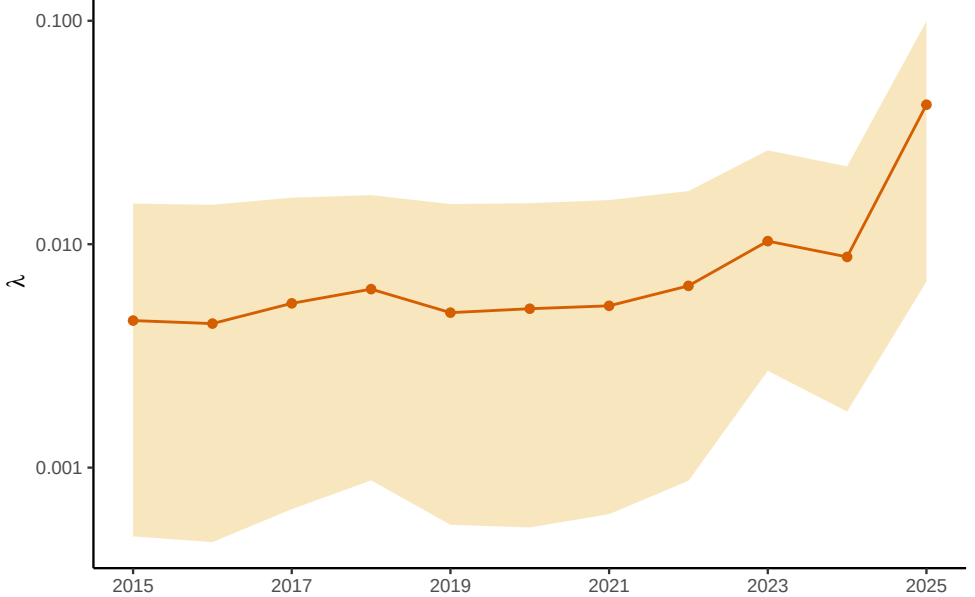

Retrospective weekly susceptible fraction

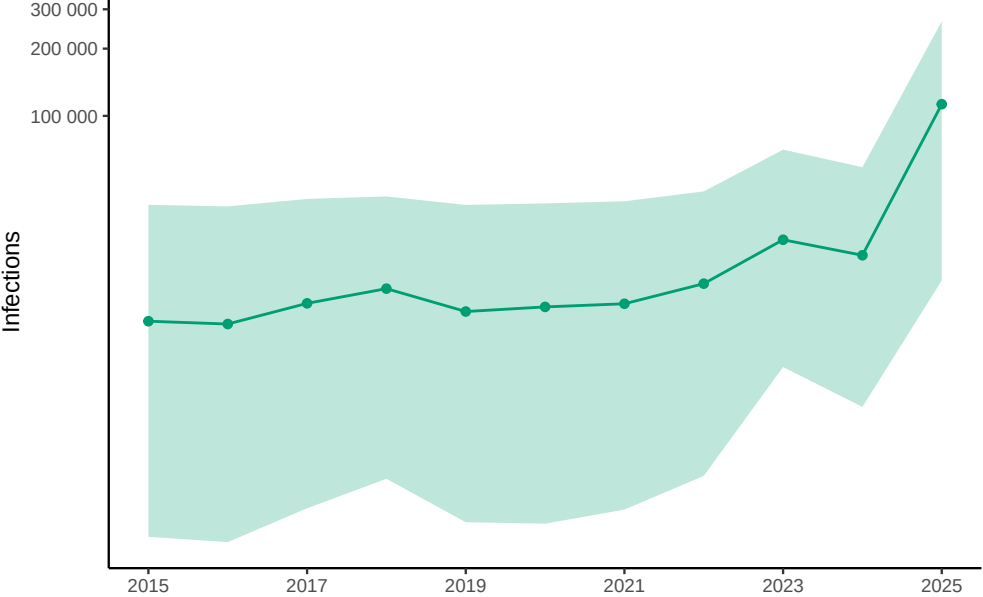

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

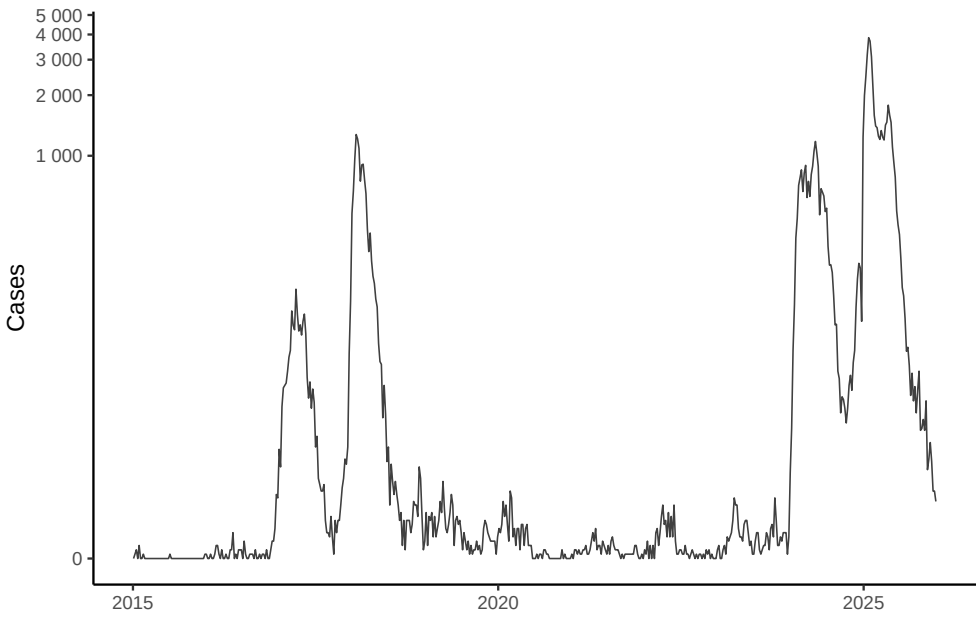

Annual FOI posterior

Annual latent infections posterior

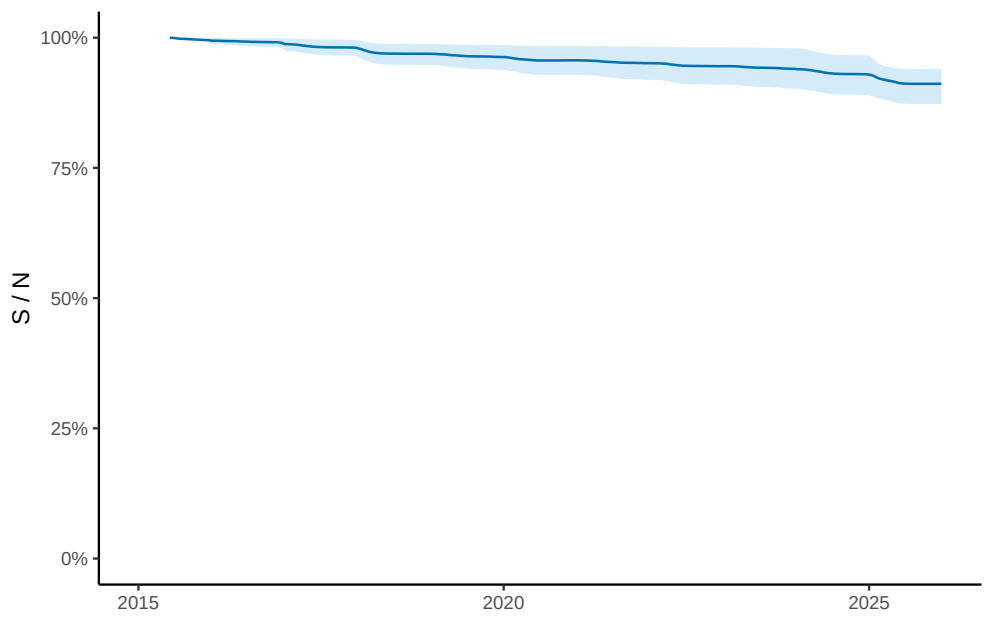

MT: confirmed weekly cases

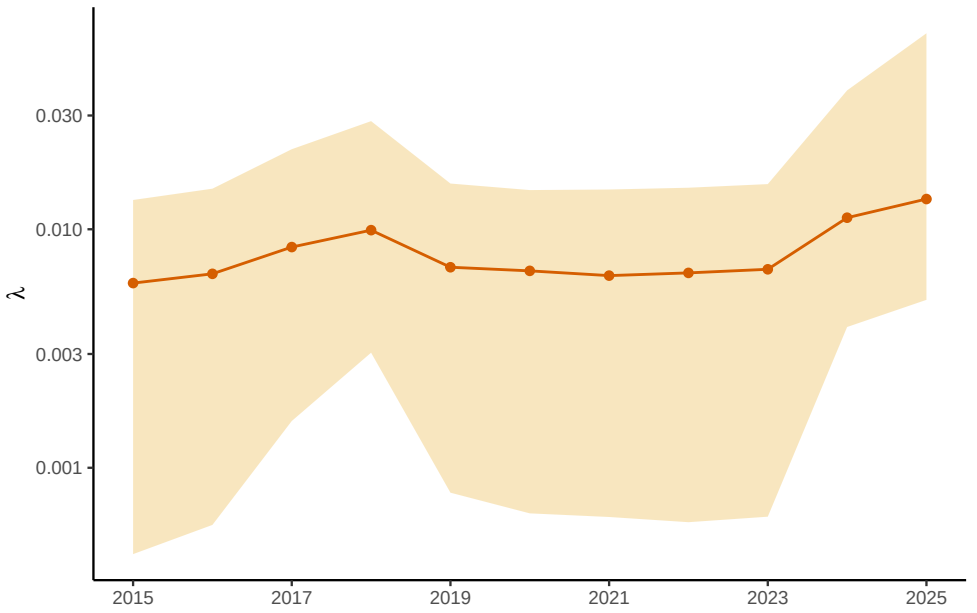

Retrospective weekly susceptible fraction

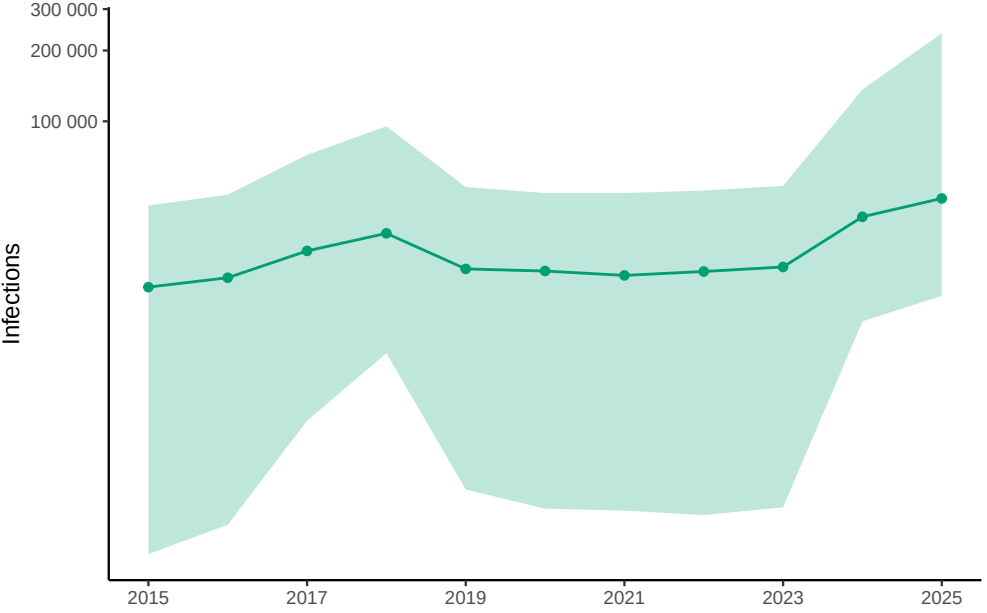

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

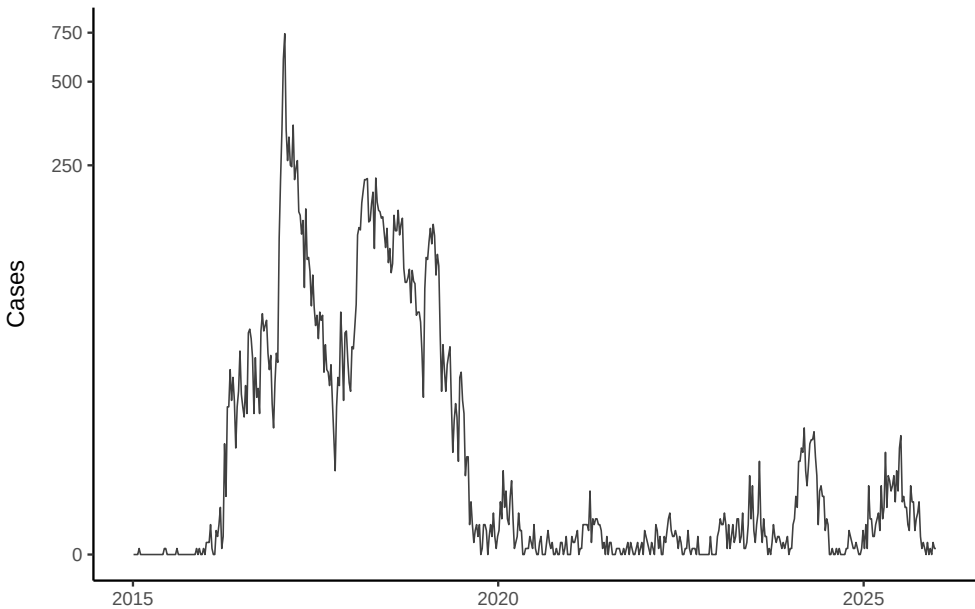

Annual FOI posterior

Annual latent infections posterior

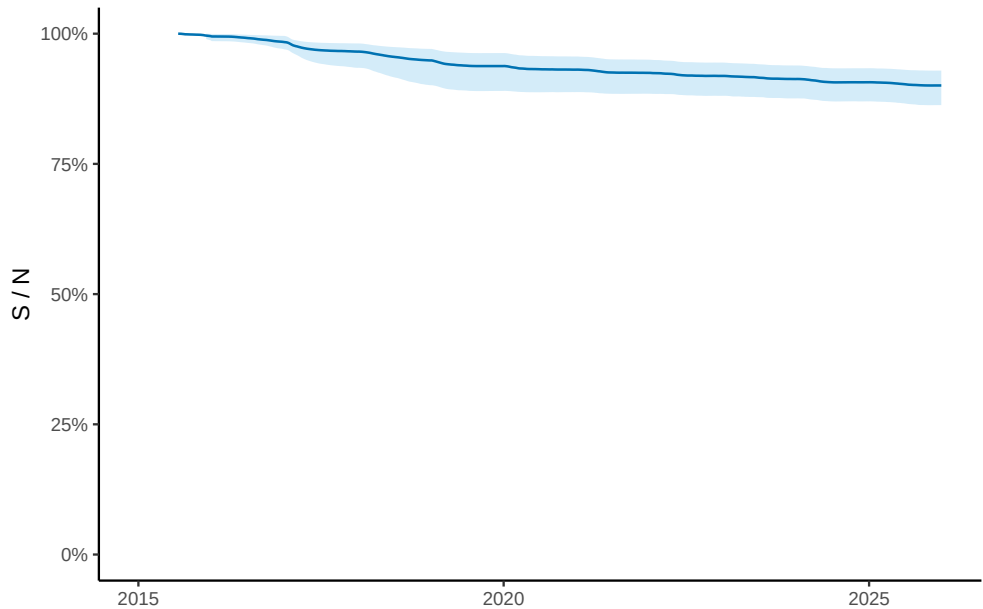

PA: confirmed weekly cases

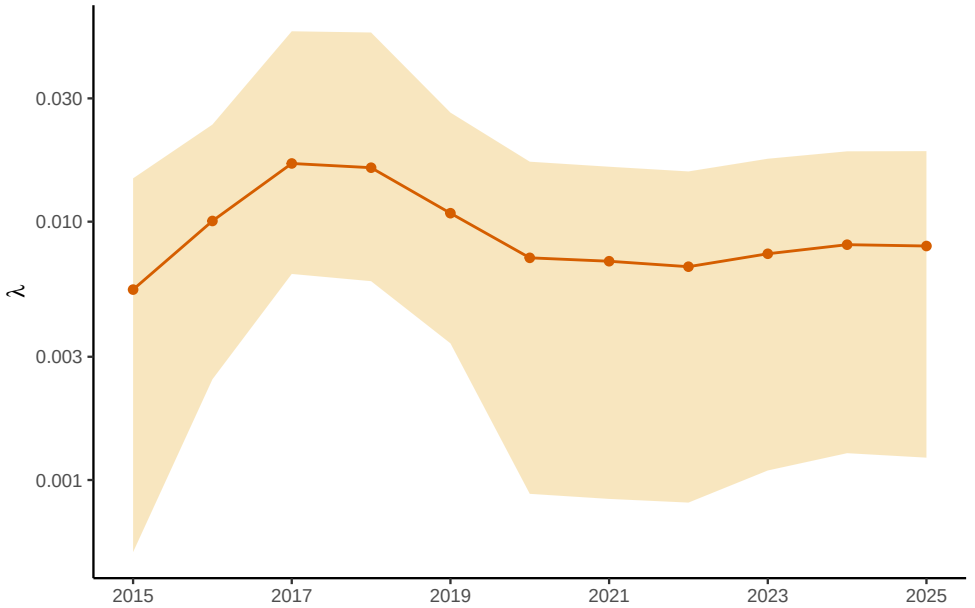

Retrospective weekly susceptible fraction

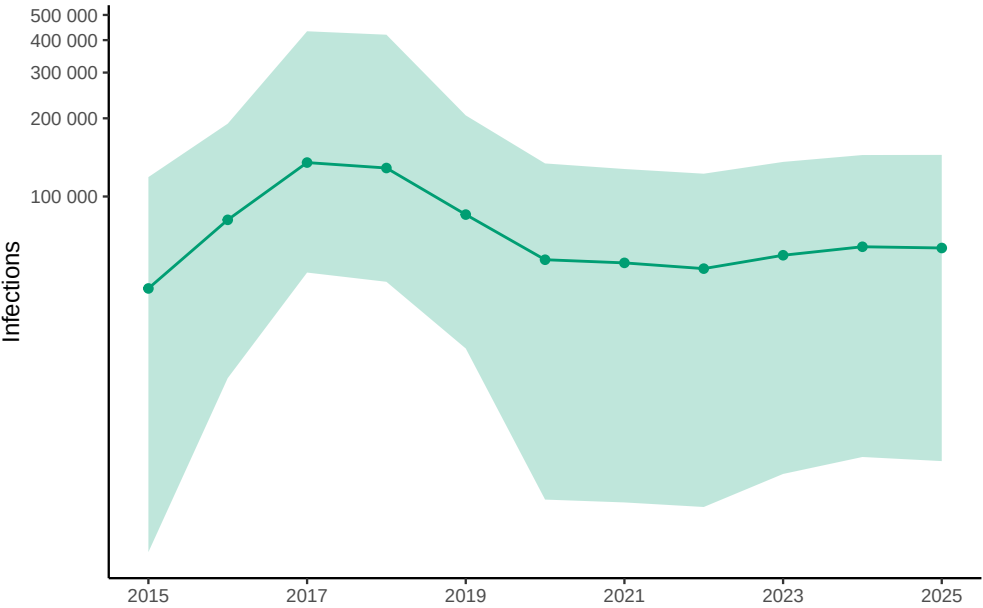

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

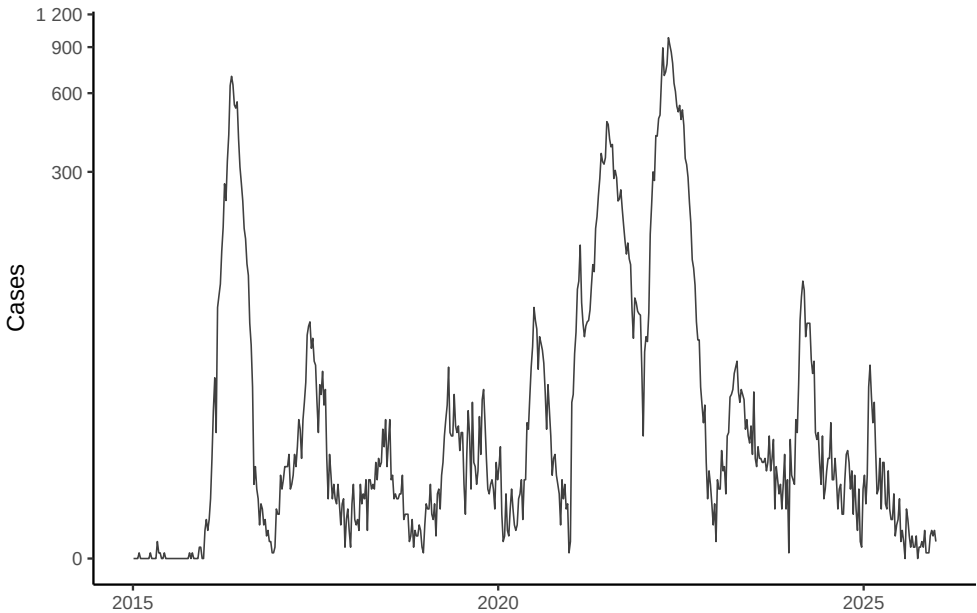

Annual FOI posterior

Annual latent infections posterior

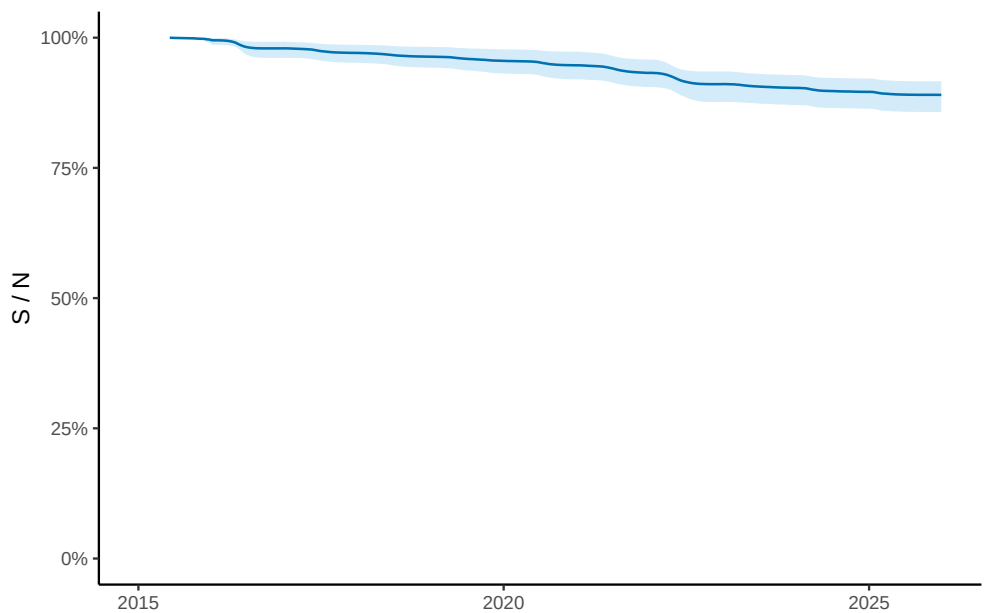

PB: confirmed weekly cases

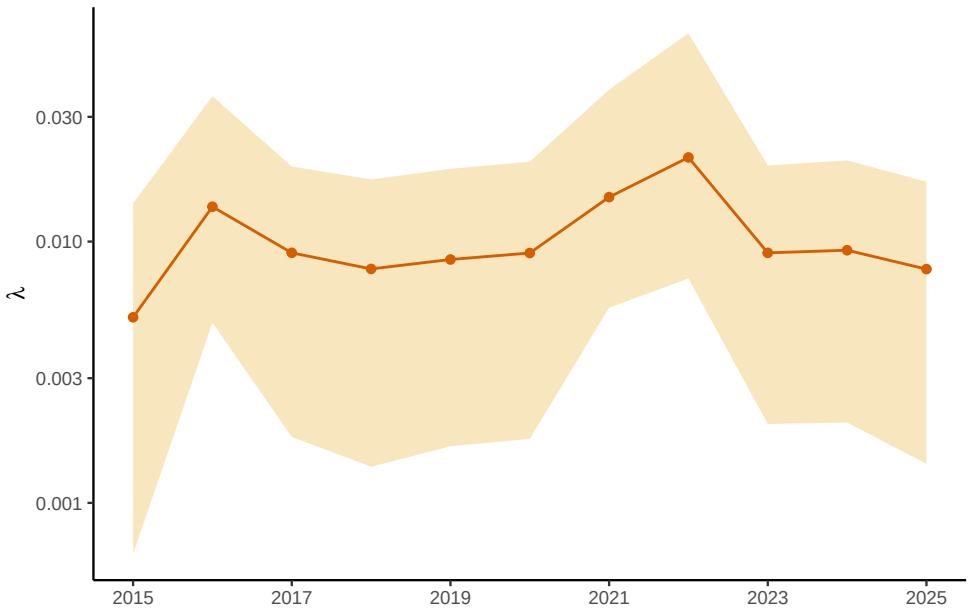

Retrospective weekly susceptible fraction

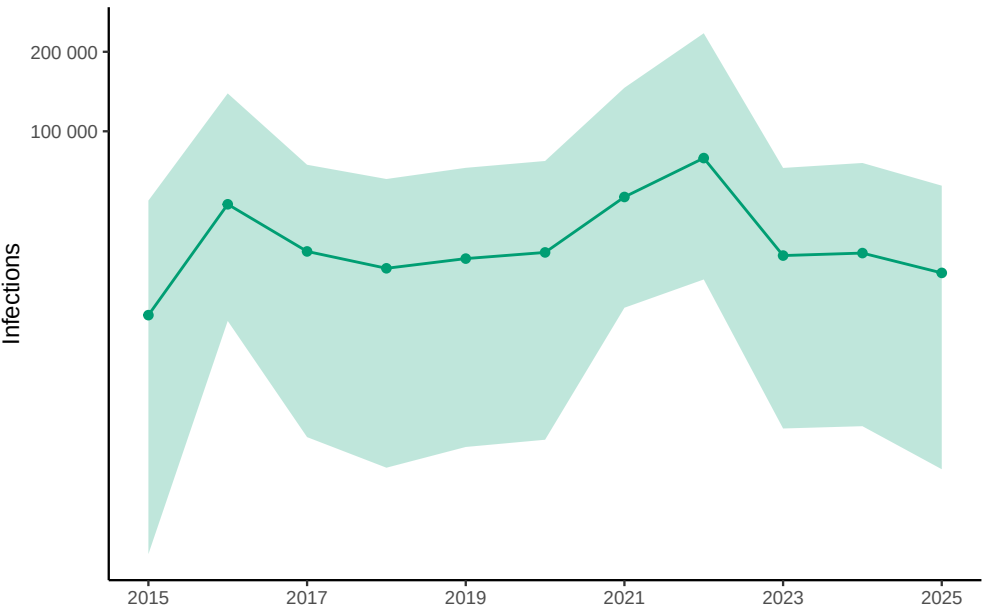

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

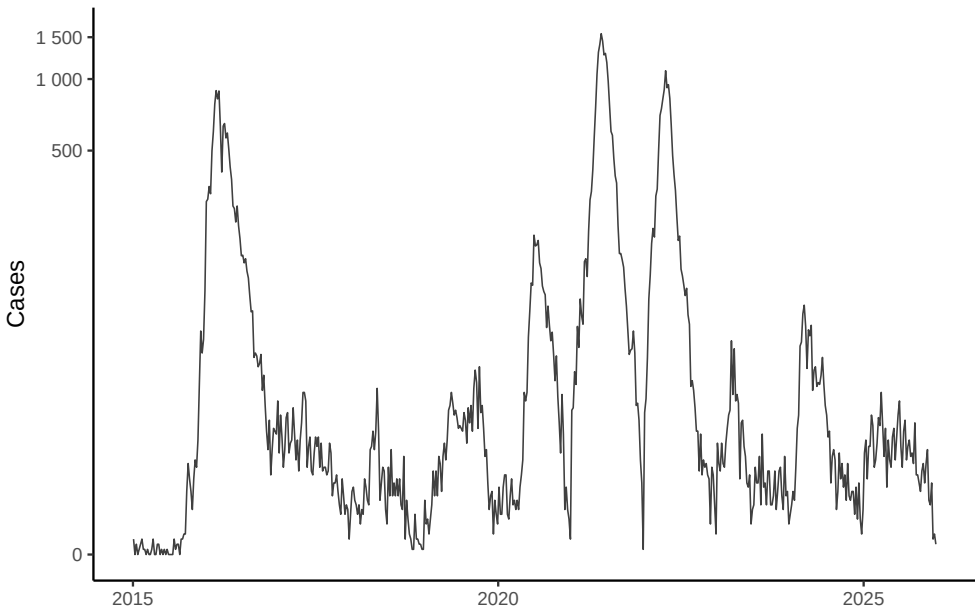

Annual FOI posterior

Annual latent infections posterior

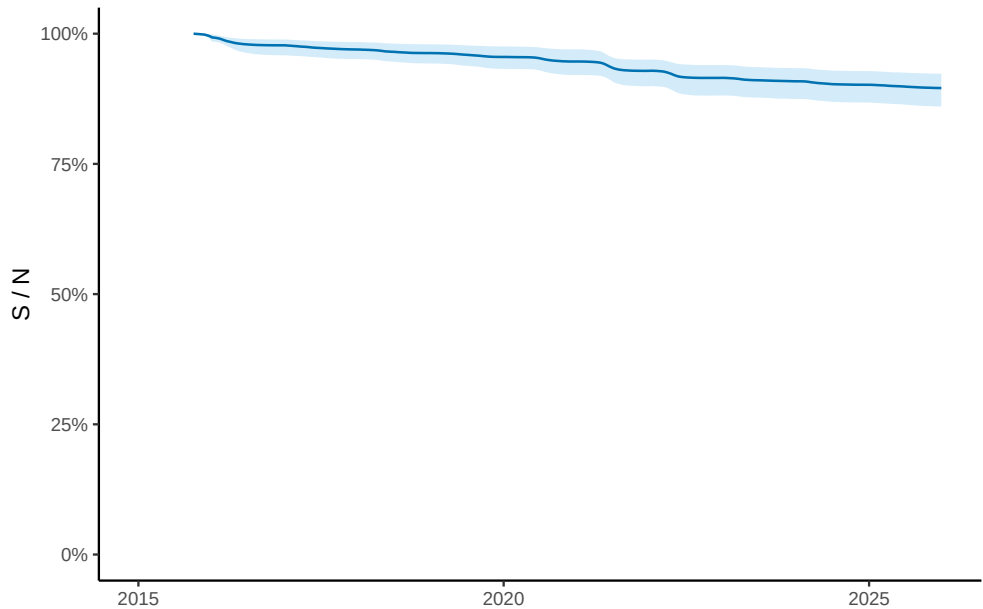

PE: confirmed weekly cases

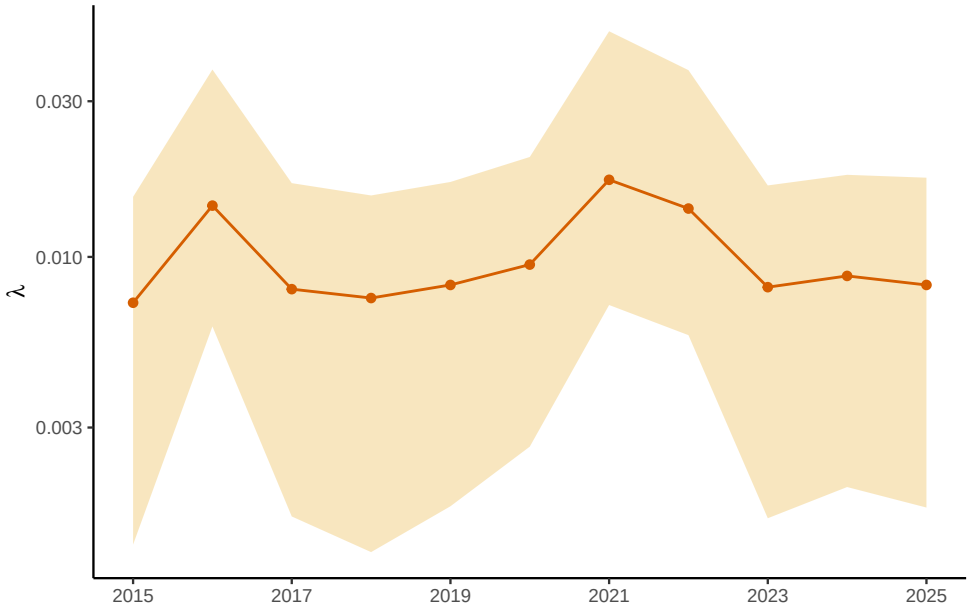

Retrospective weekly susceptible fraction

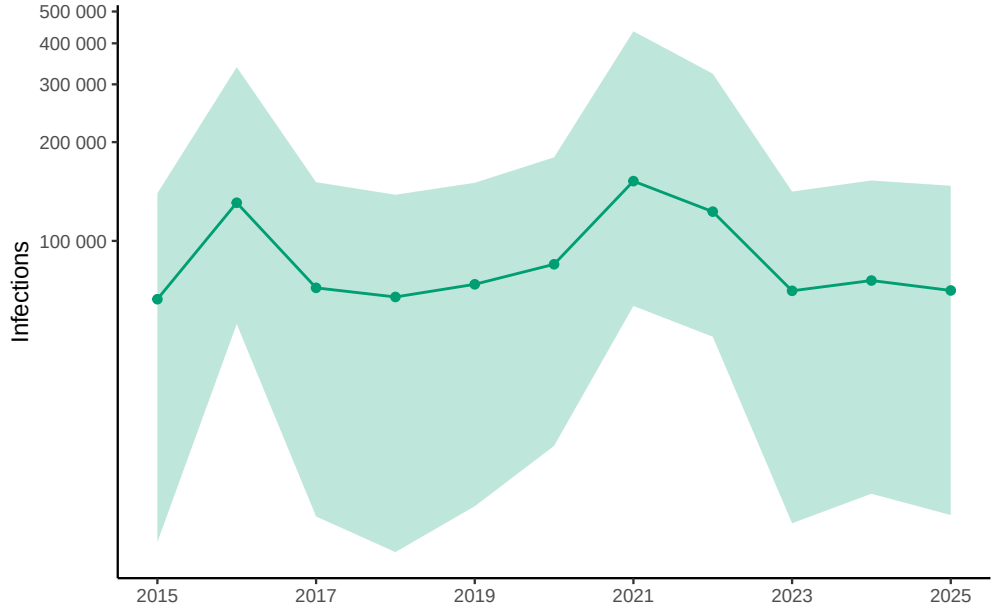

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

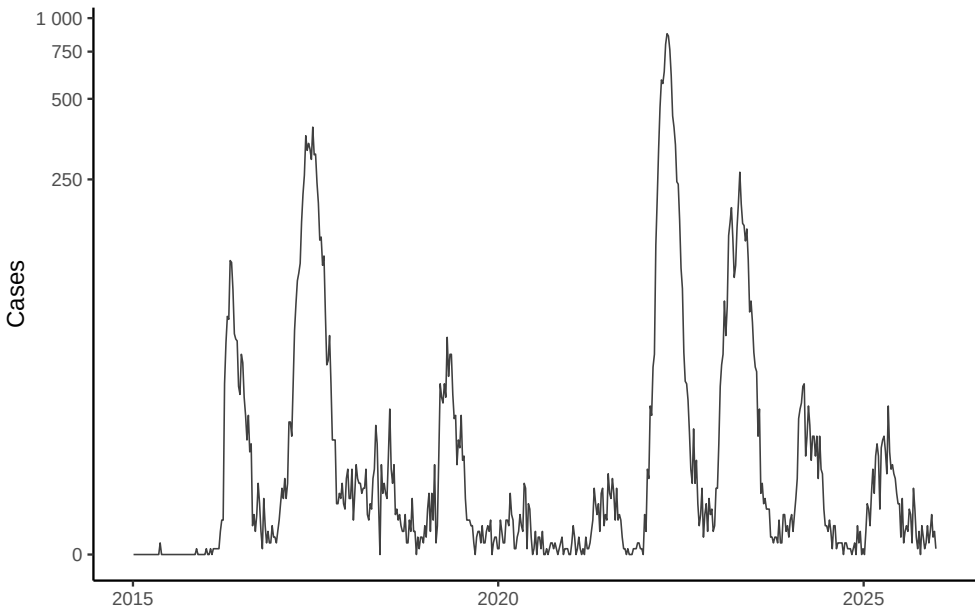

Annual FOI posterior

Annual latent infections posterior

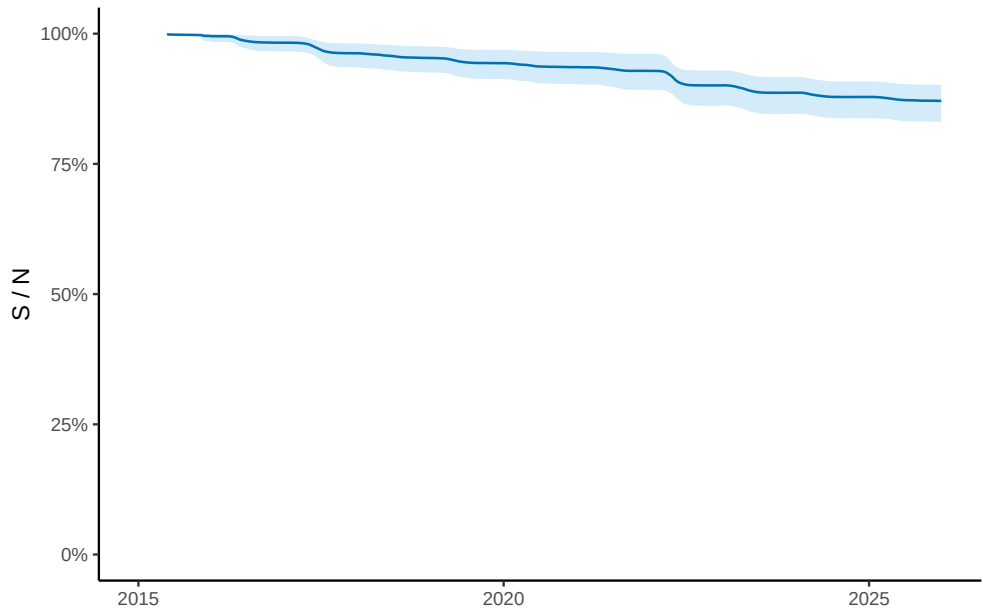

PI: confirmed weekly cases

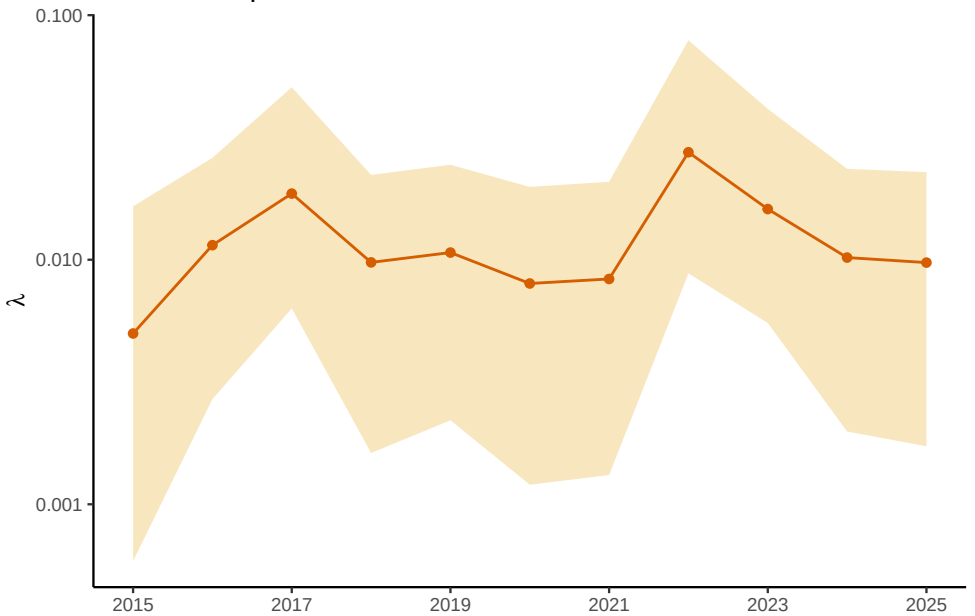

Retrospective weekly susceptible fraction

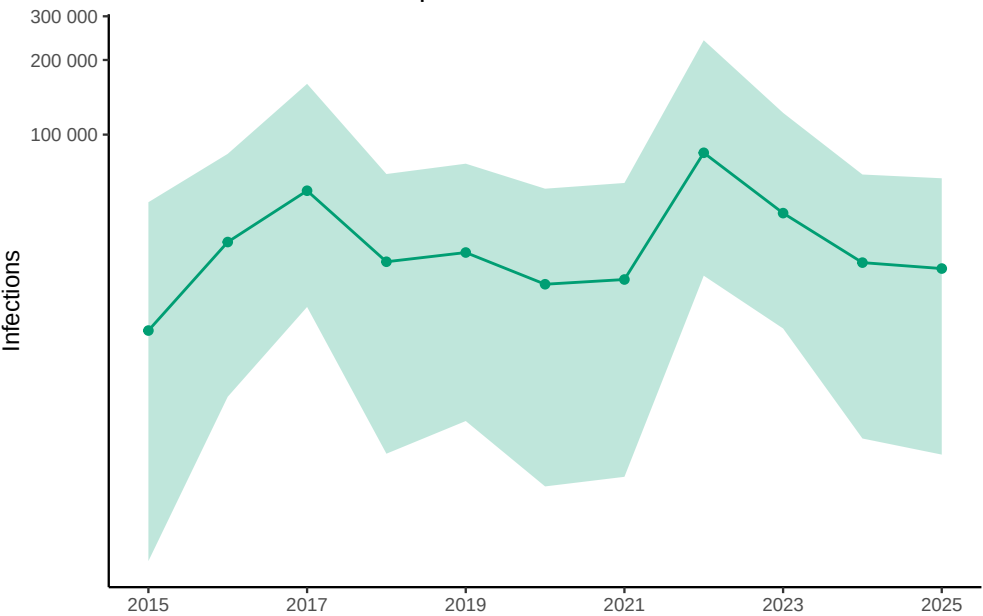

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

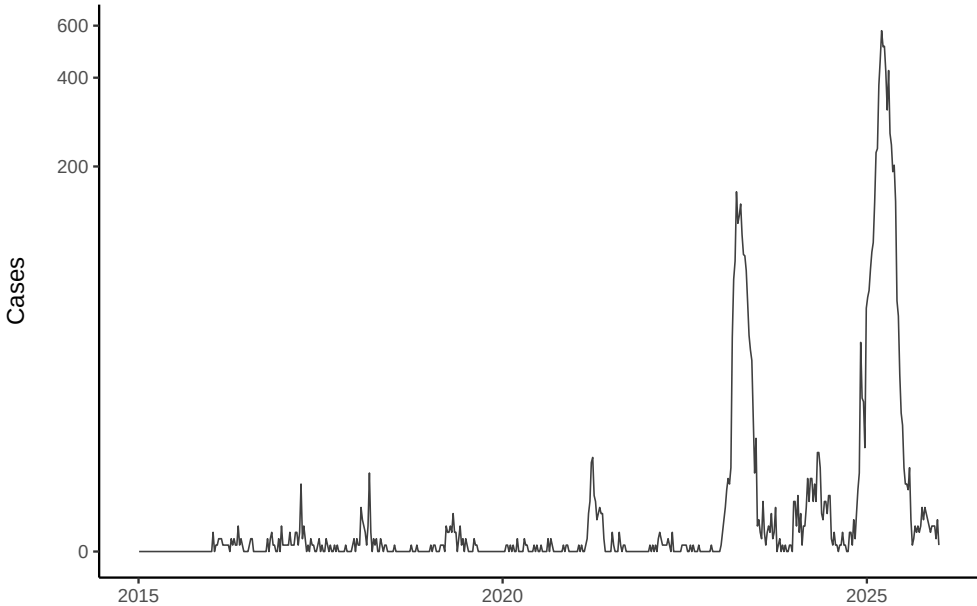

Annual FOI posterior

Annual latent infections posterior

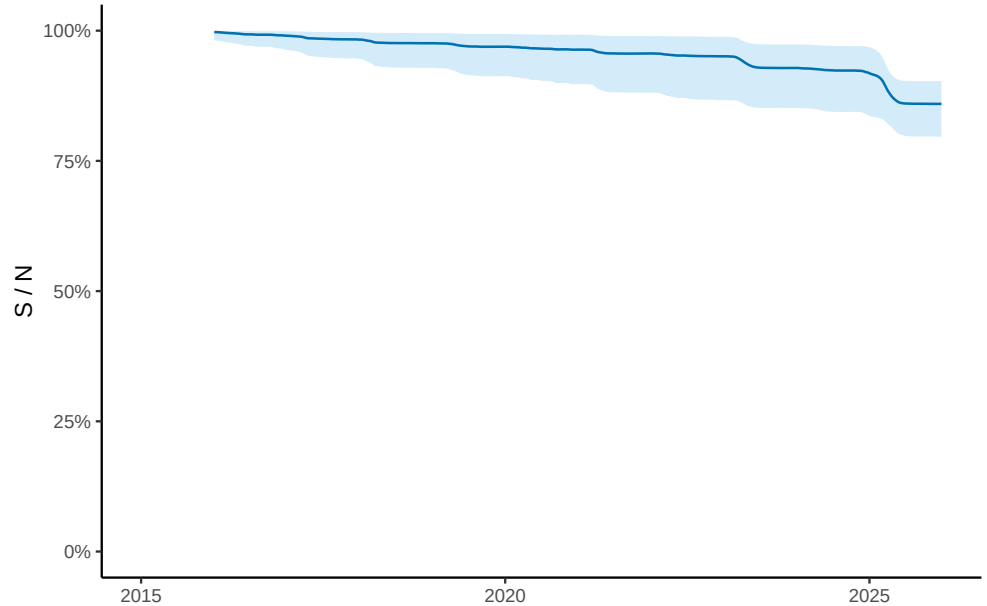

PR: confirmed weekly cases

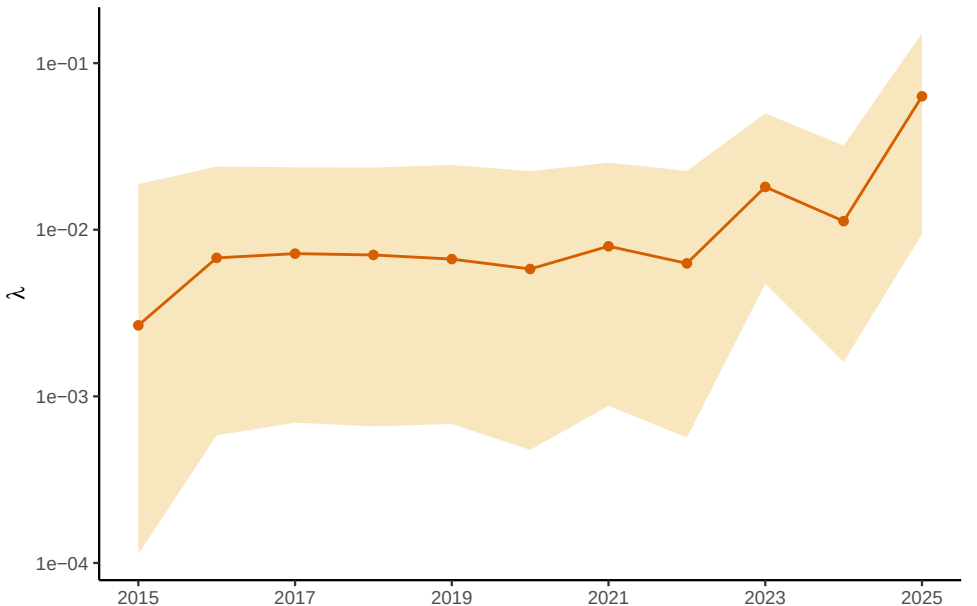

Retrospective weekly susceptible fraction

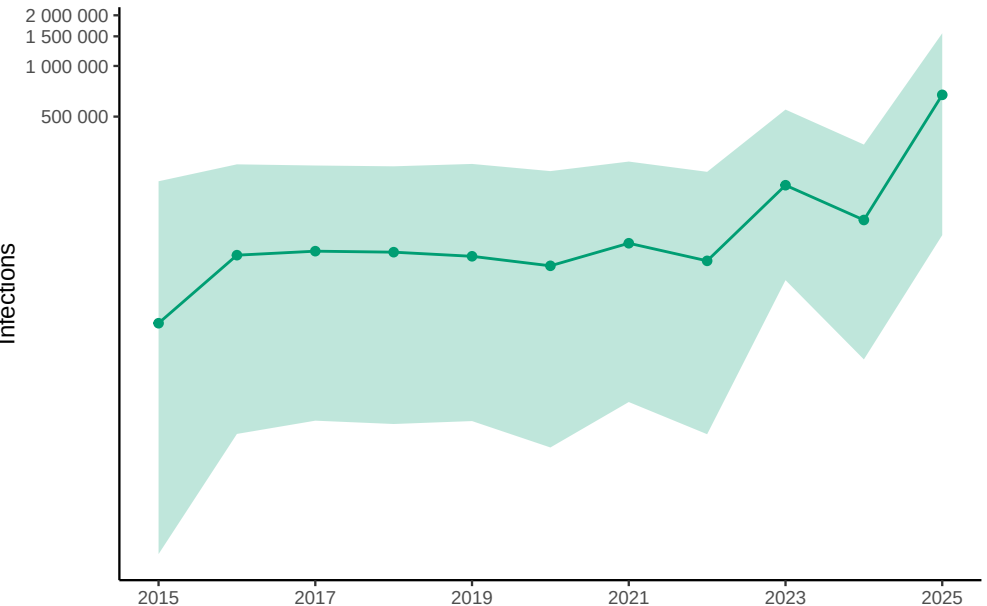

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

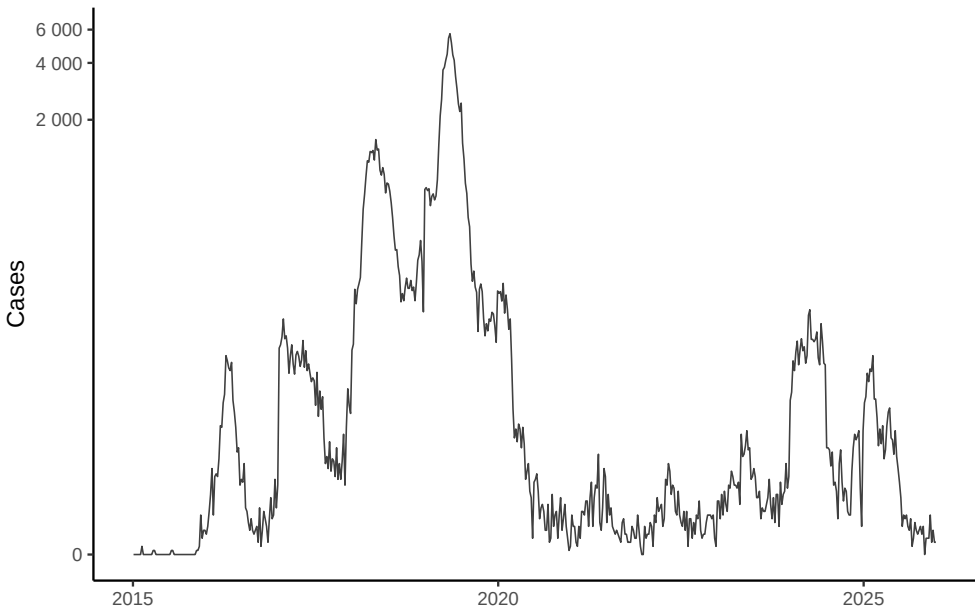

Annual FOI posterior

Annual latent infections posterior

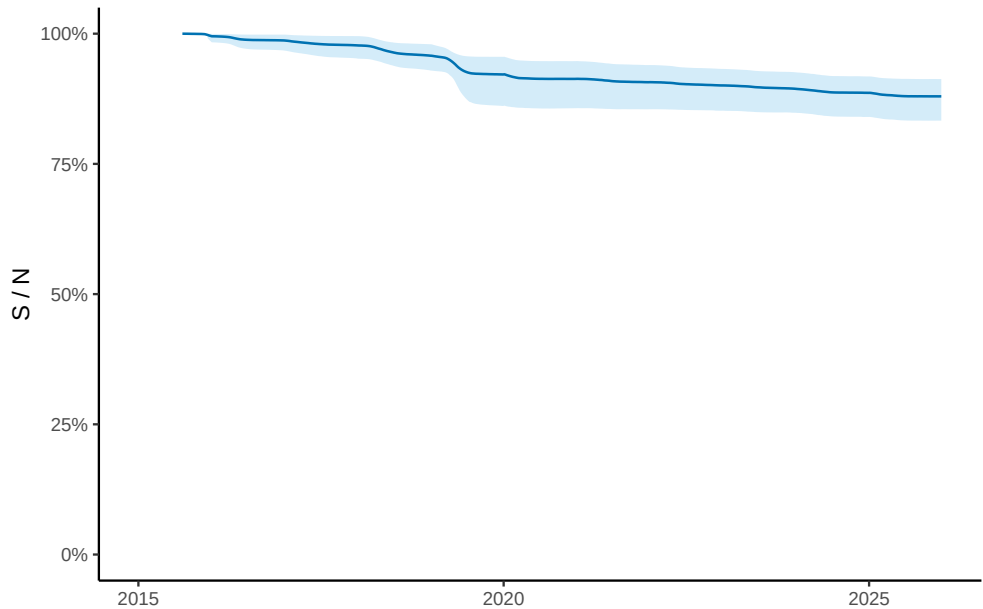

RJ: confirmed weekly cases

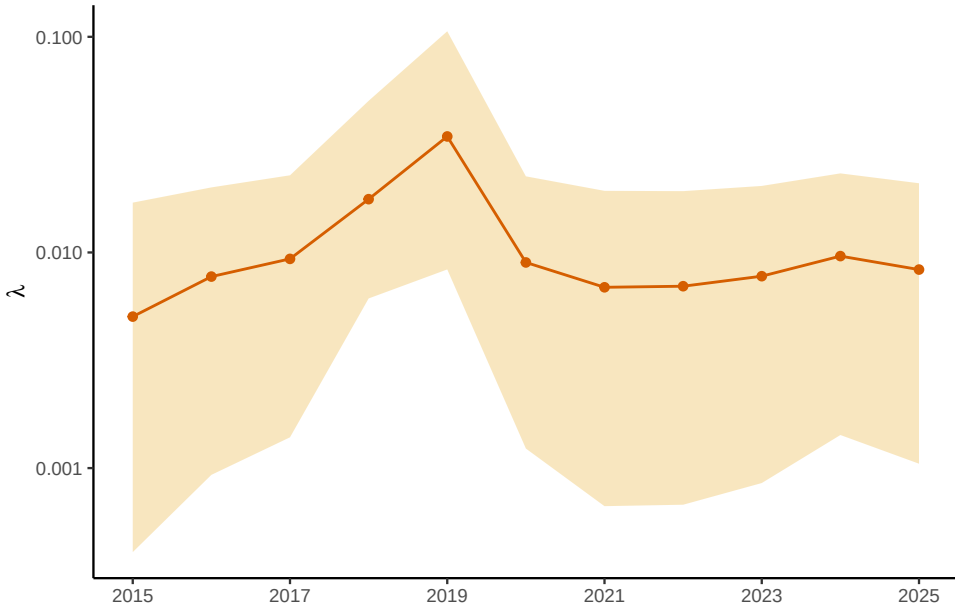

Retrospective weekly susceptible fraction

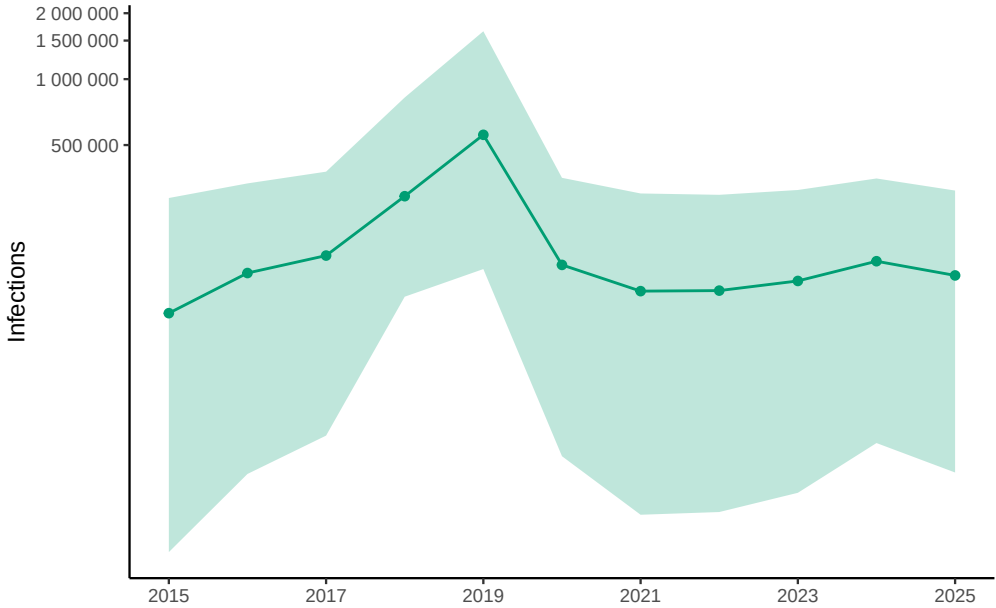

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

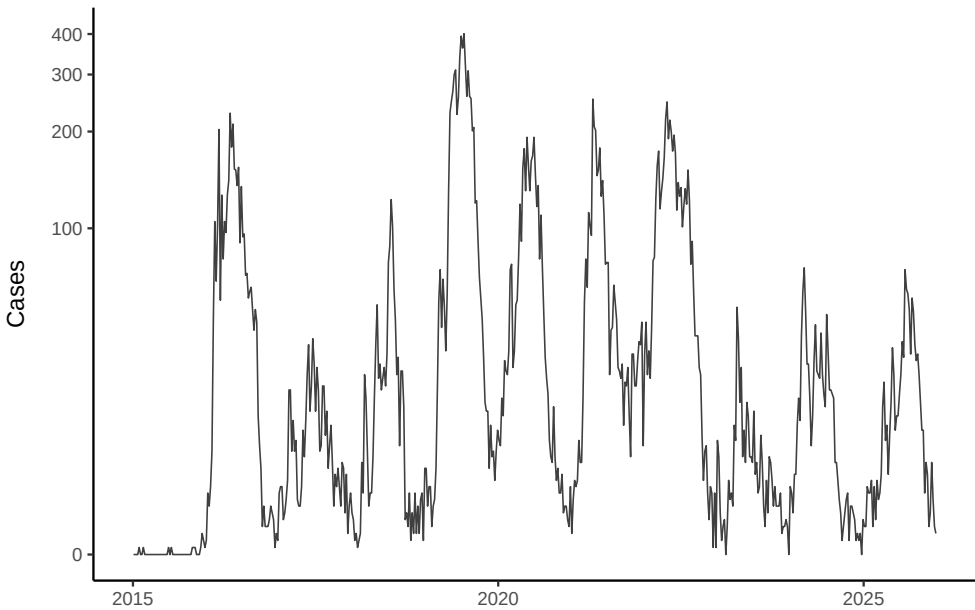

Annual FOI posterior

Annual latent infections posterior

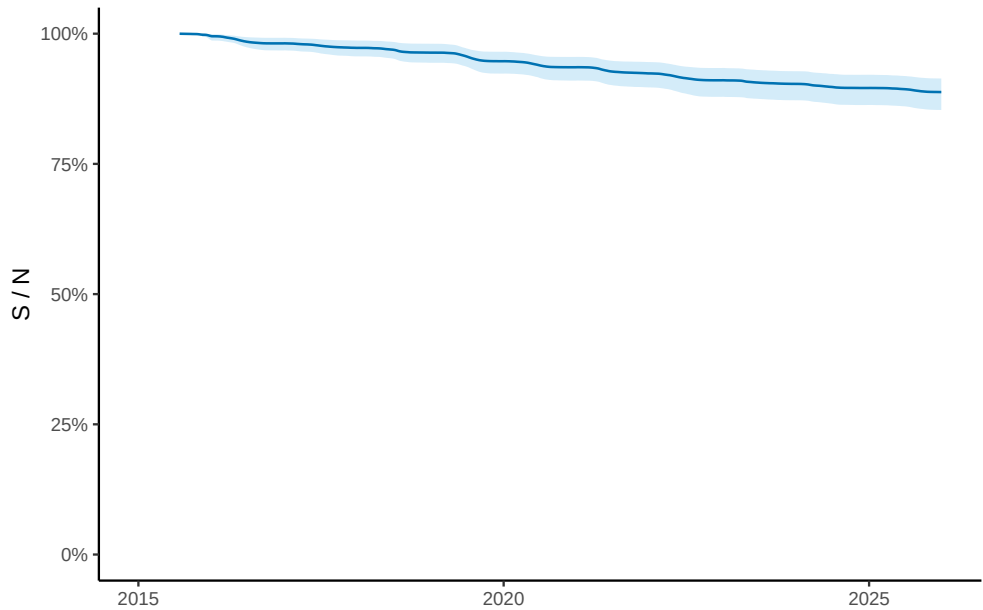

RN: confirmed weekly cases

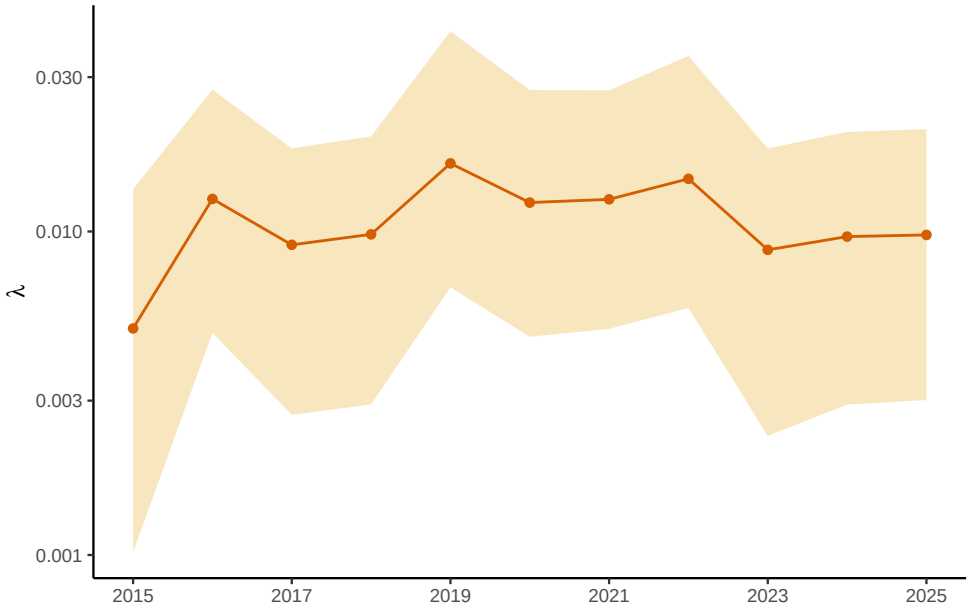

Retrospective weekly susceptible fraction

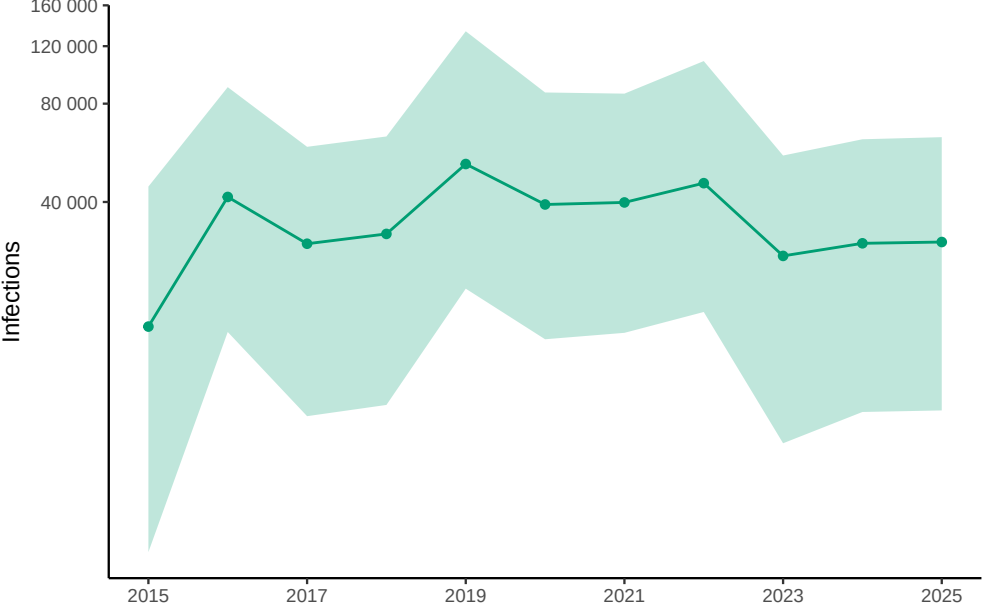

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

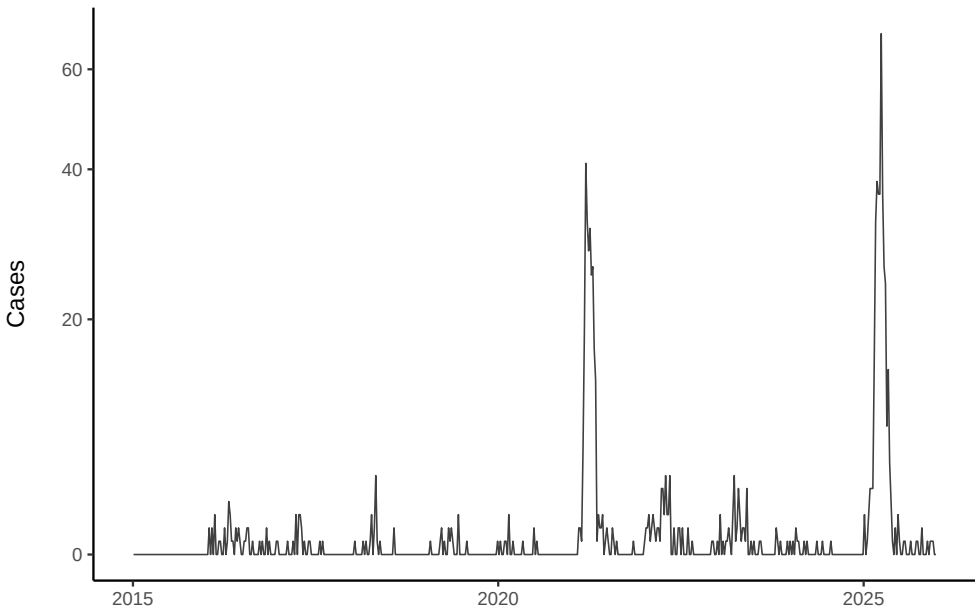

Annual FOI posterior

Annual latent infections posterior

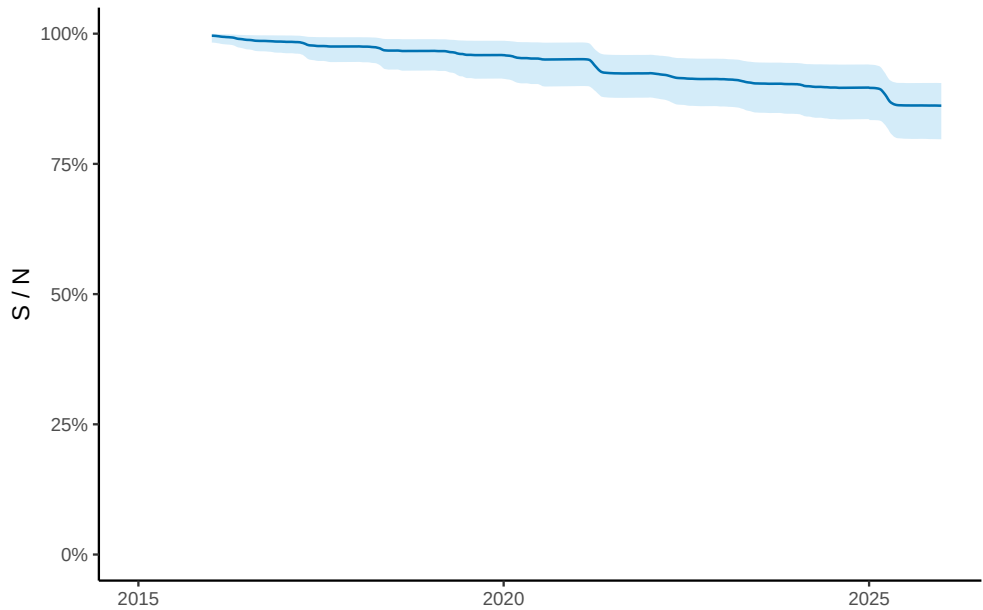

RS: confirmed weekly cases

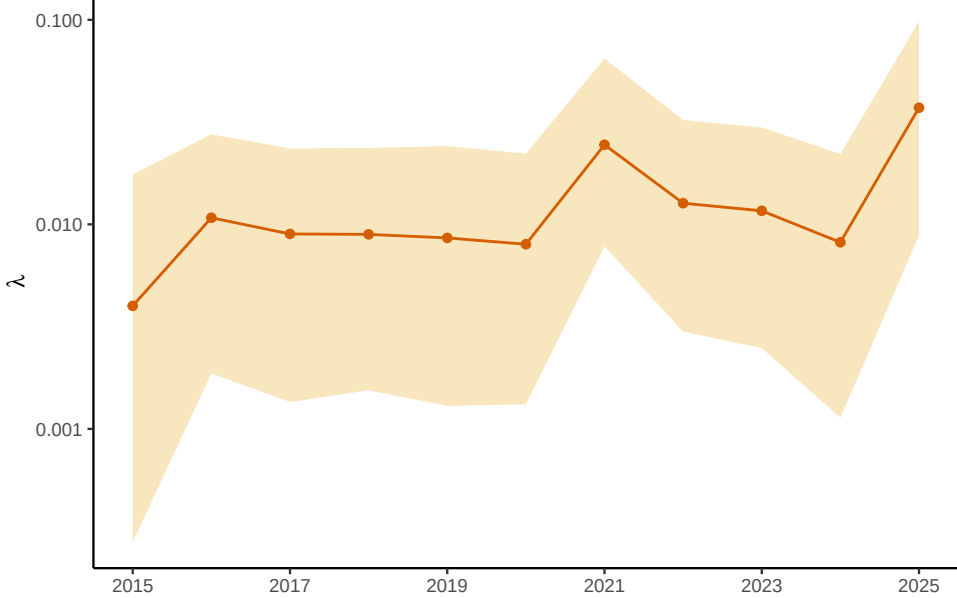

Retrospective weekly susceptible fraction

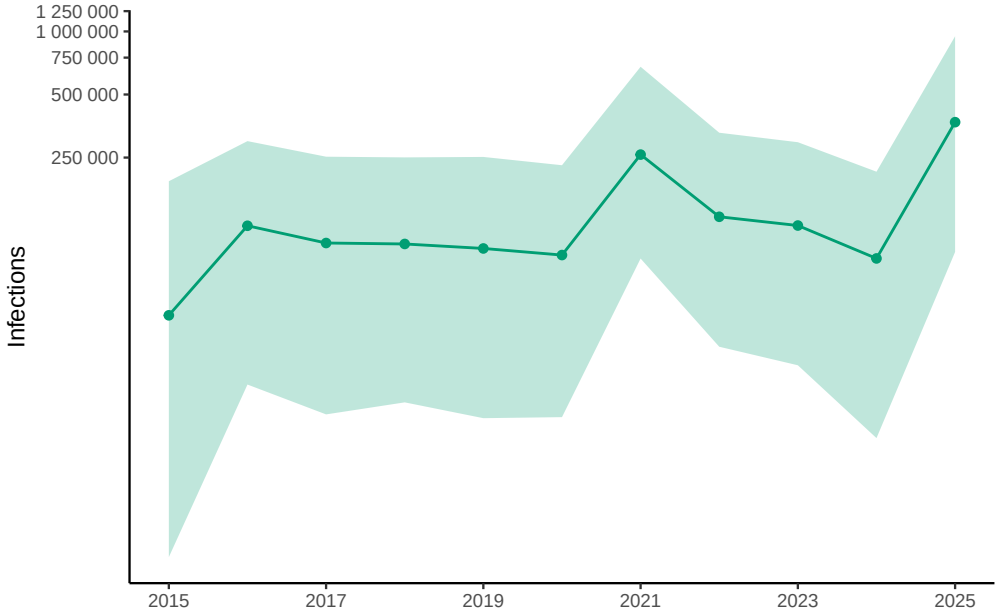

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

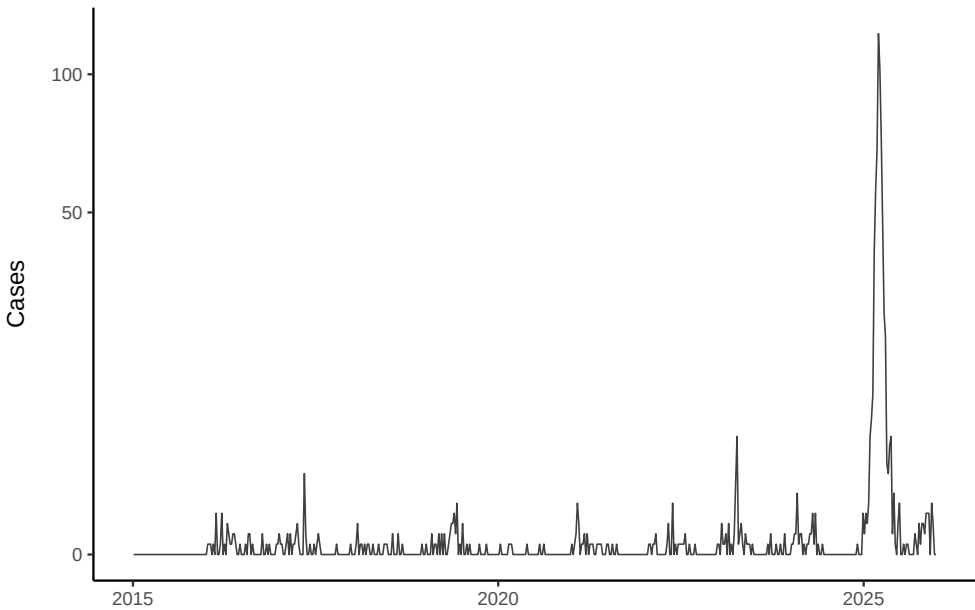

Annual FOI posterior

Annual latent infections posterior

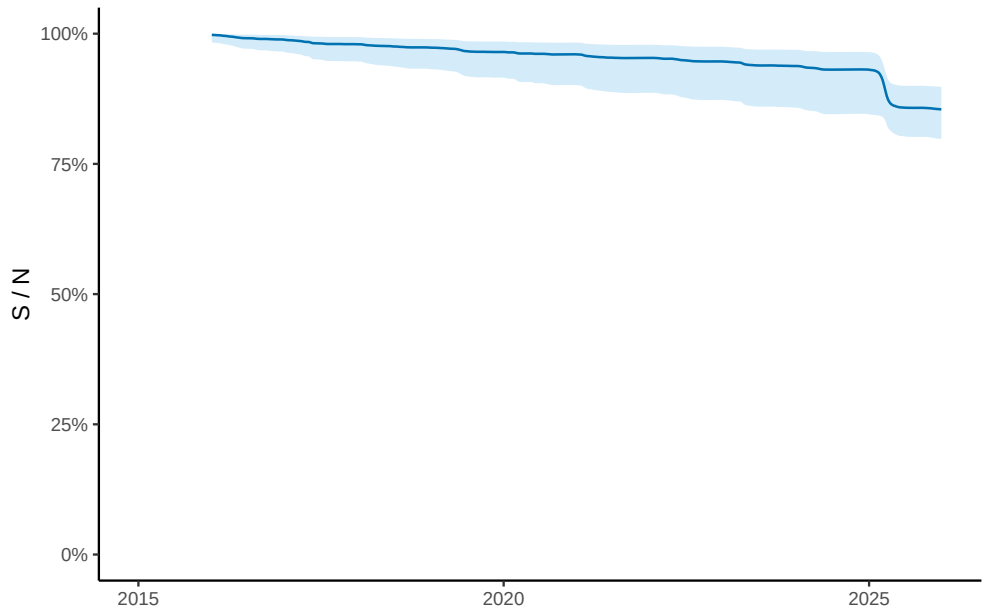

SC: confirmed weekly cases

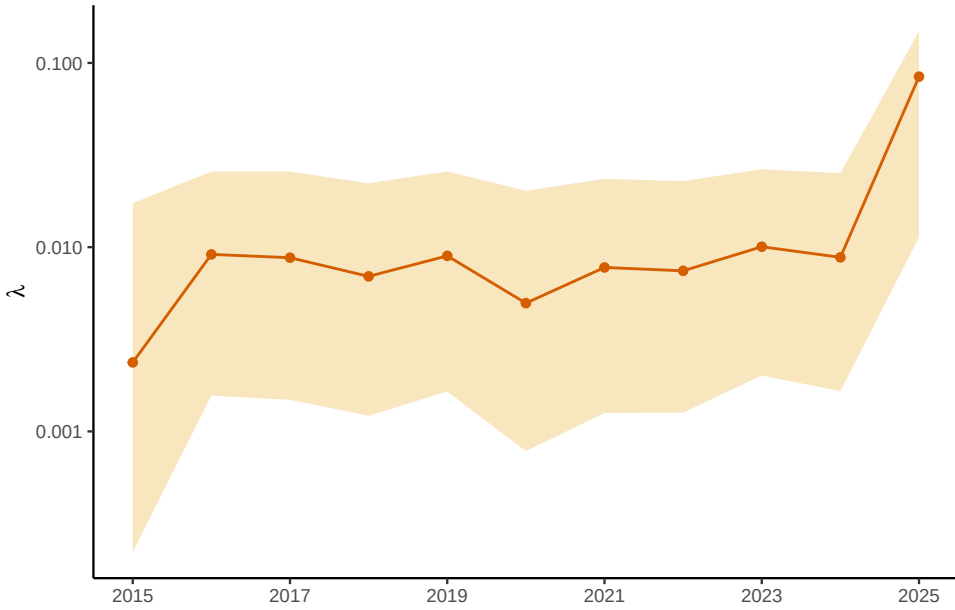

Retrospective weekly susceptible fraction

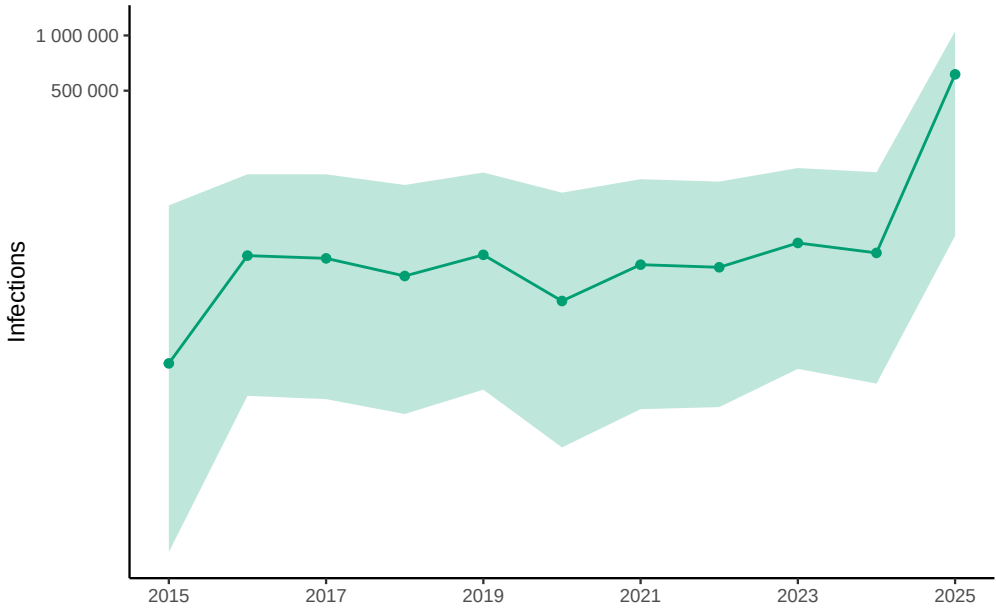

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

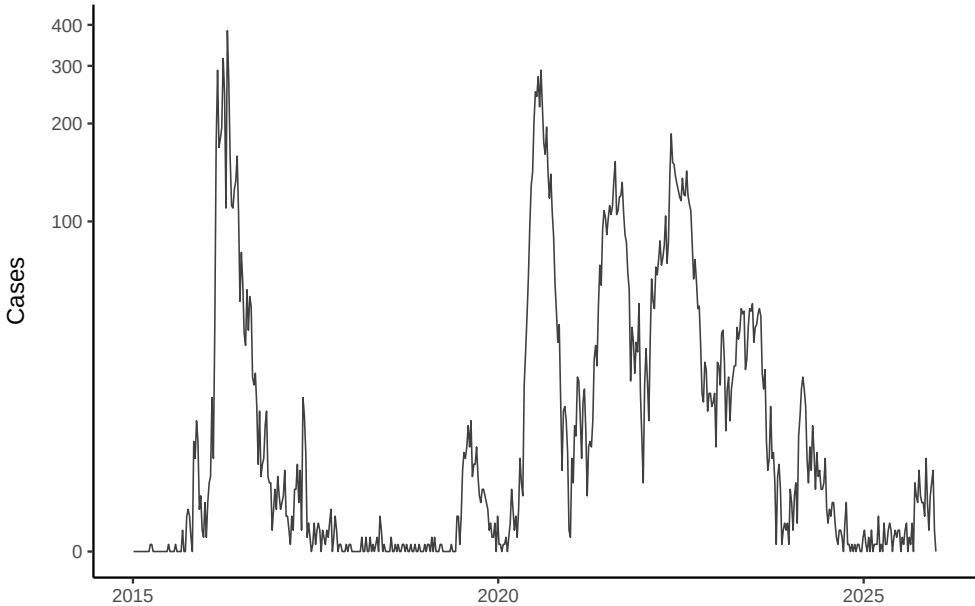

Annual FOI posterior

Annual latent infections posterior

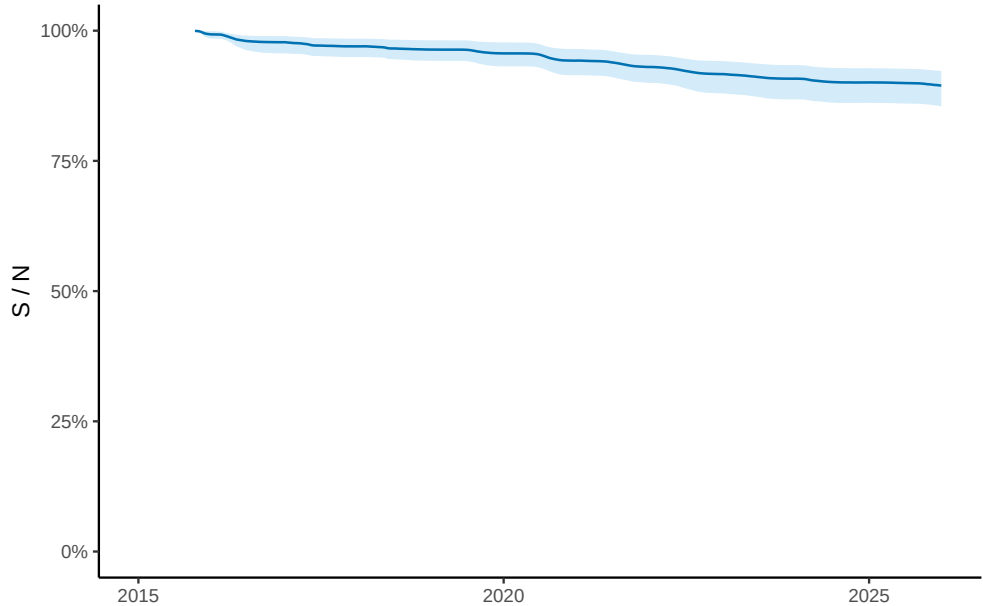

SE: confirmed weekly cases

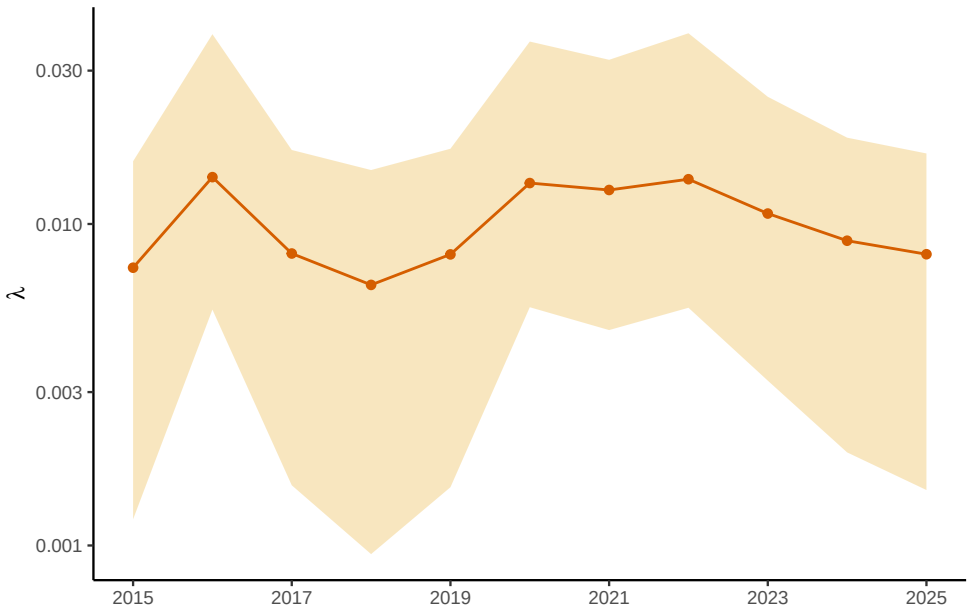

Retrospective weekly susceptible fraction

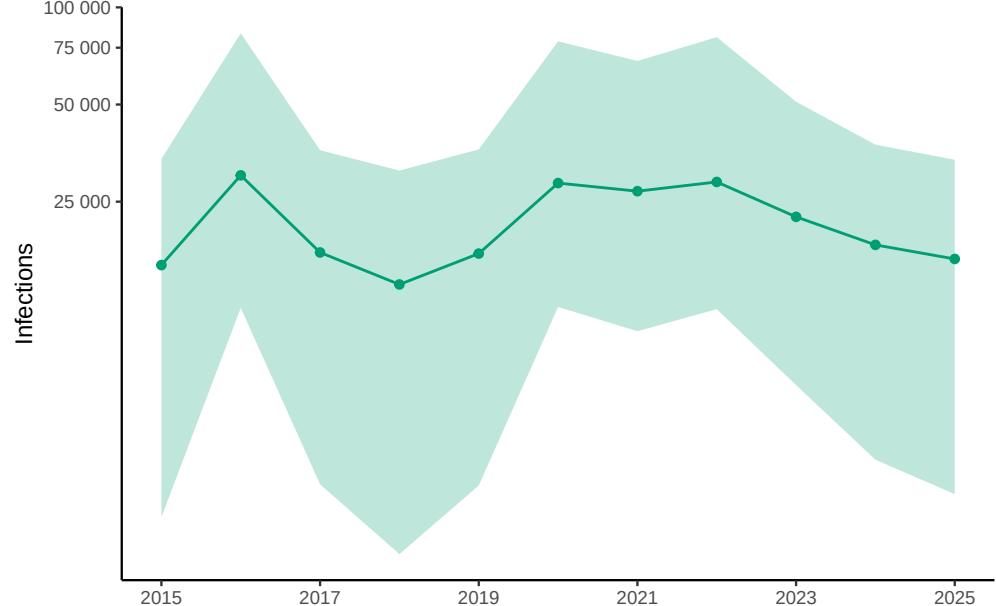

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

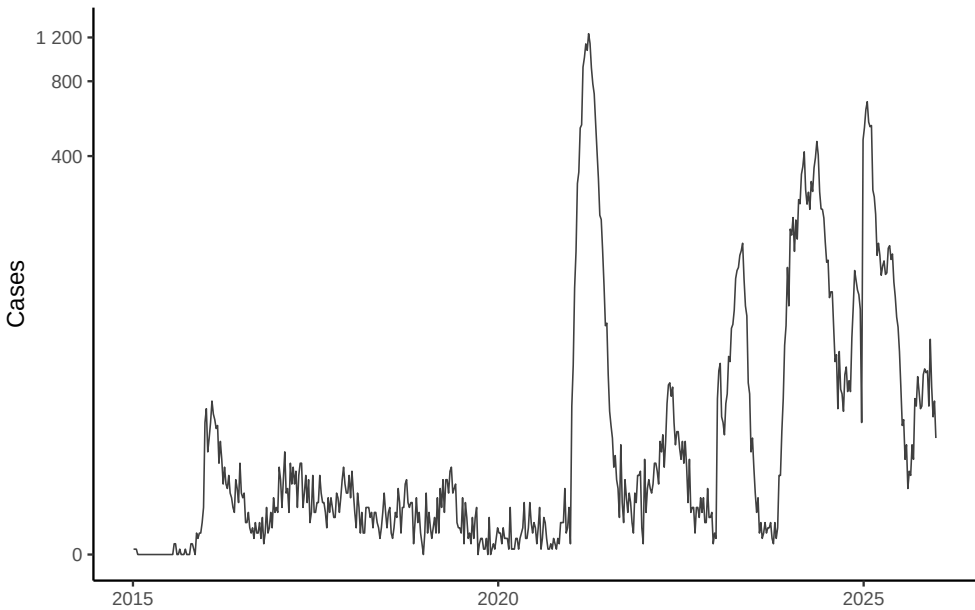

Annual FOI posterior

Annual latent infections posterior

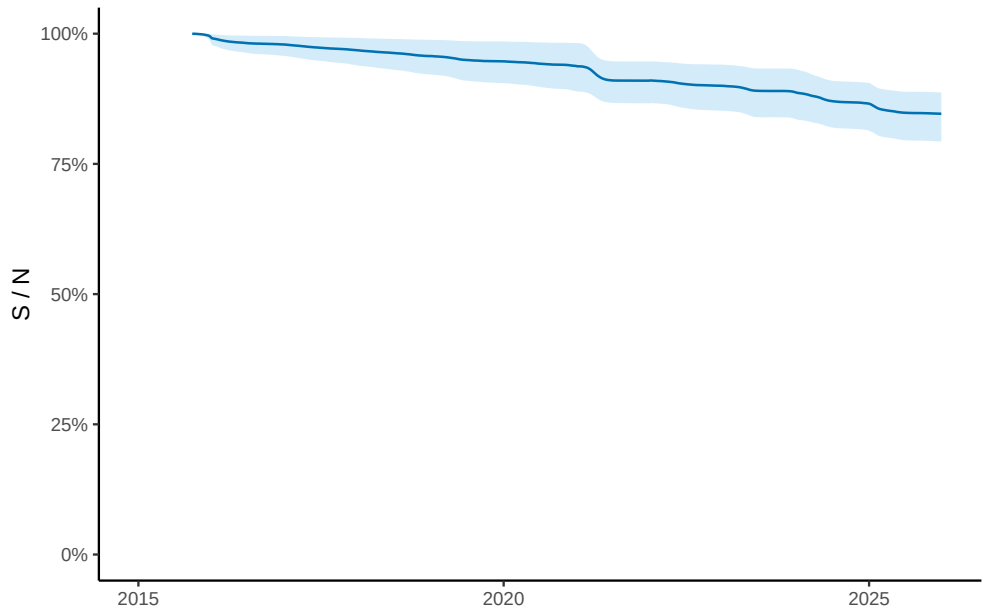

SP: confirmed weekly cases

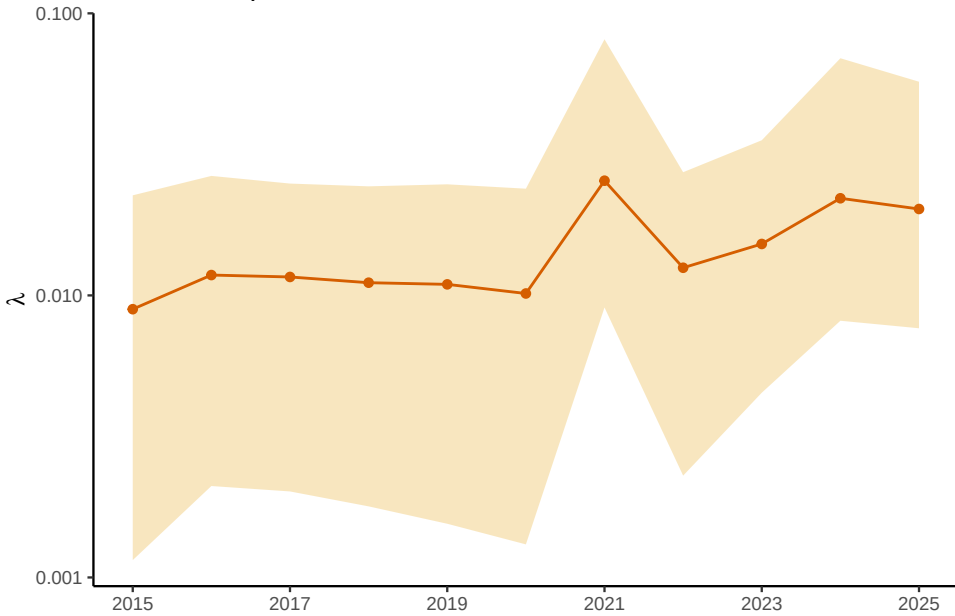

Retrospective weekly susceptible fraction

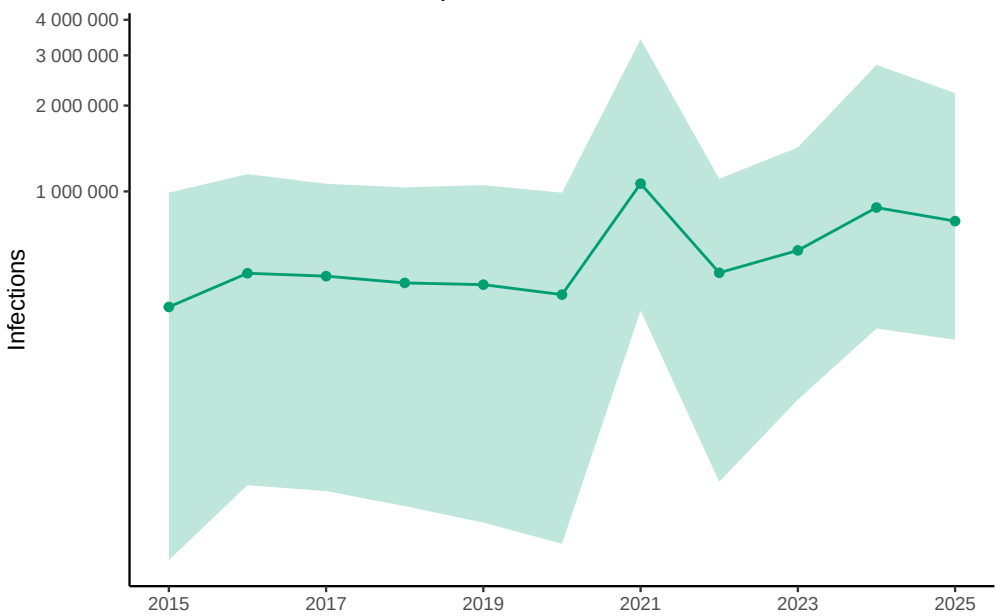

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

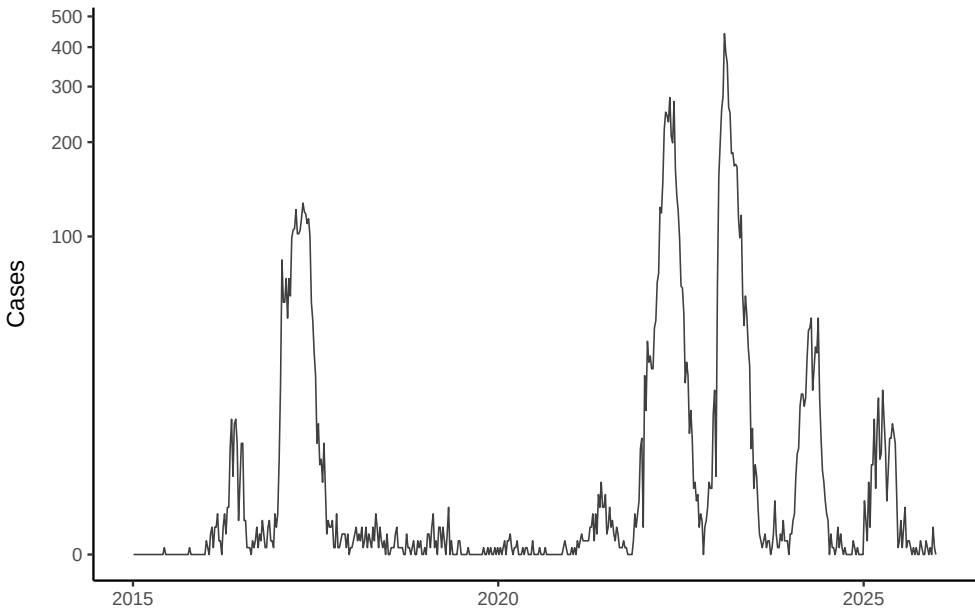

Annual FOI posterior

Annual latent infections posterior

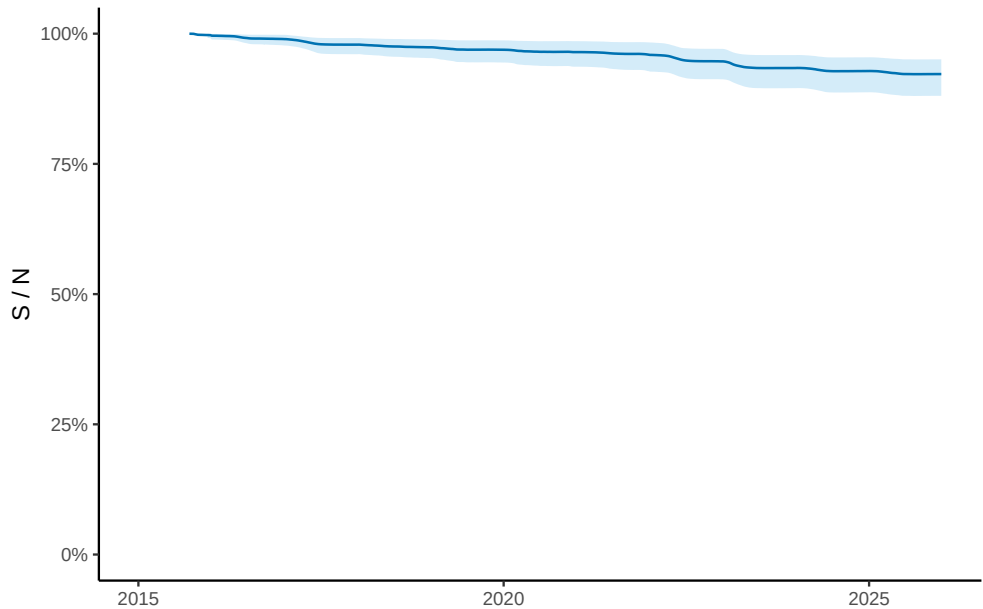

TO: confirmed weekly cases

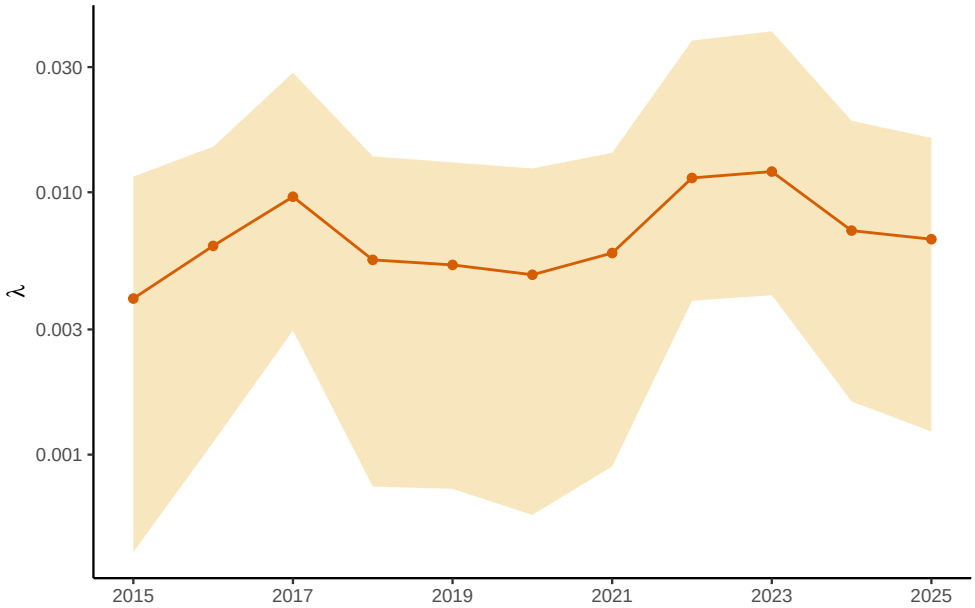

Retrospective weekly susceptible fraction

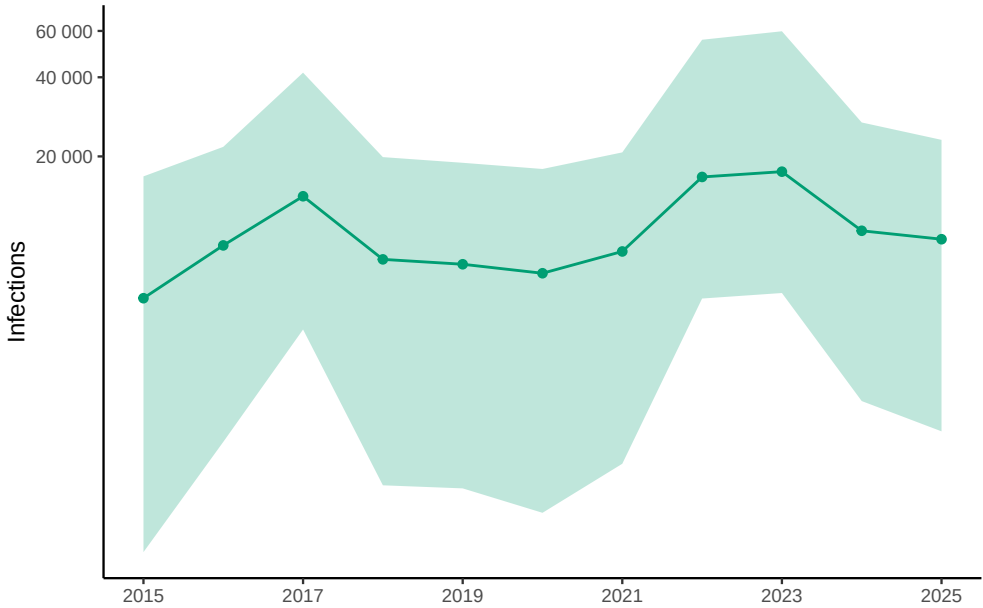

Annual posterior infection burden, placed by 3-week-smoothed weekly case timing

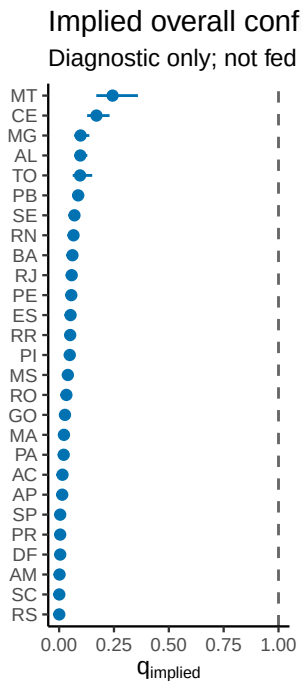

Annual FOI posterior

Annual latent infections posterior

Nationwide retrospective susceptibility diagnostics

Annual SHAPE HMC diagnostics

Annual-versus-weekly S end-of-year discrepancy
