

AC: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

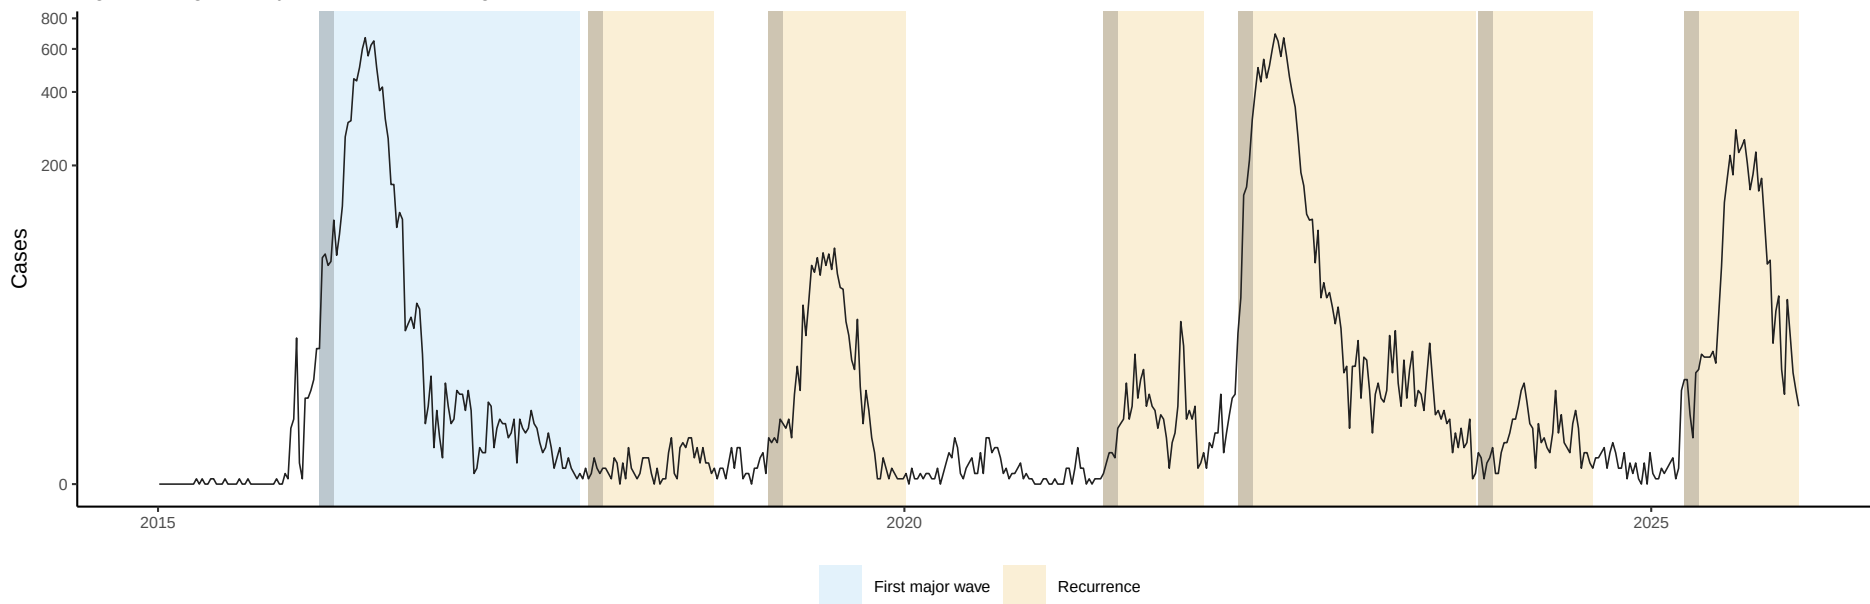

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

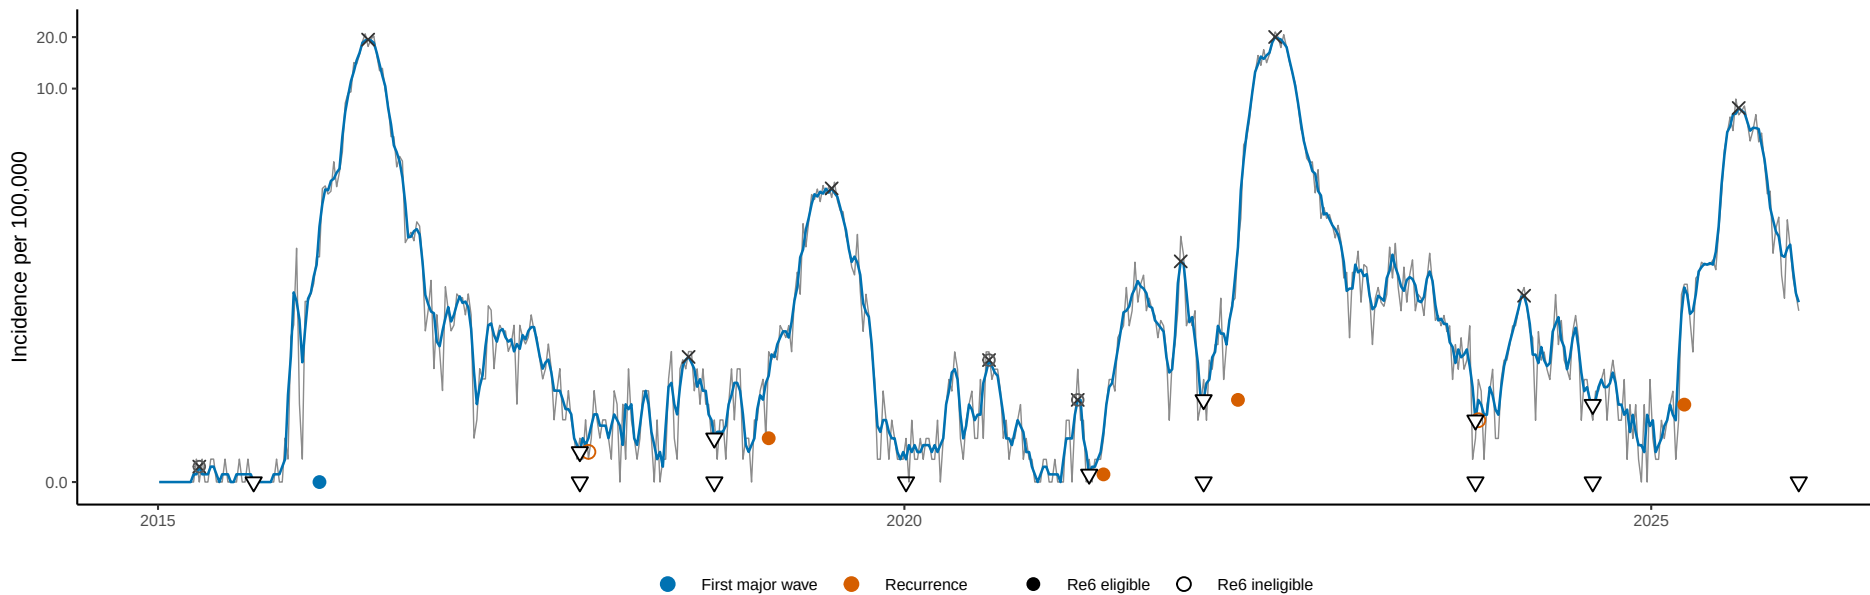

AL: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

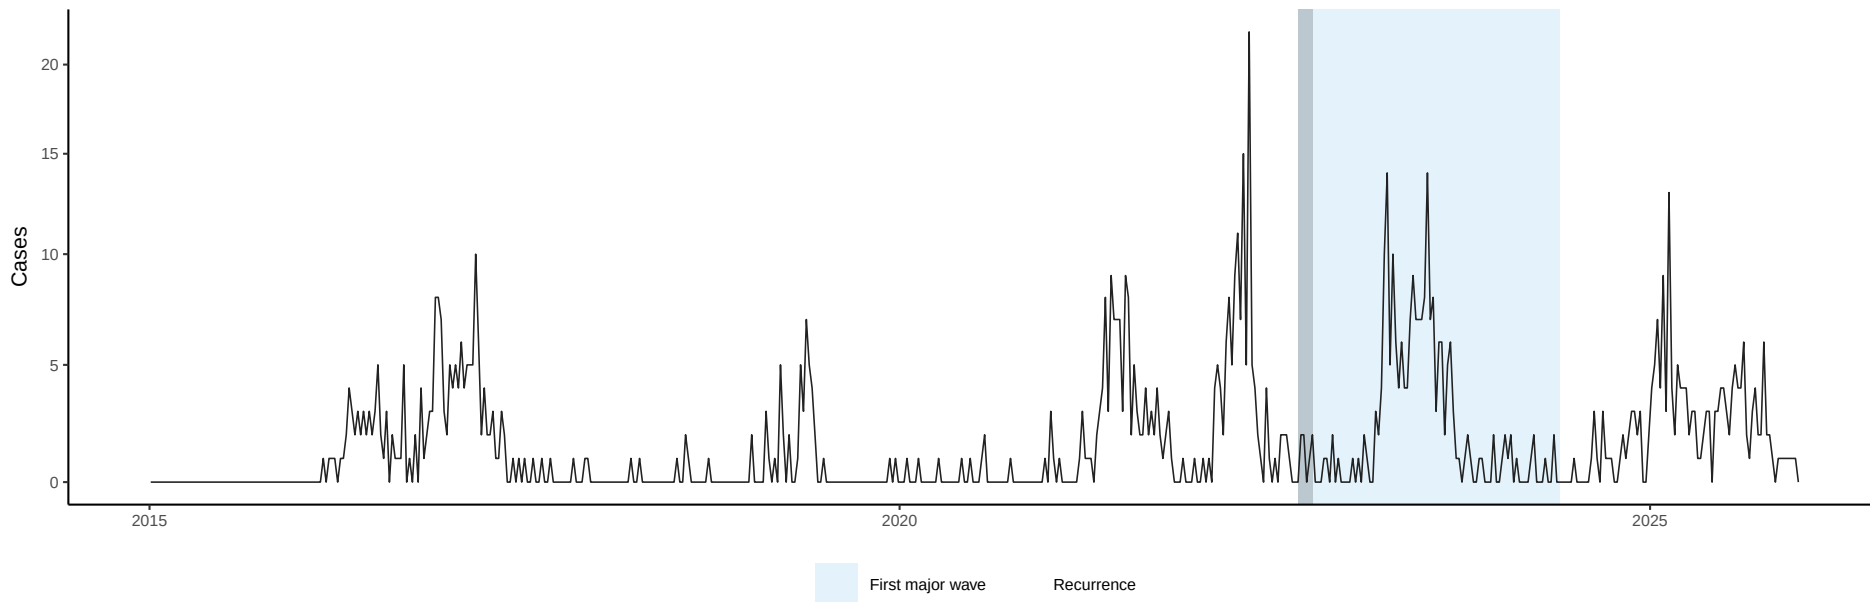

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

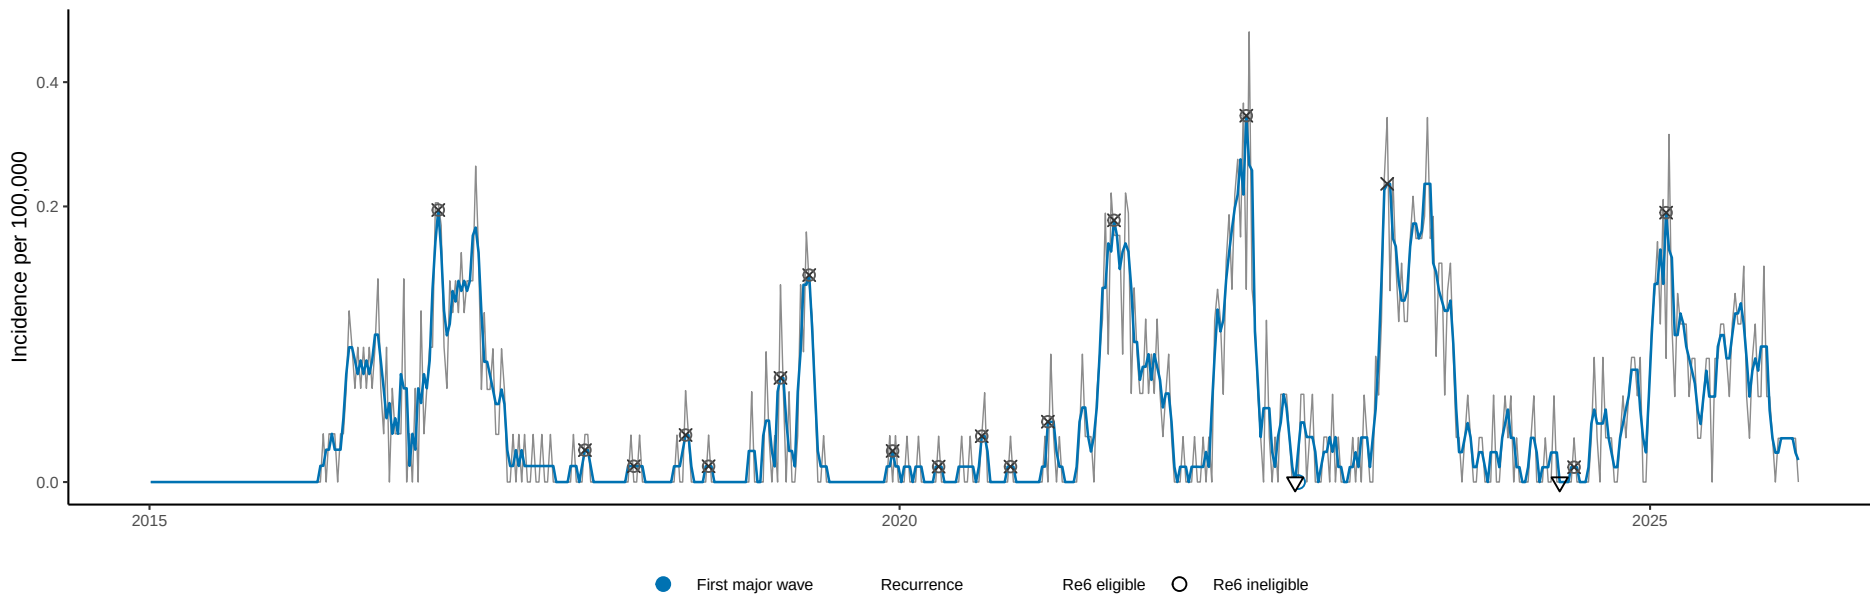

AM: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

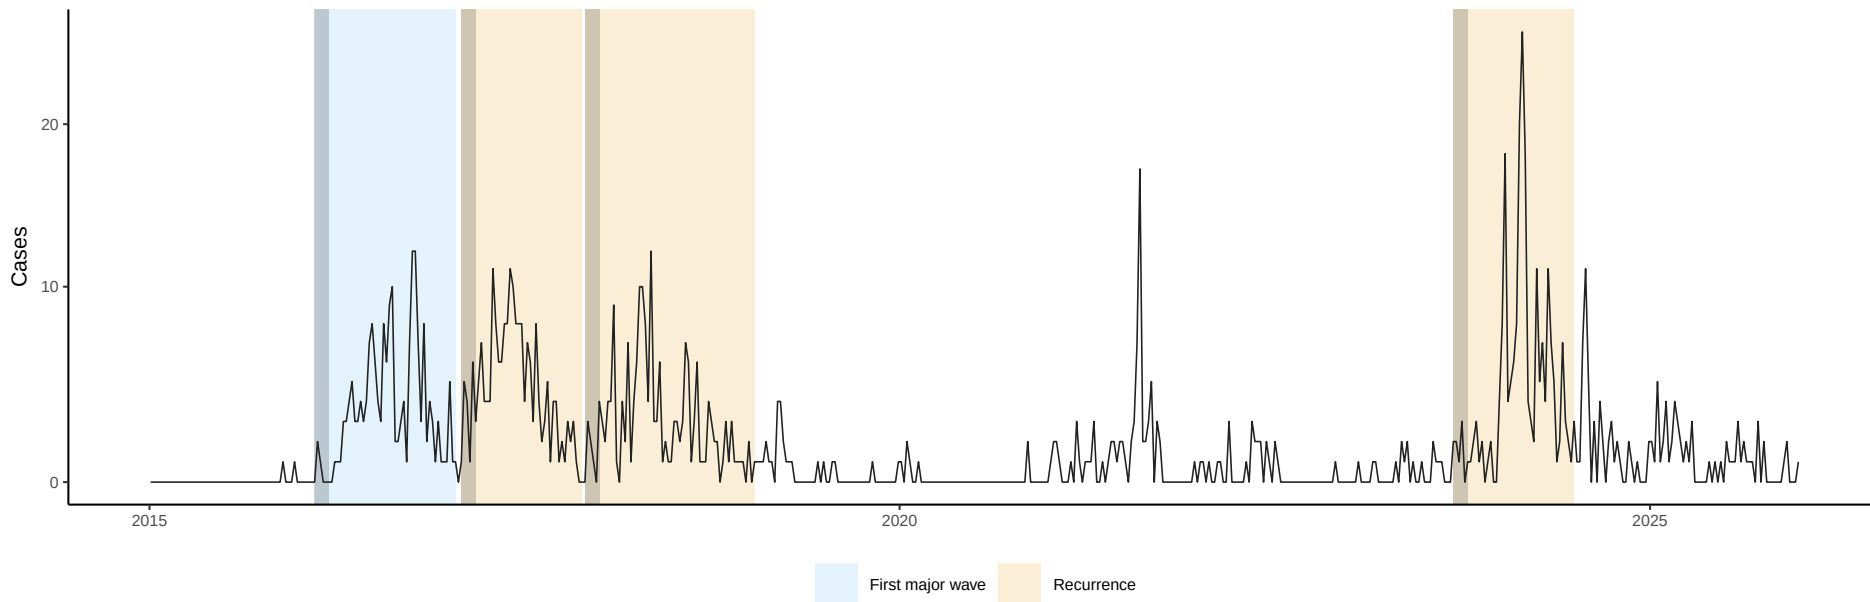

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

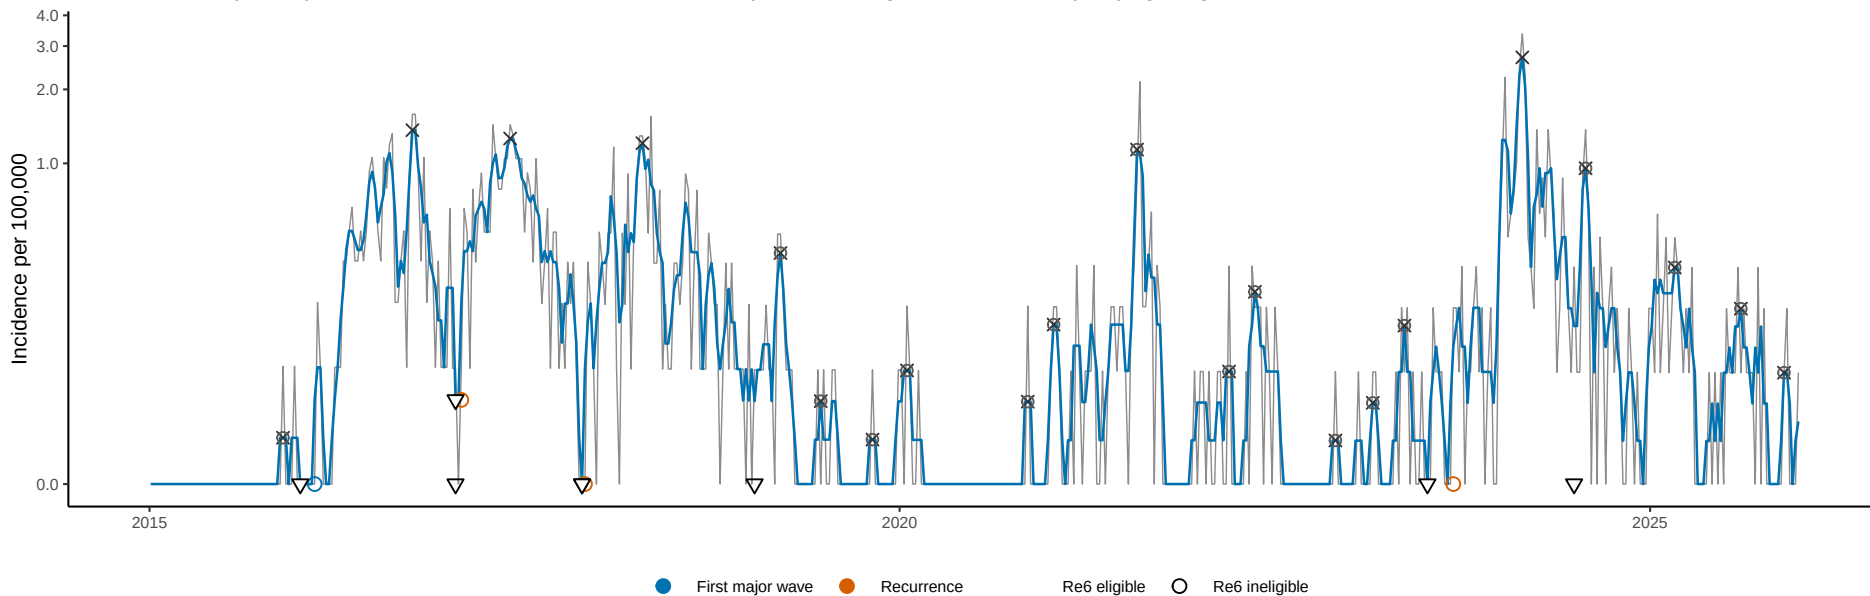

AP: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

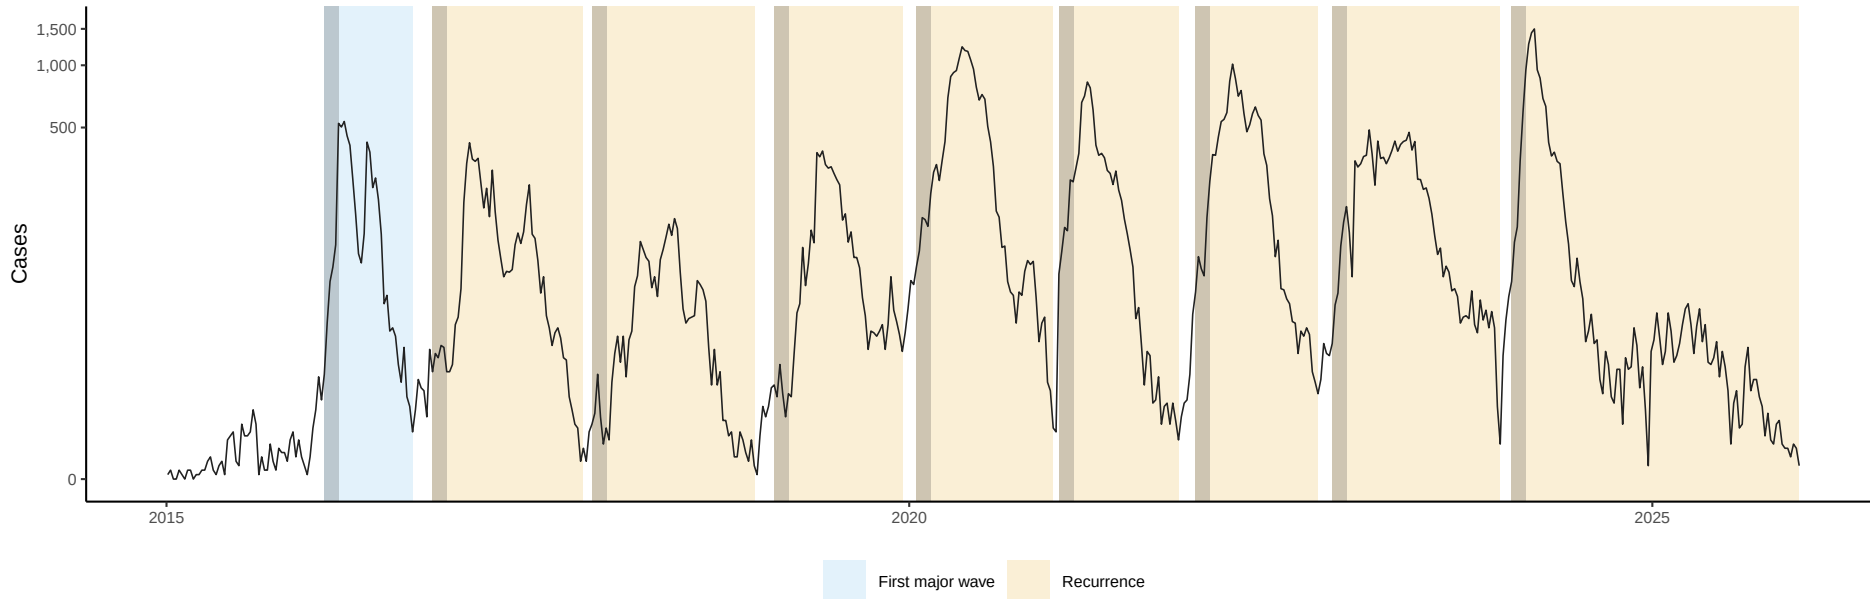

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

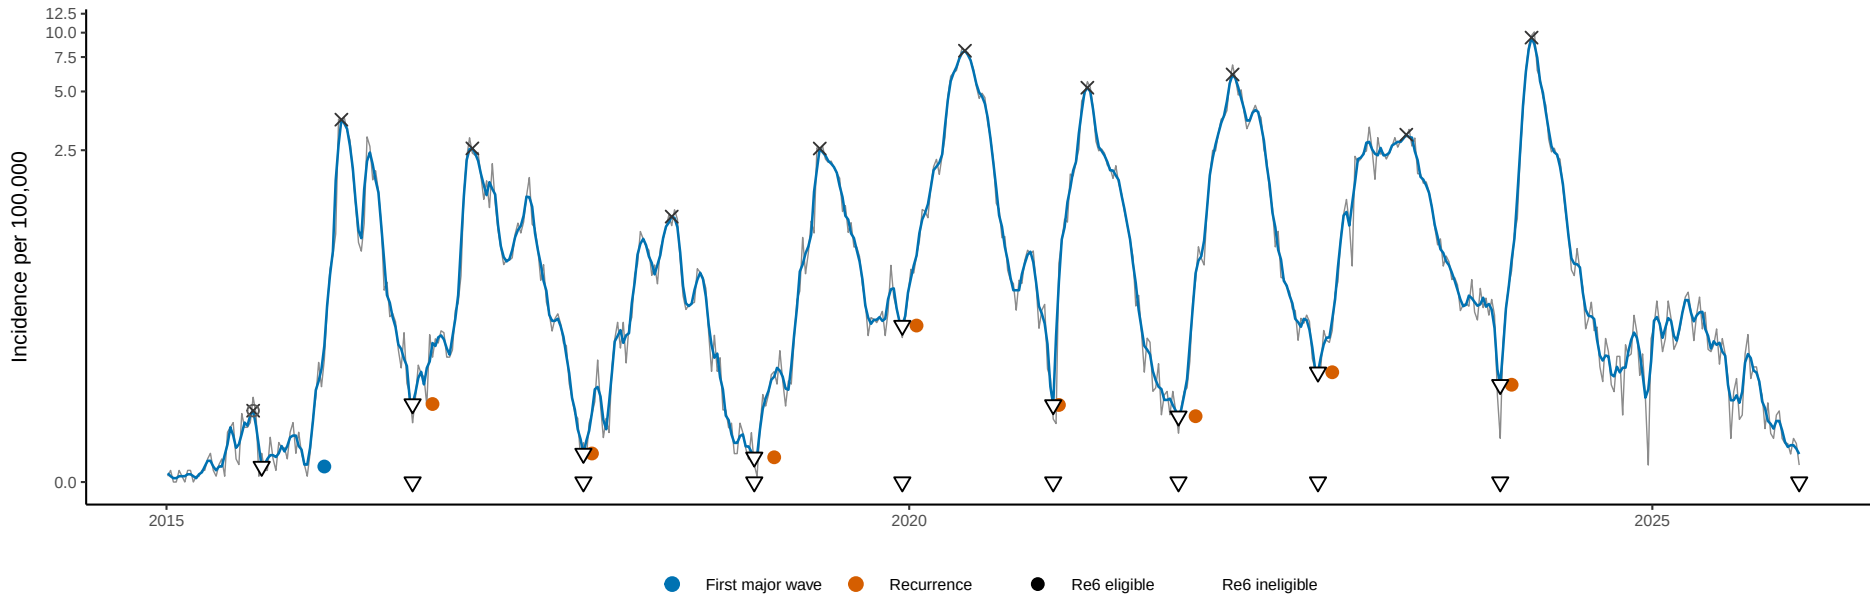

BA: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

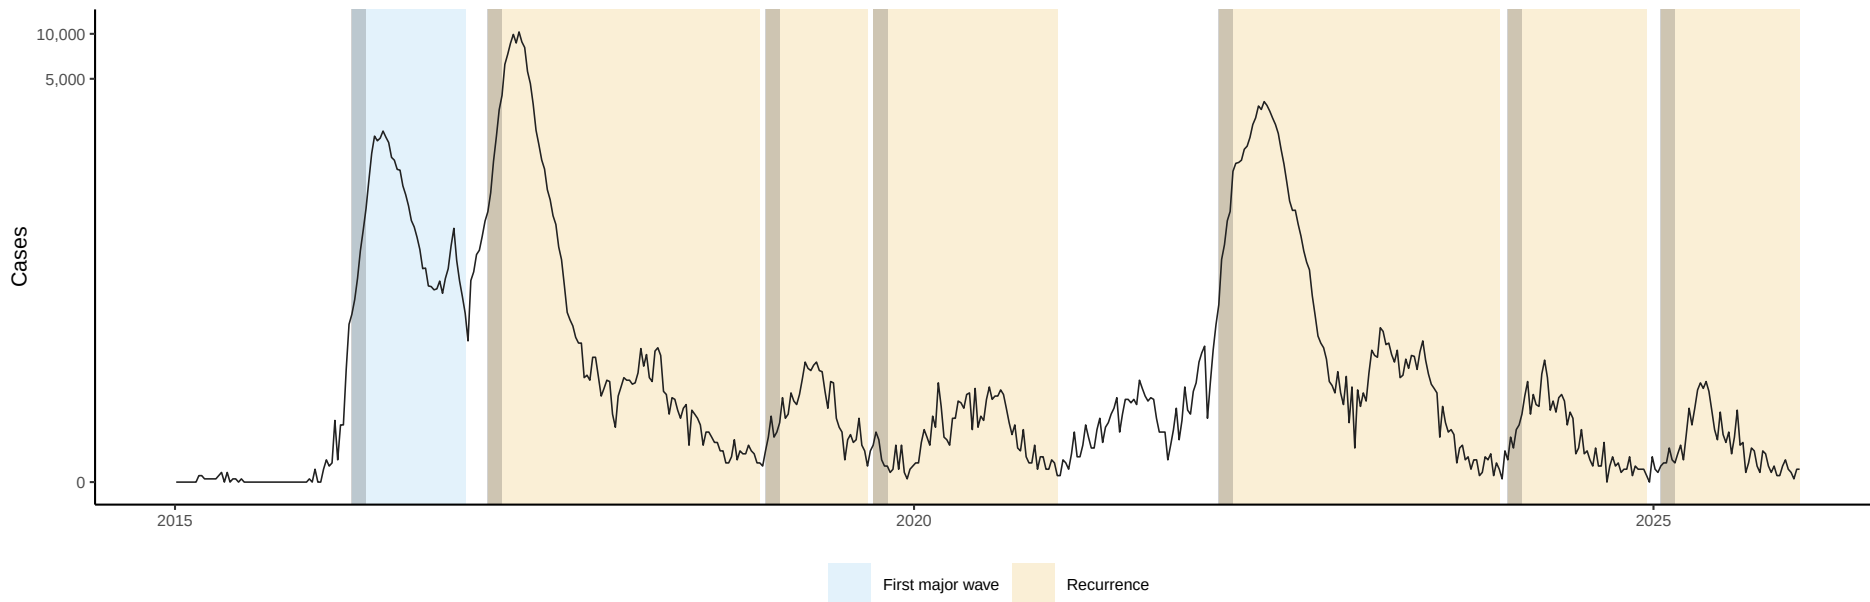

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

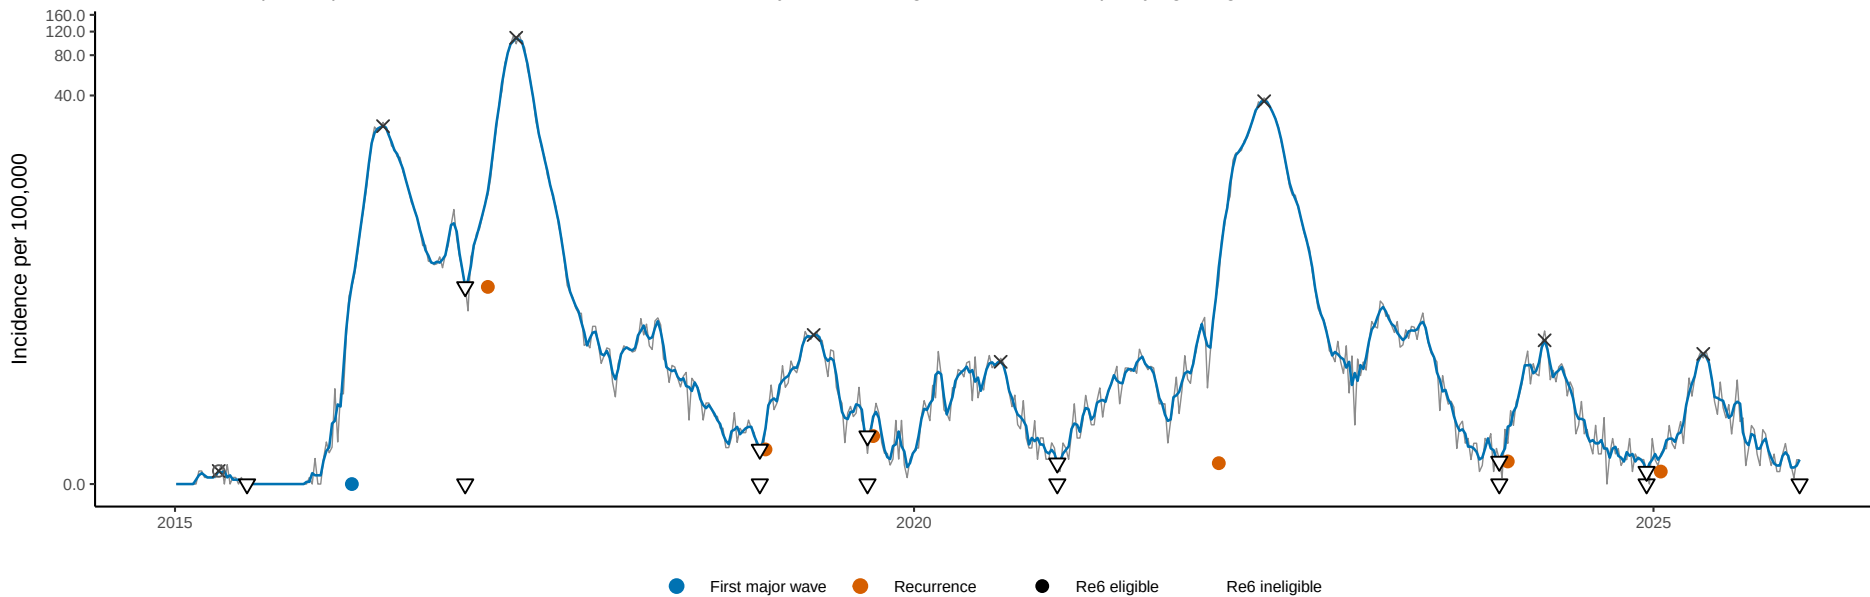

CE: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week R_e window

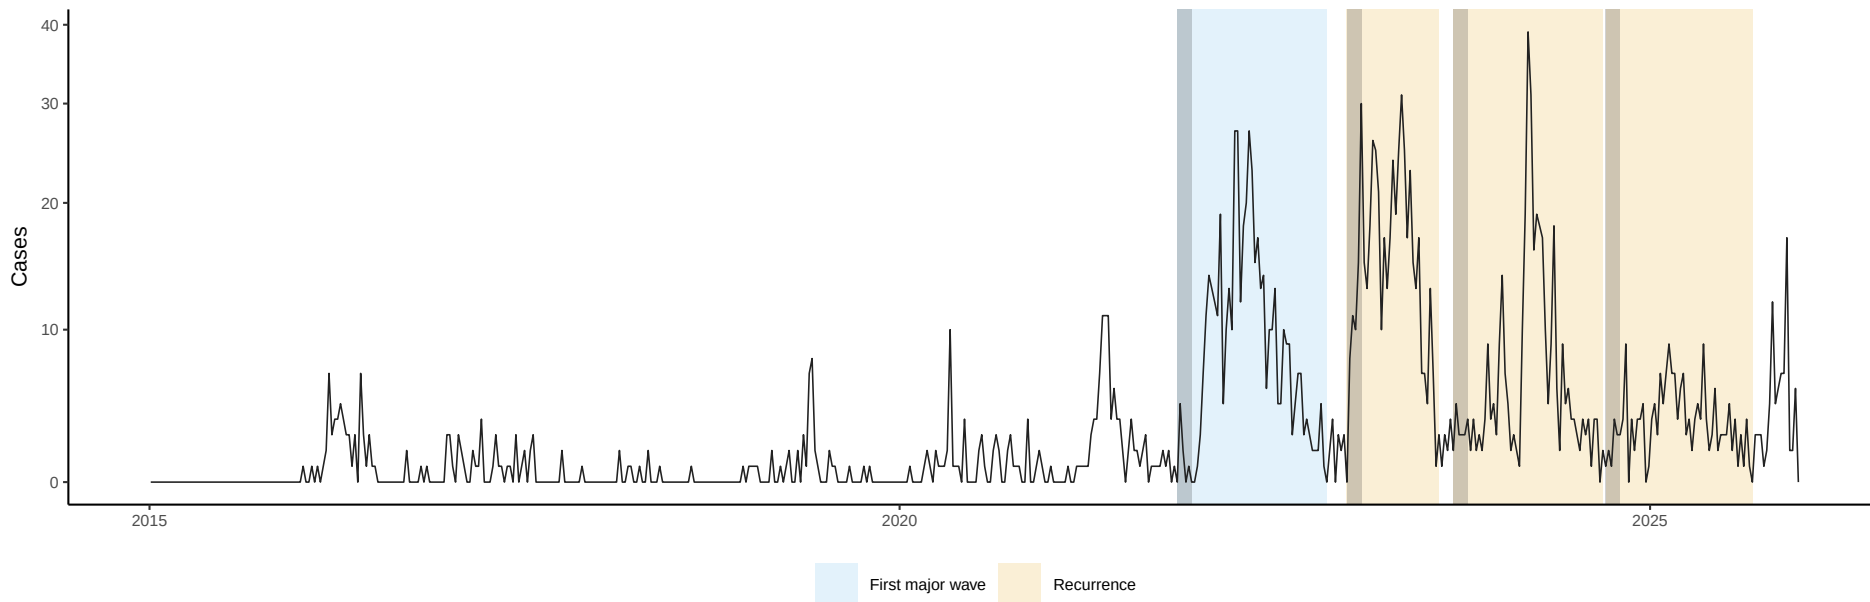

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

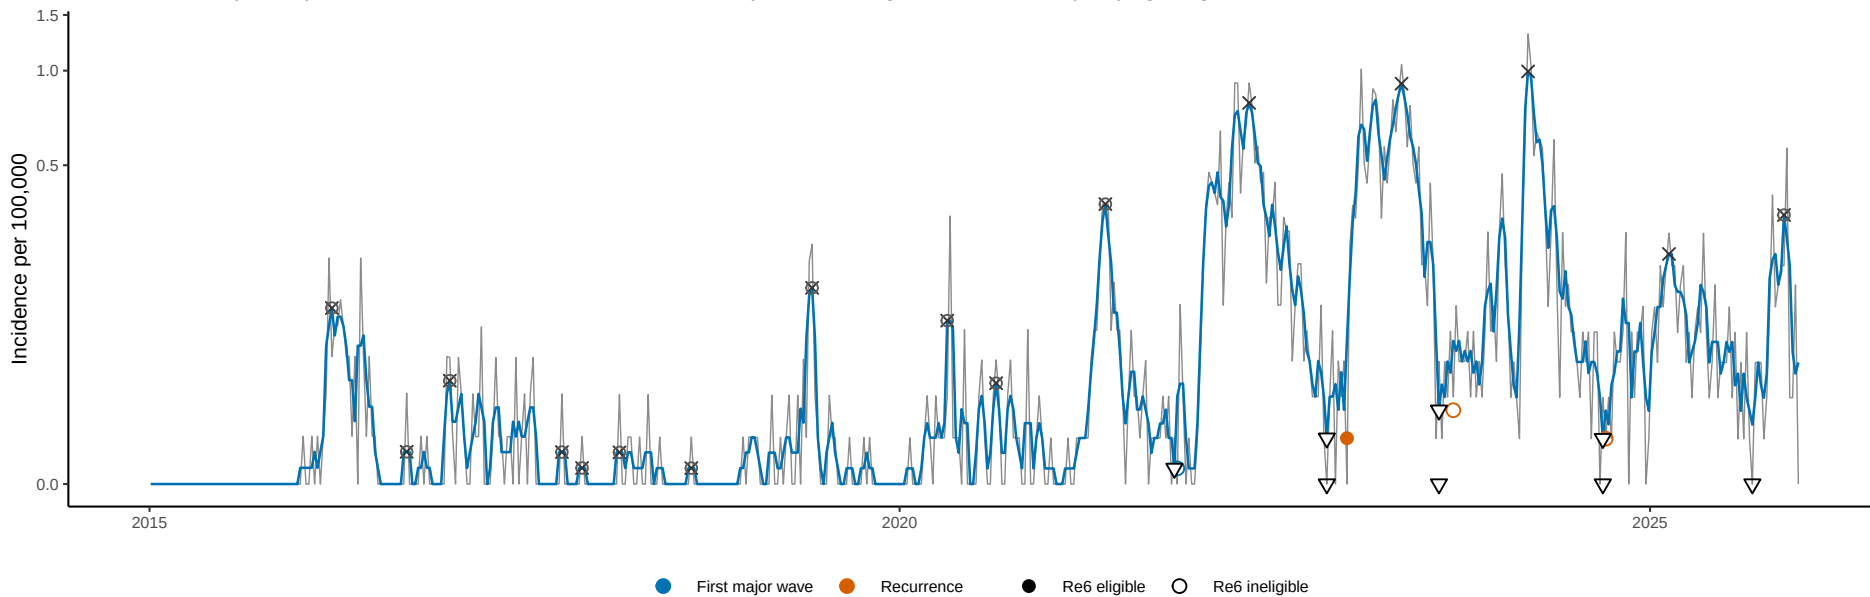

DF: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

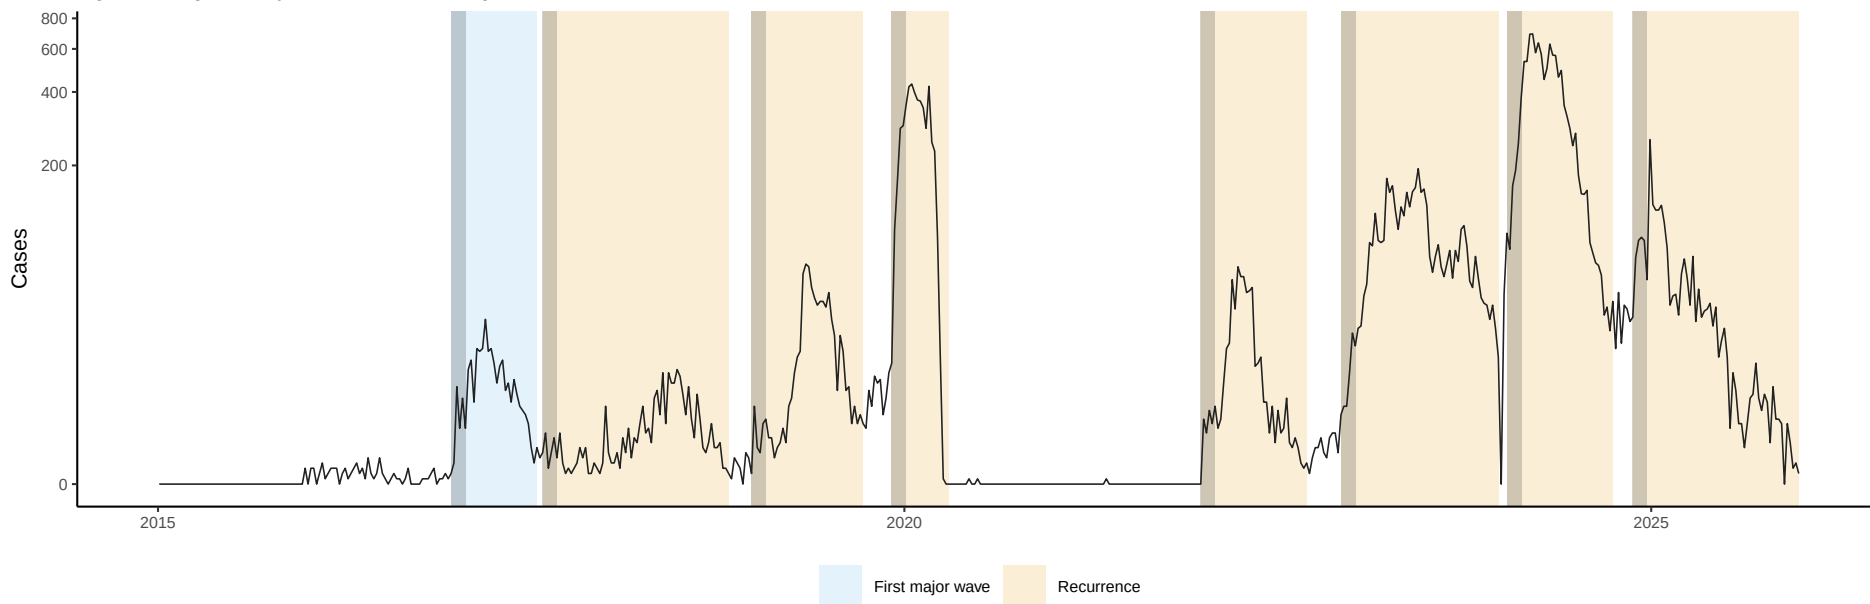

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

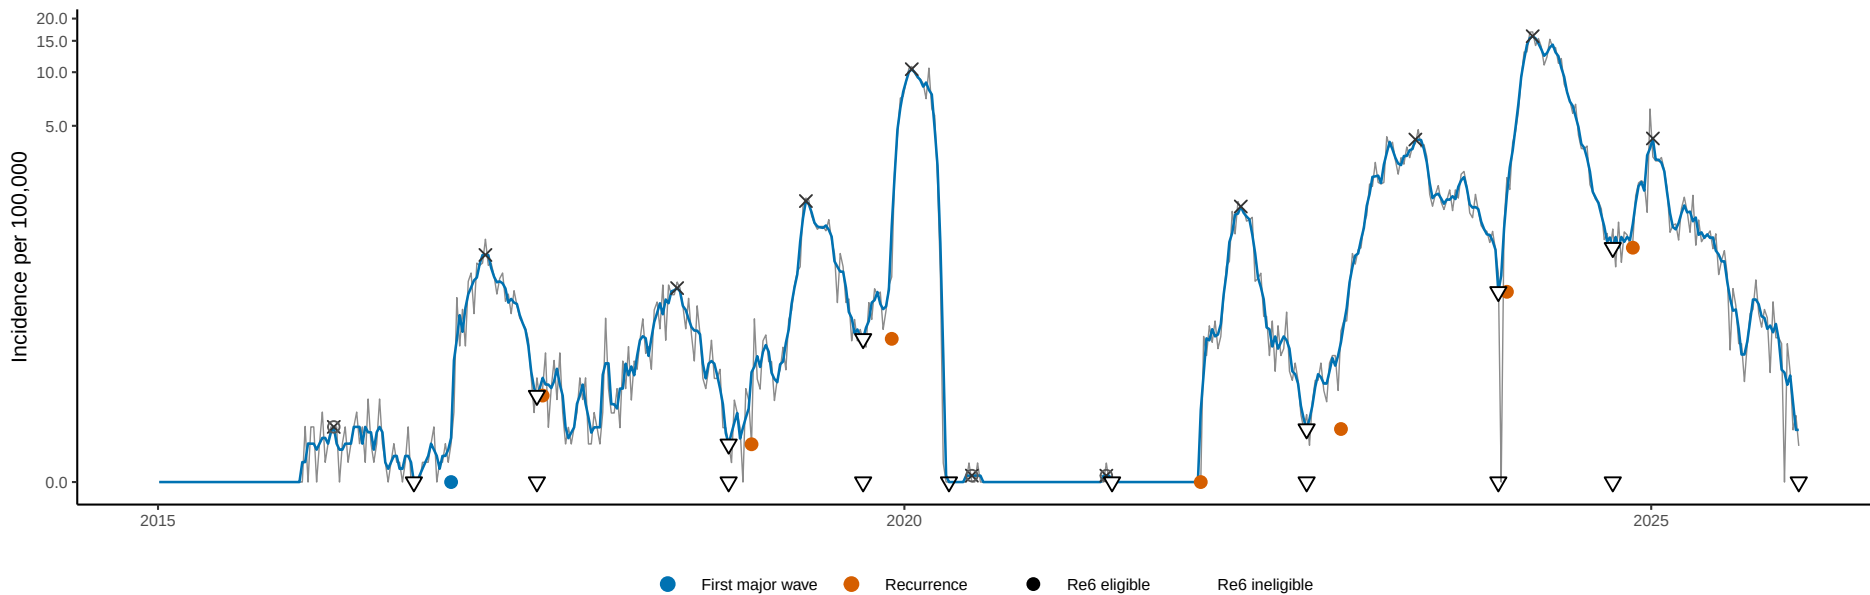

ES: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

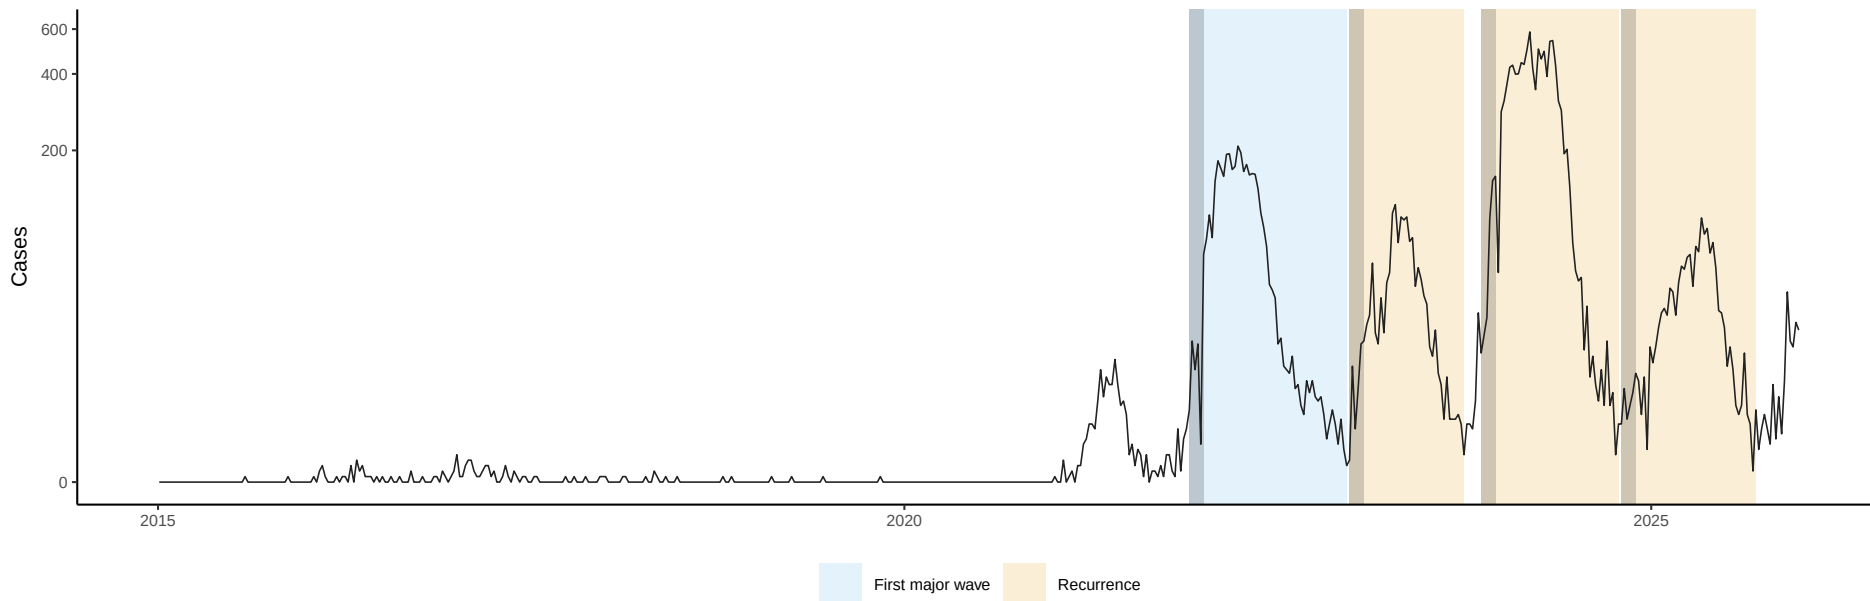

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

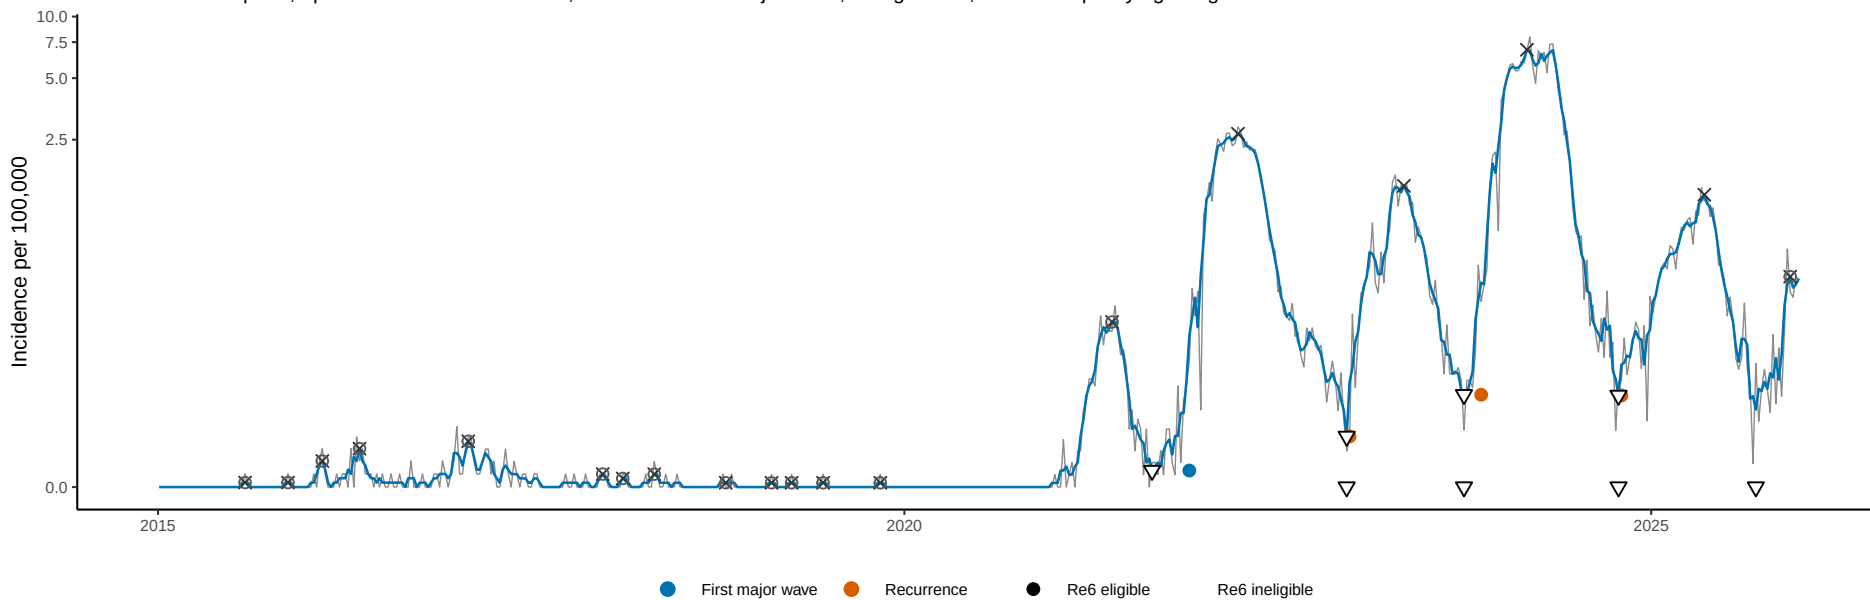

GO: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

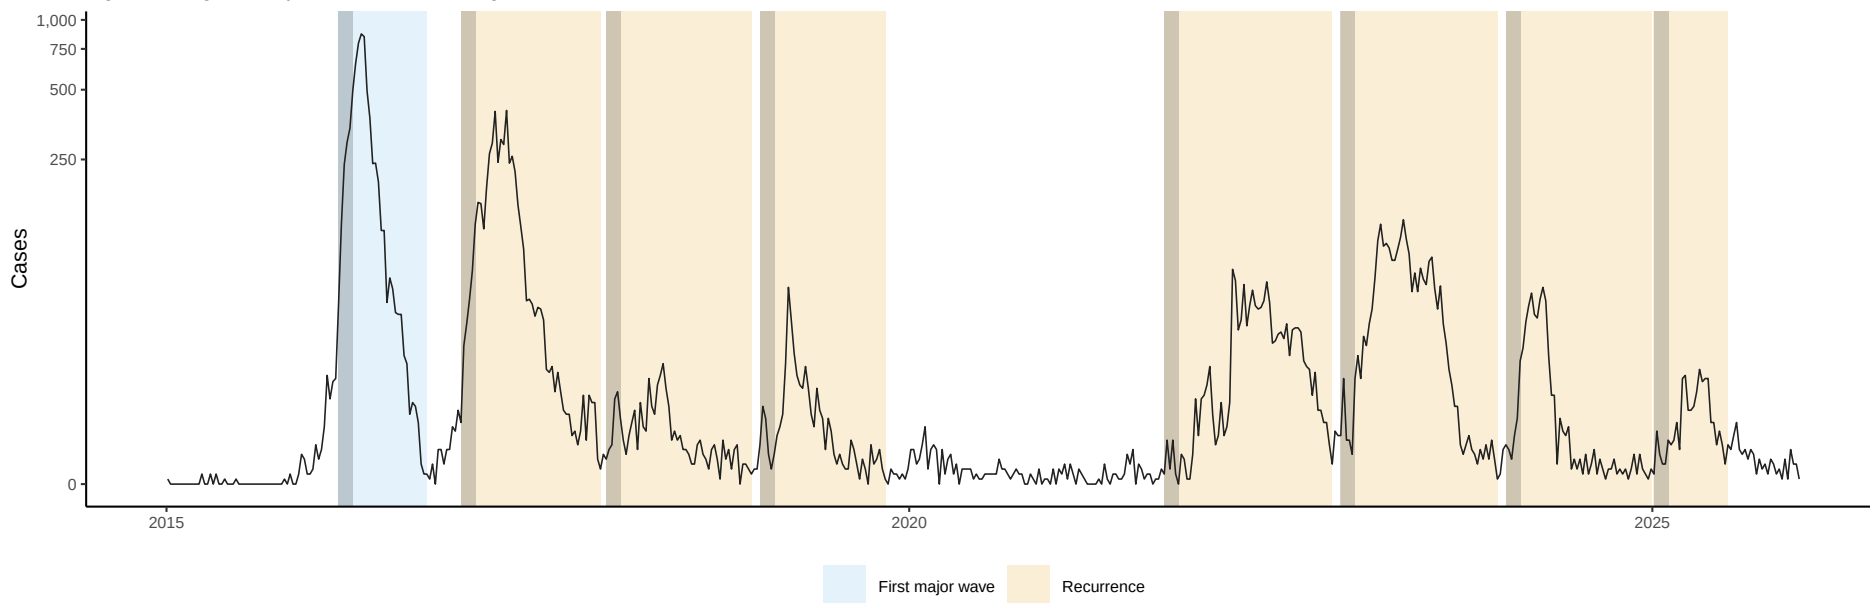

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

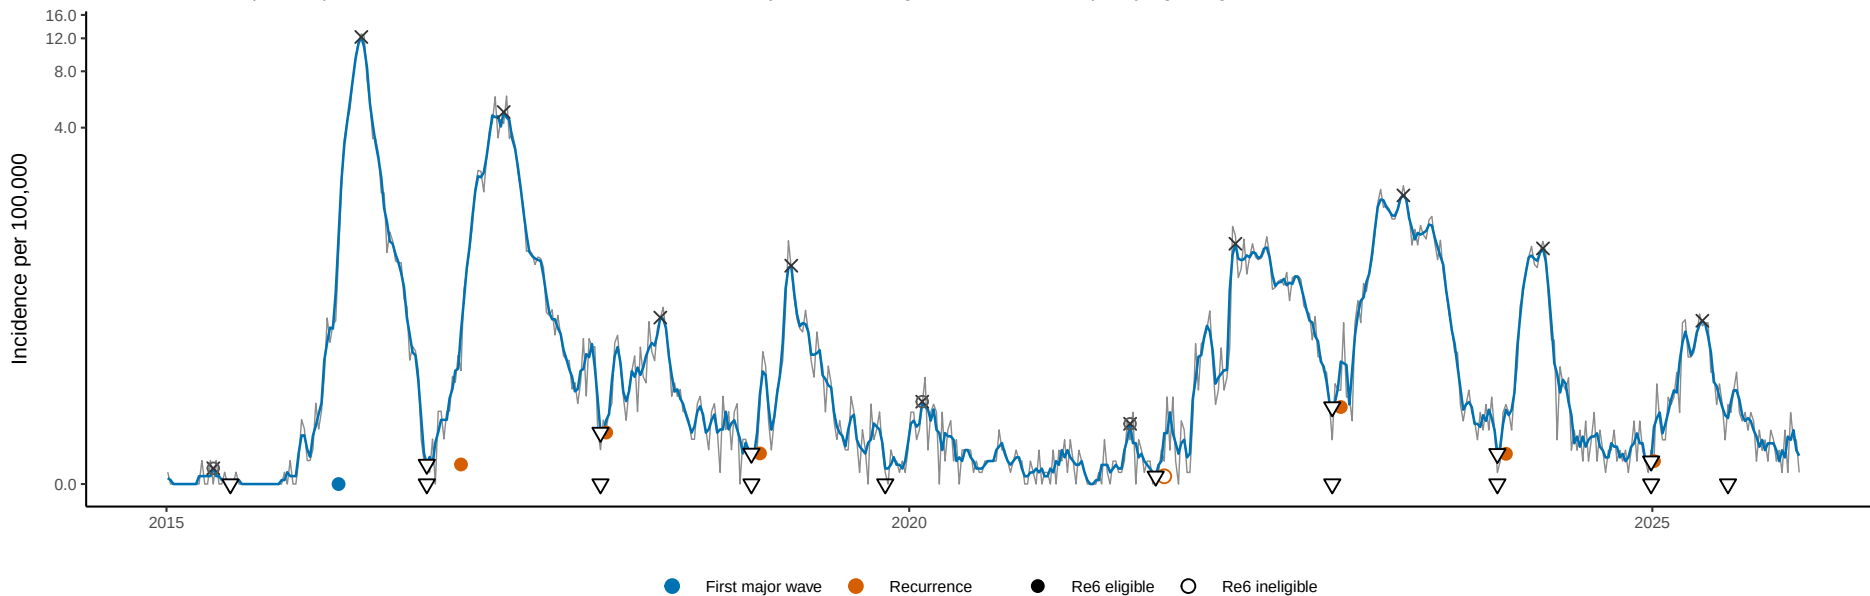

MA: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

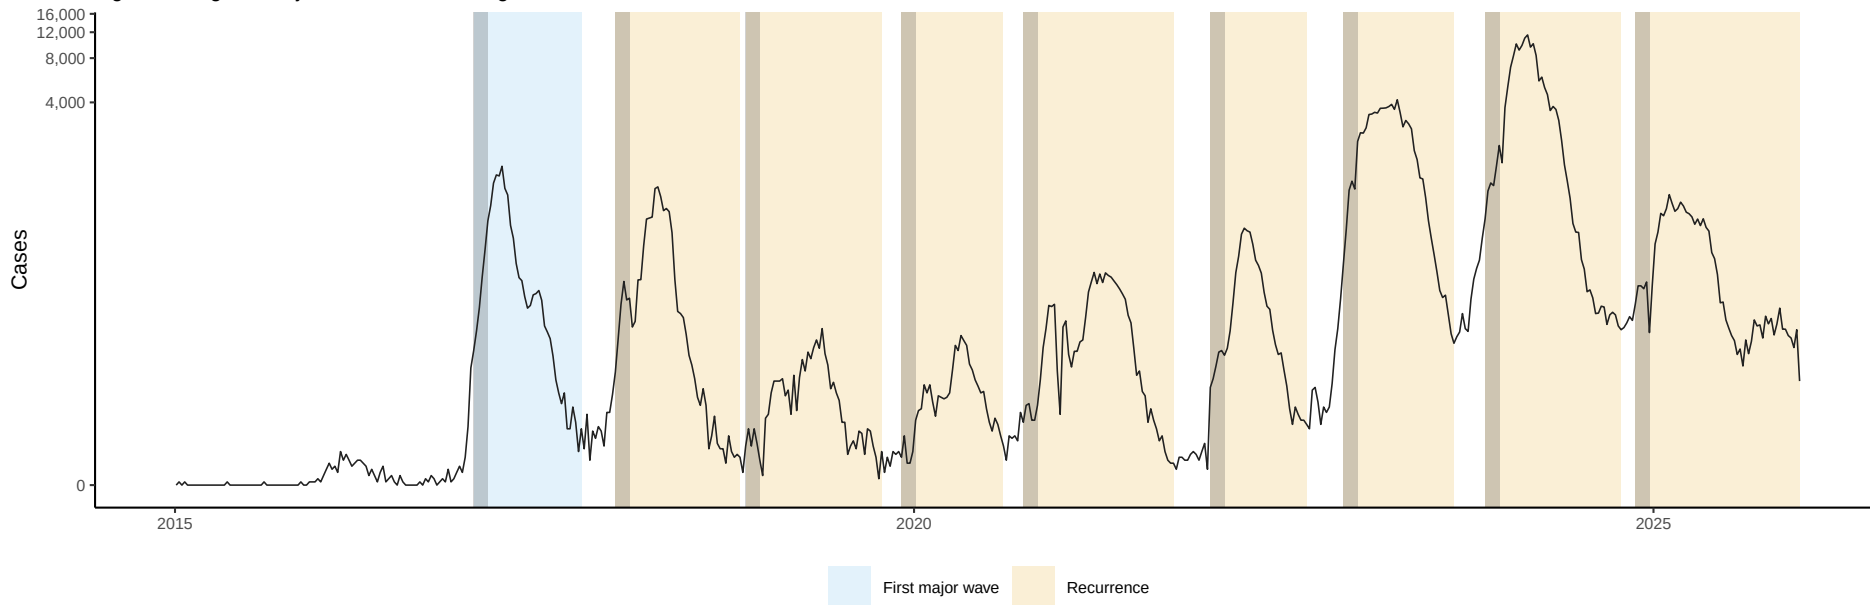

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

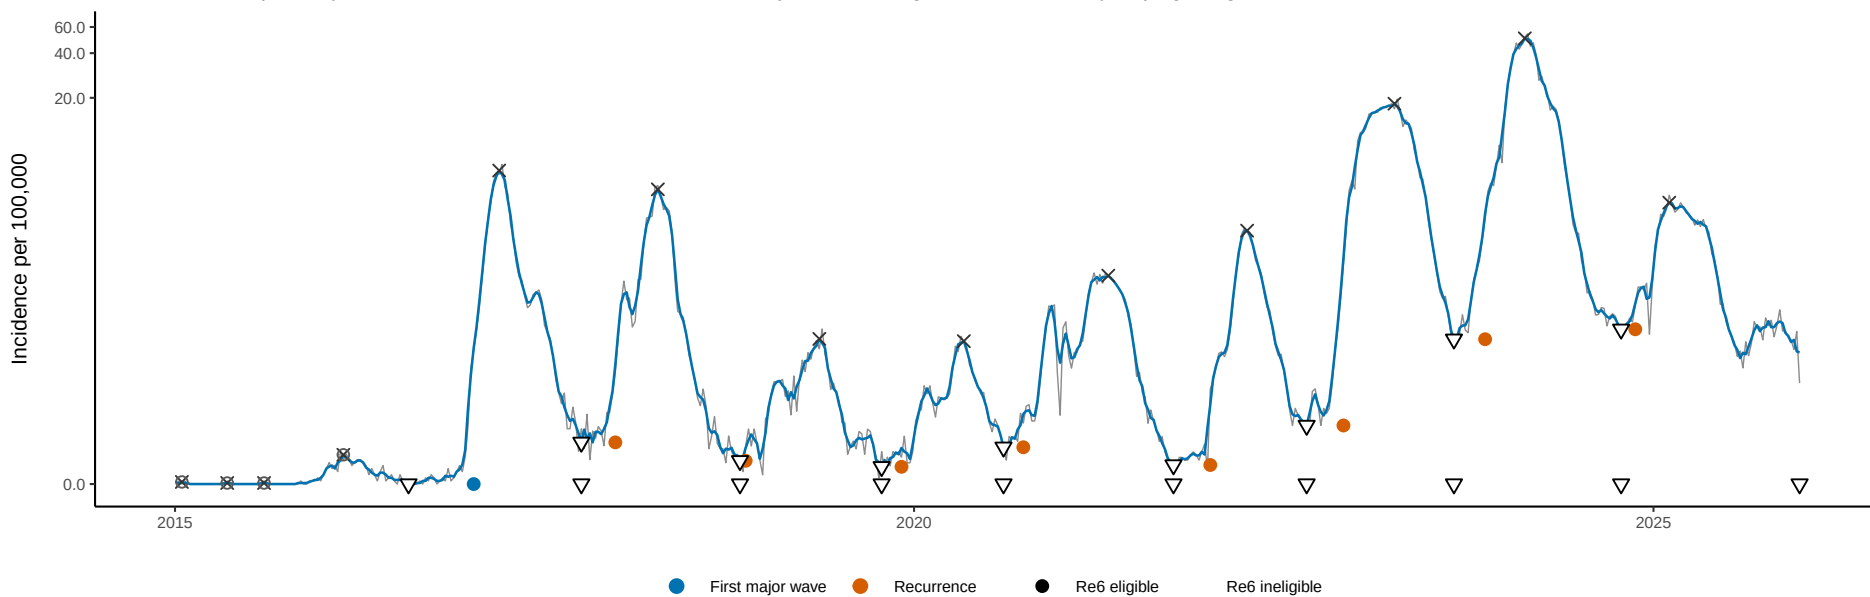

MG: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

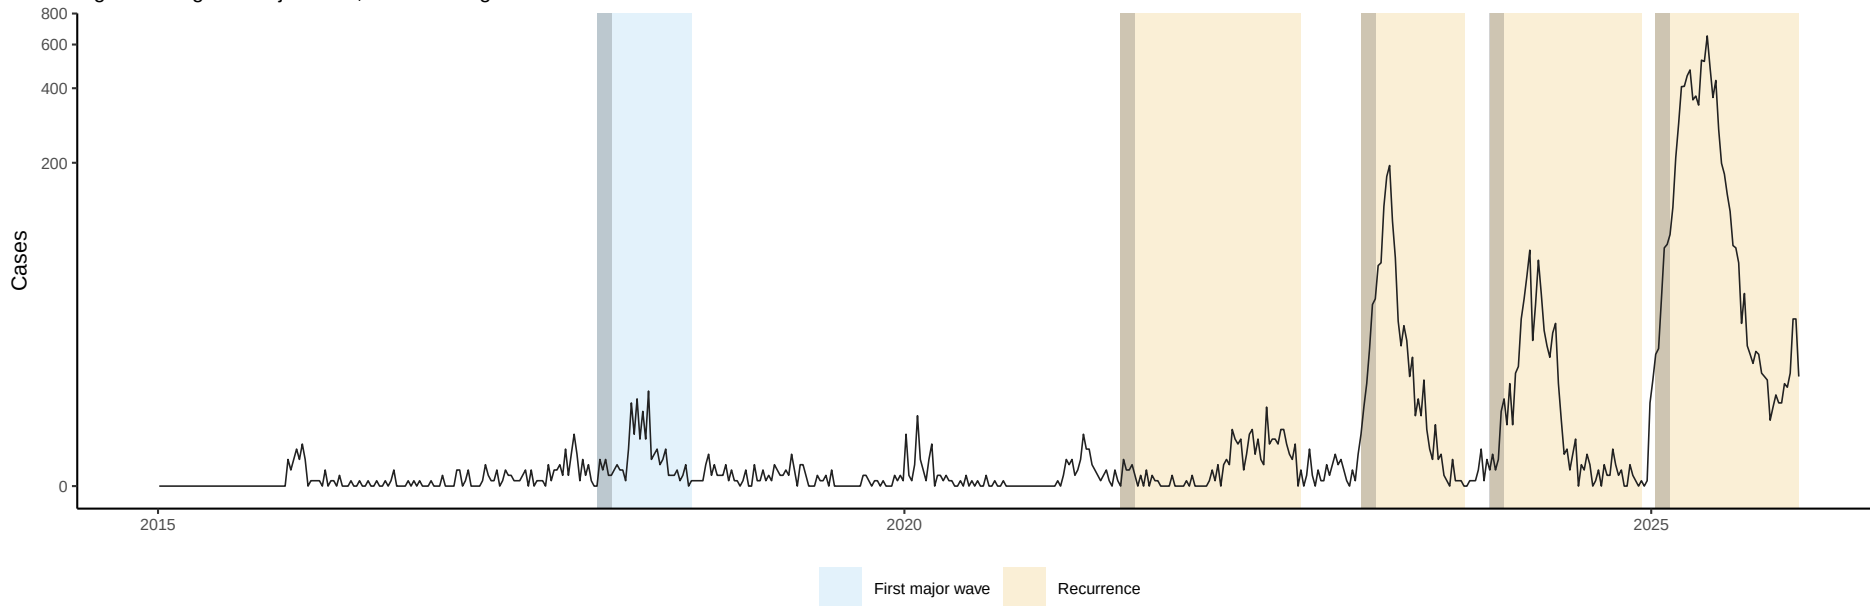

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

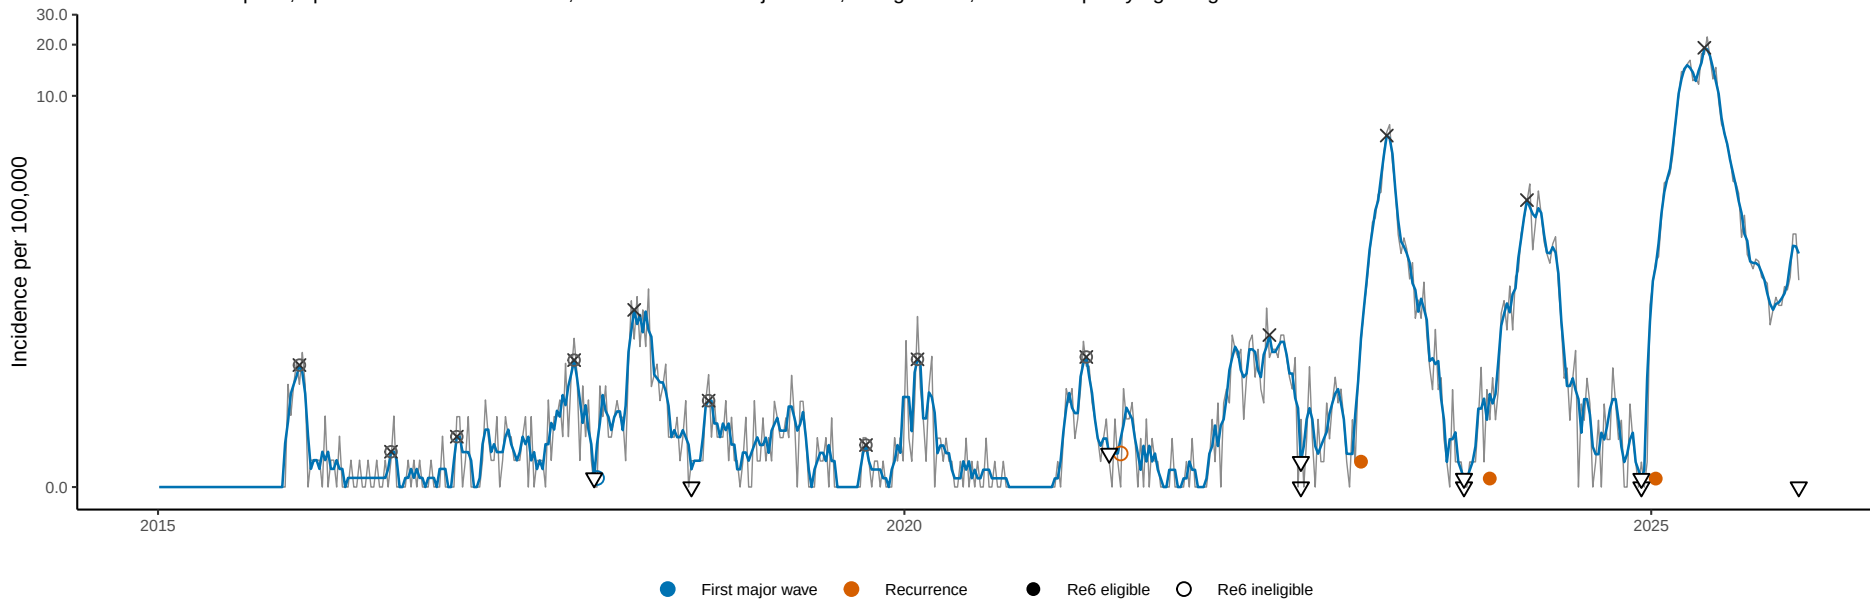

MS: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

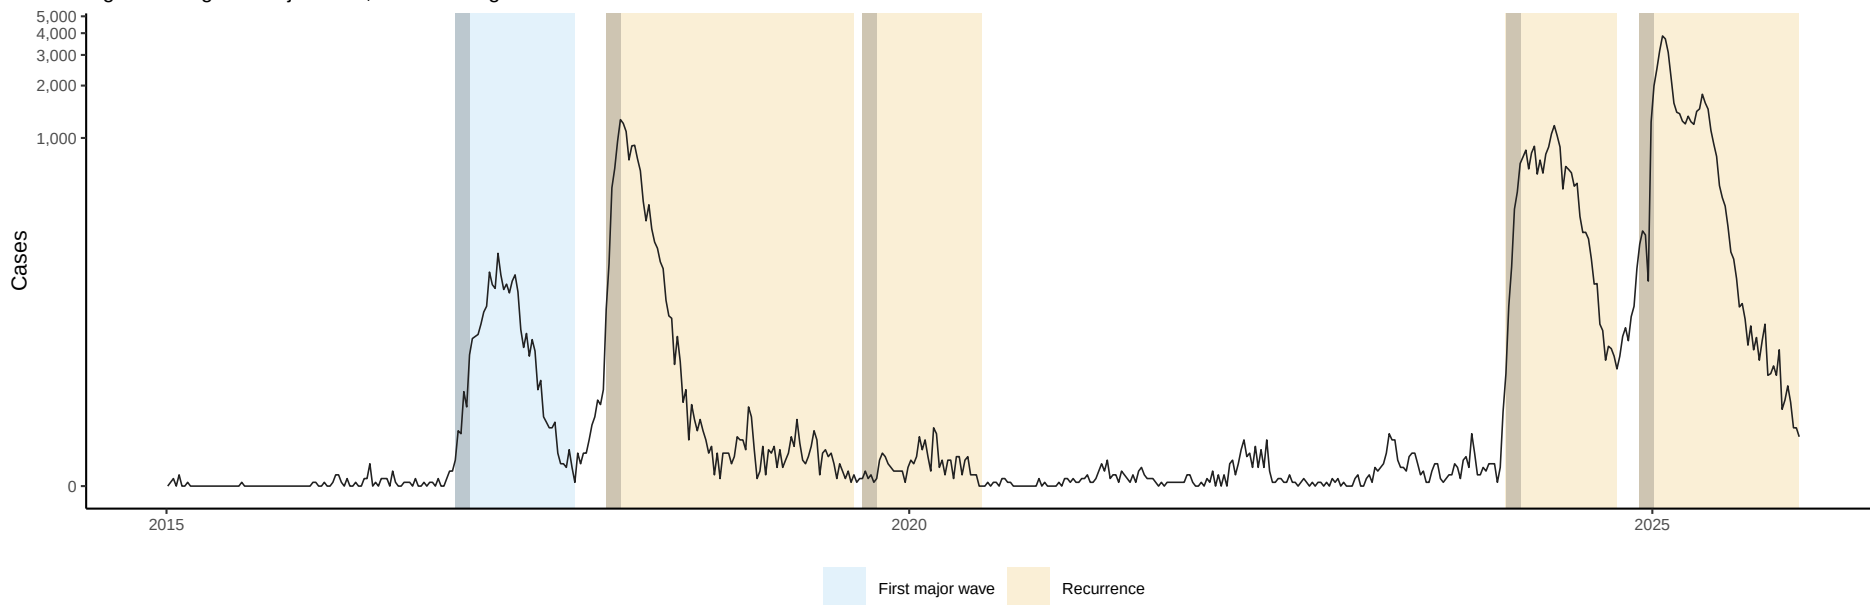

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

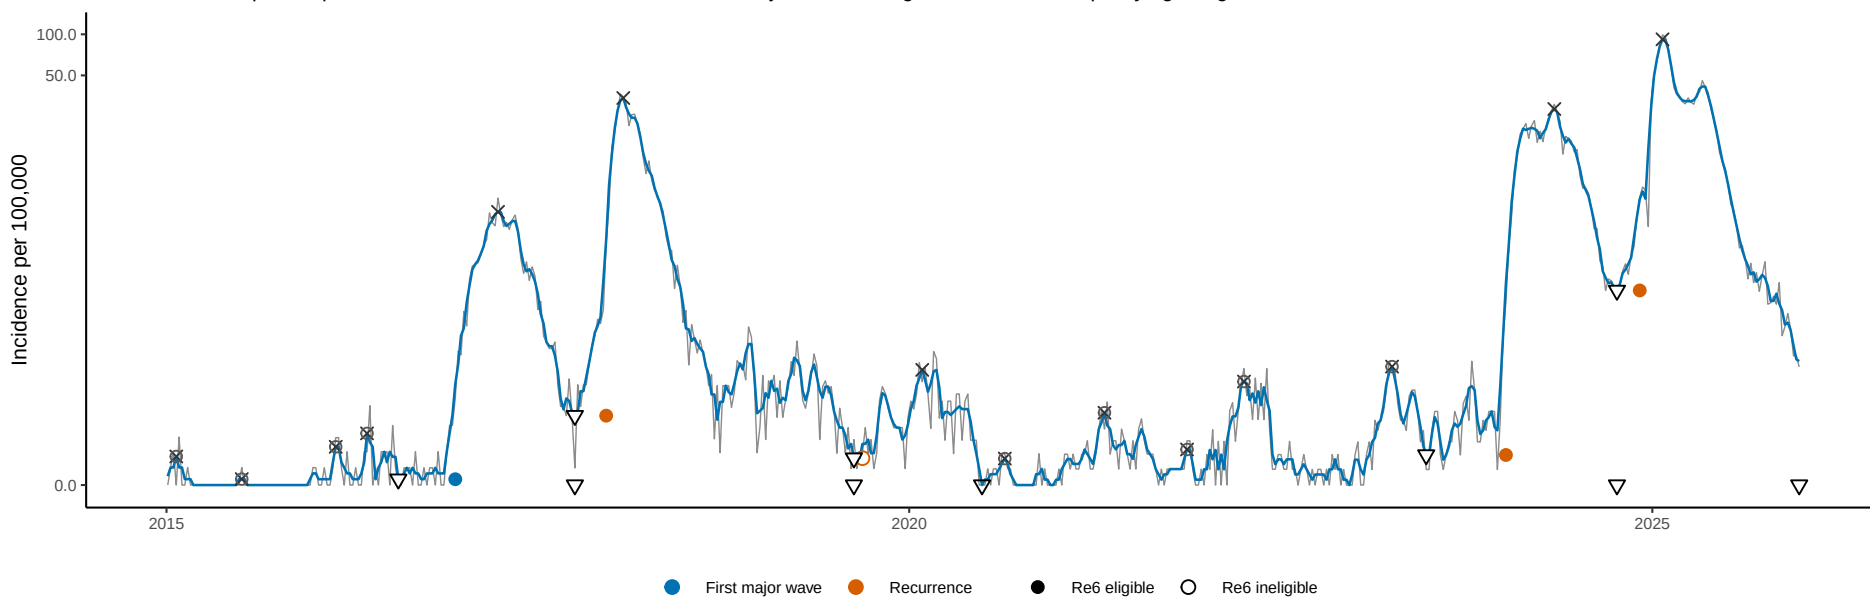

MT: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

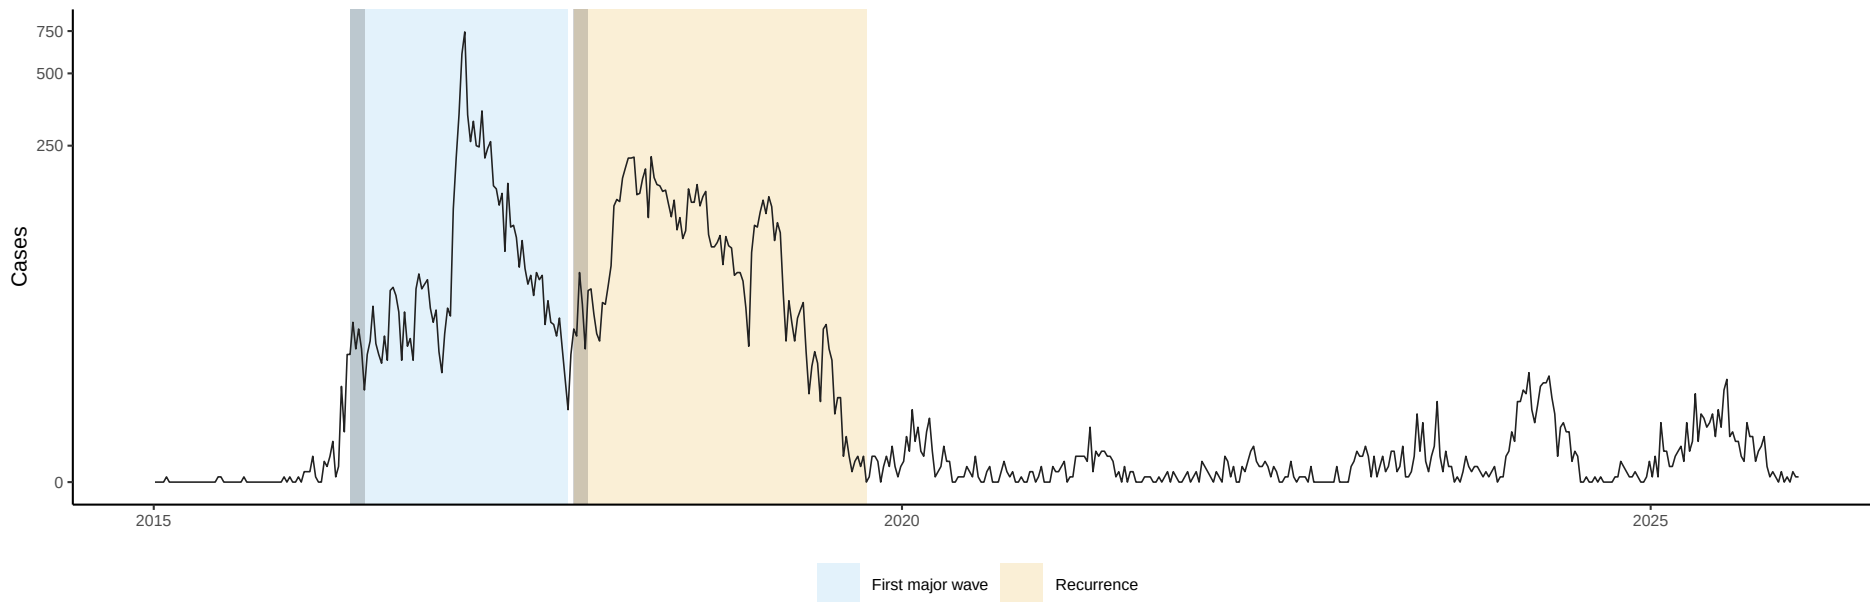

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

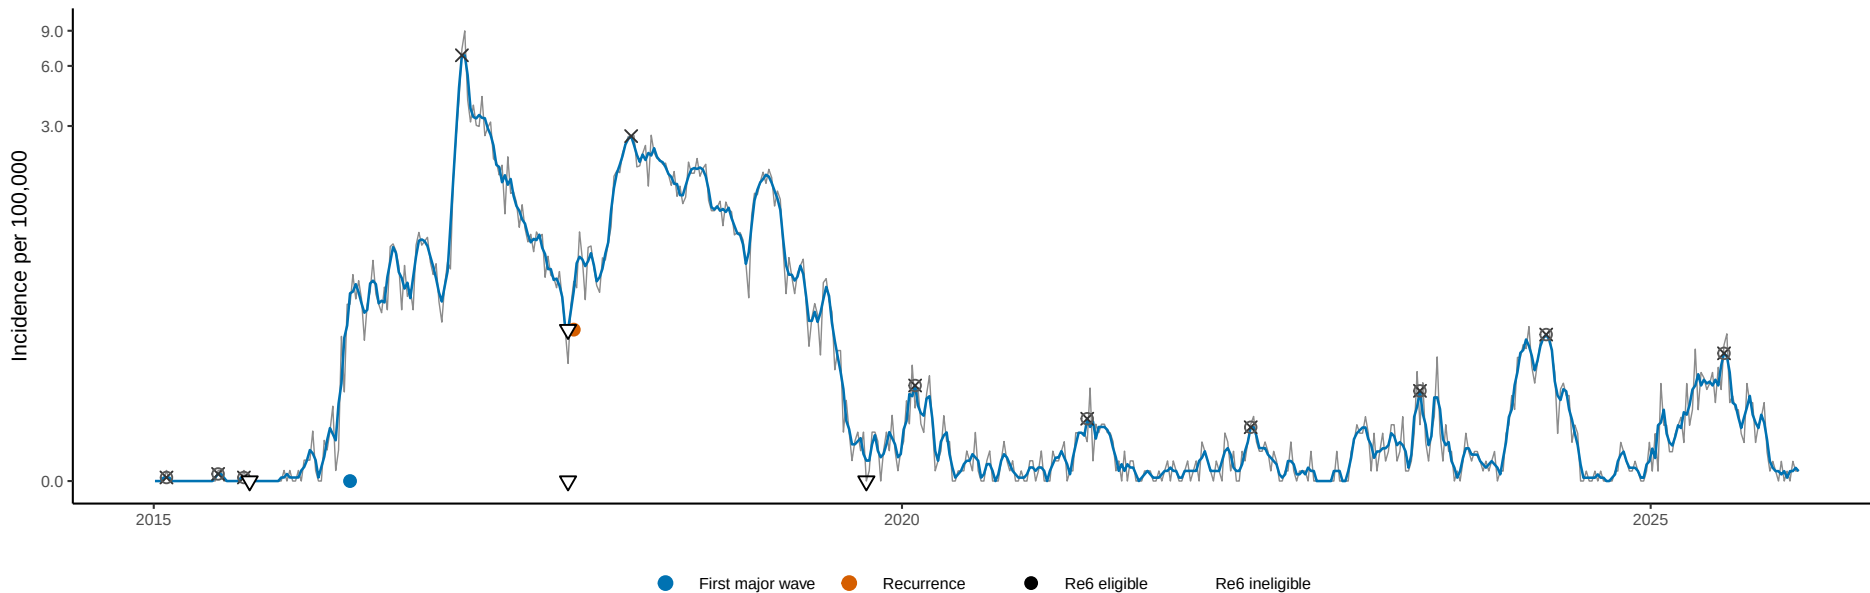

PA: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week R_e window

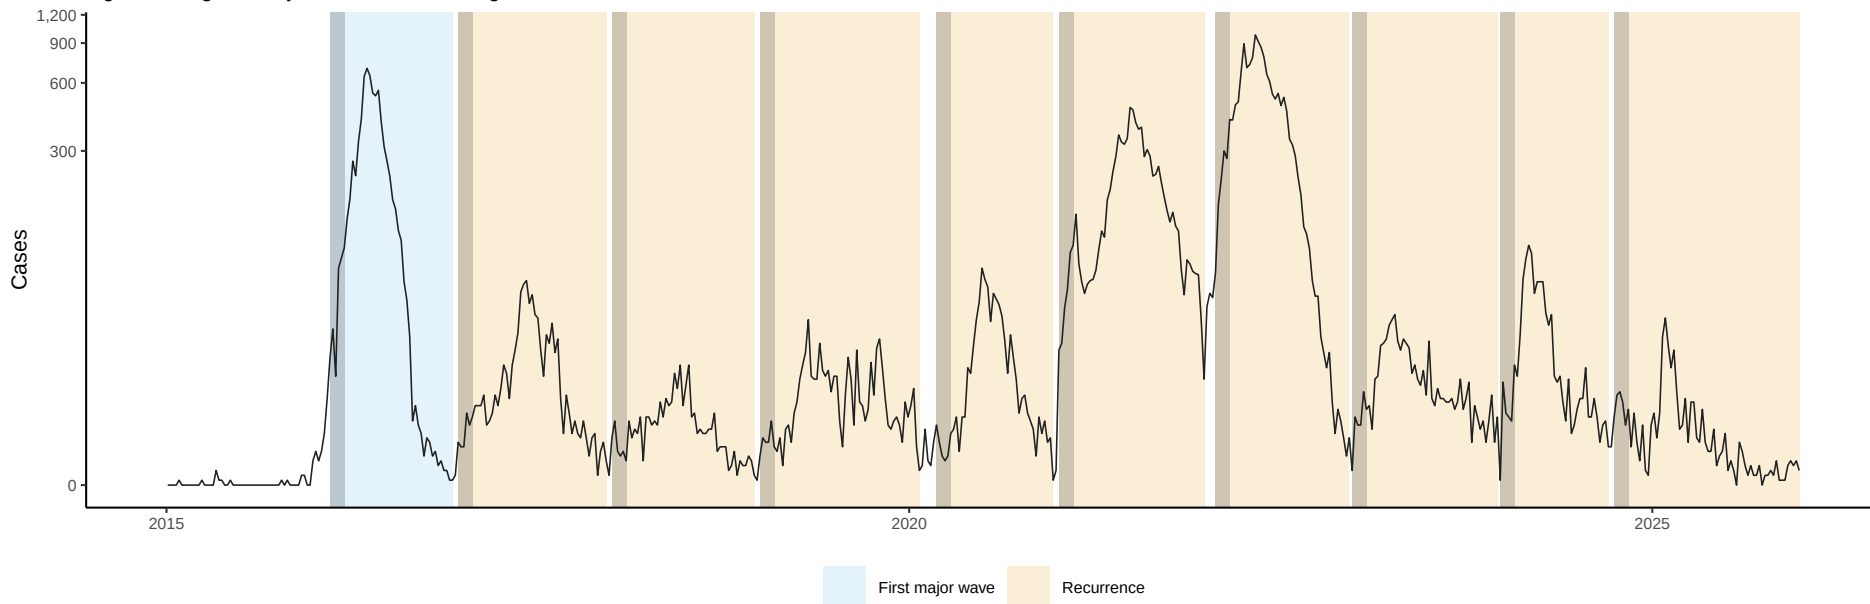

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

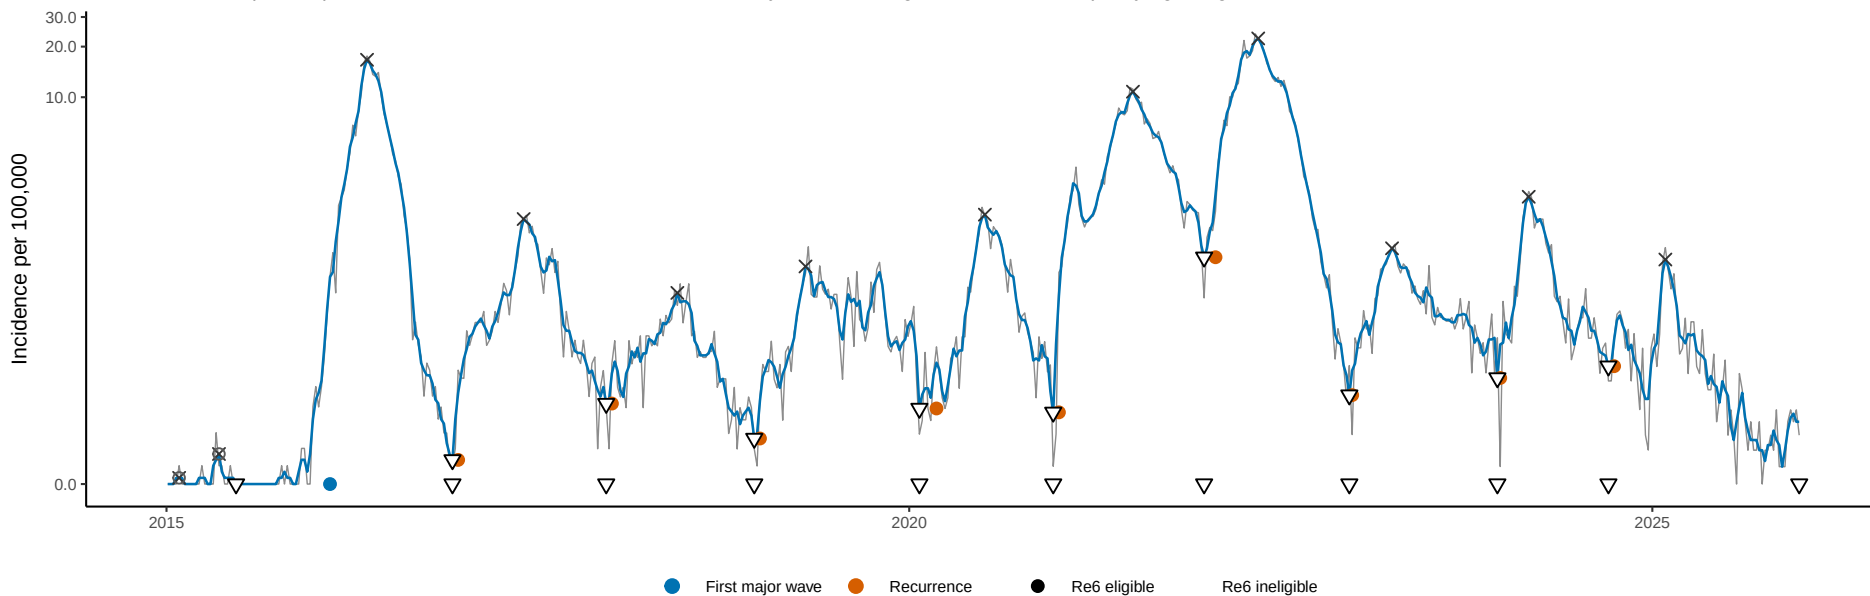

PB: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

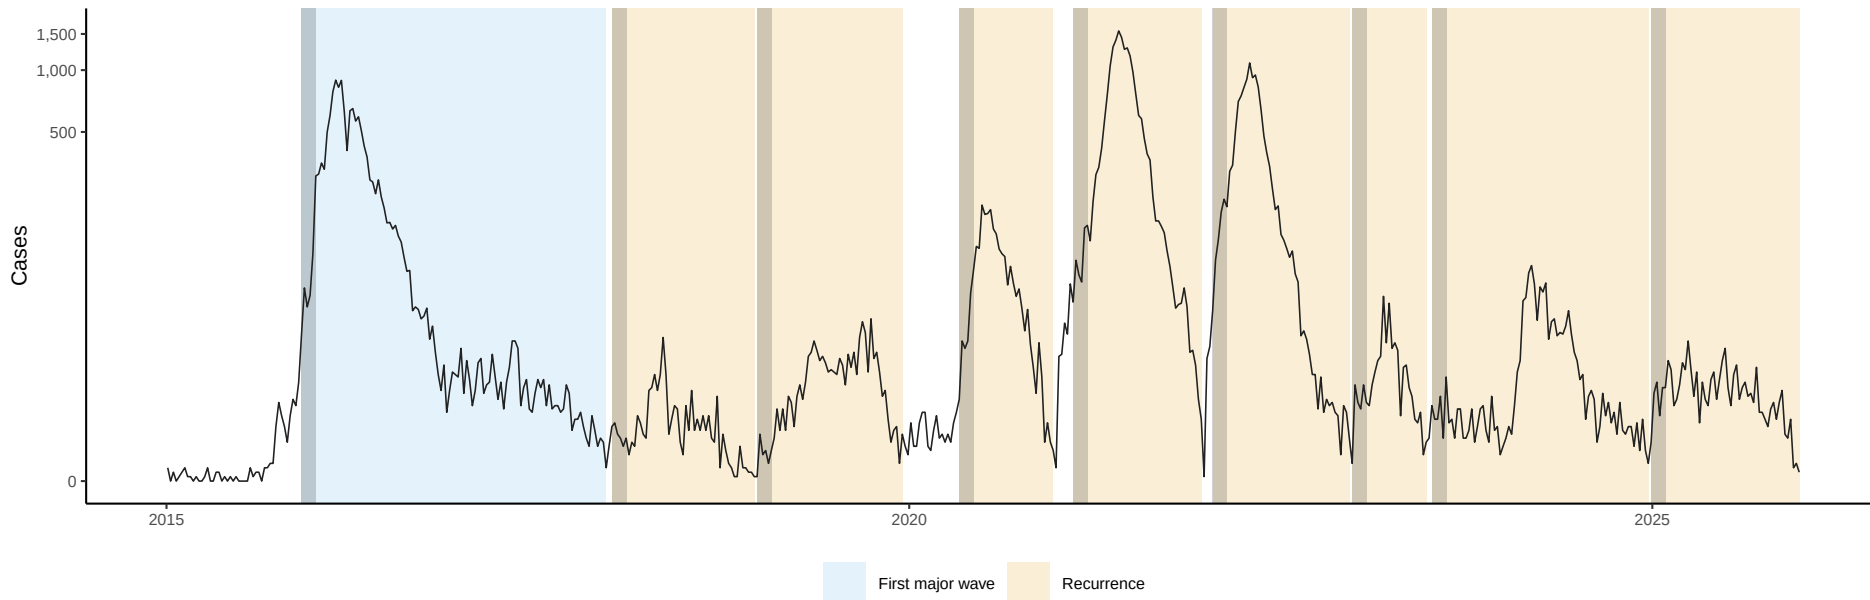

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

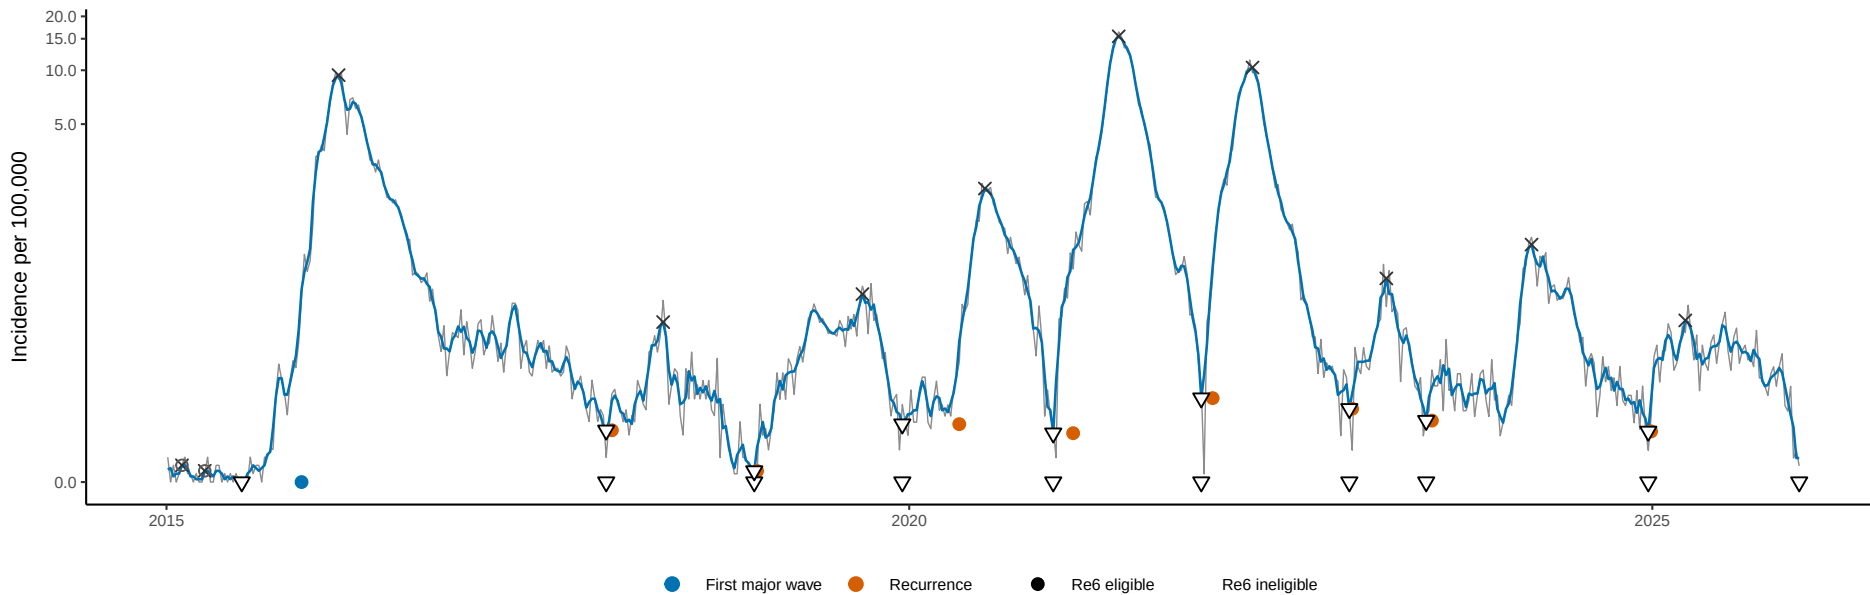

PE: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

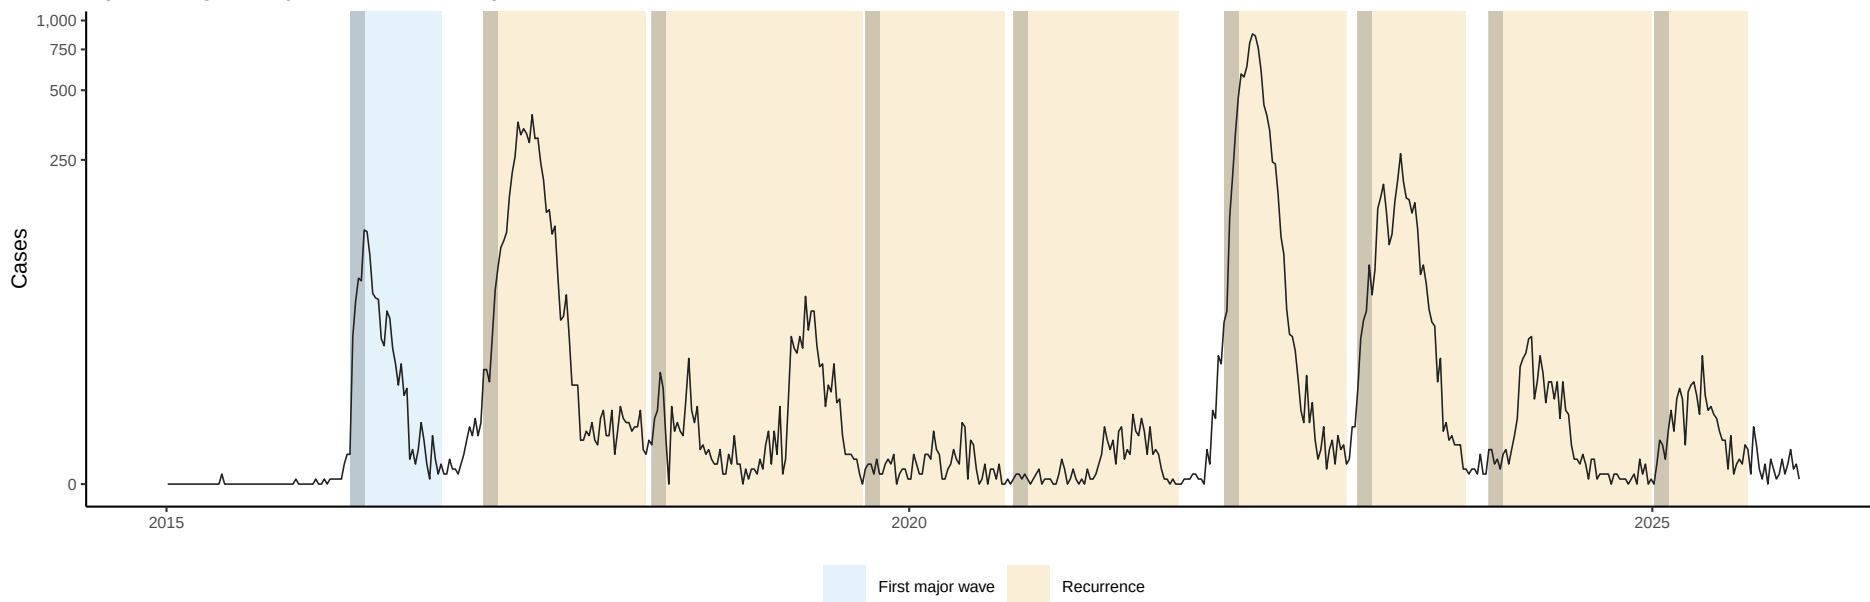

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

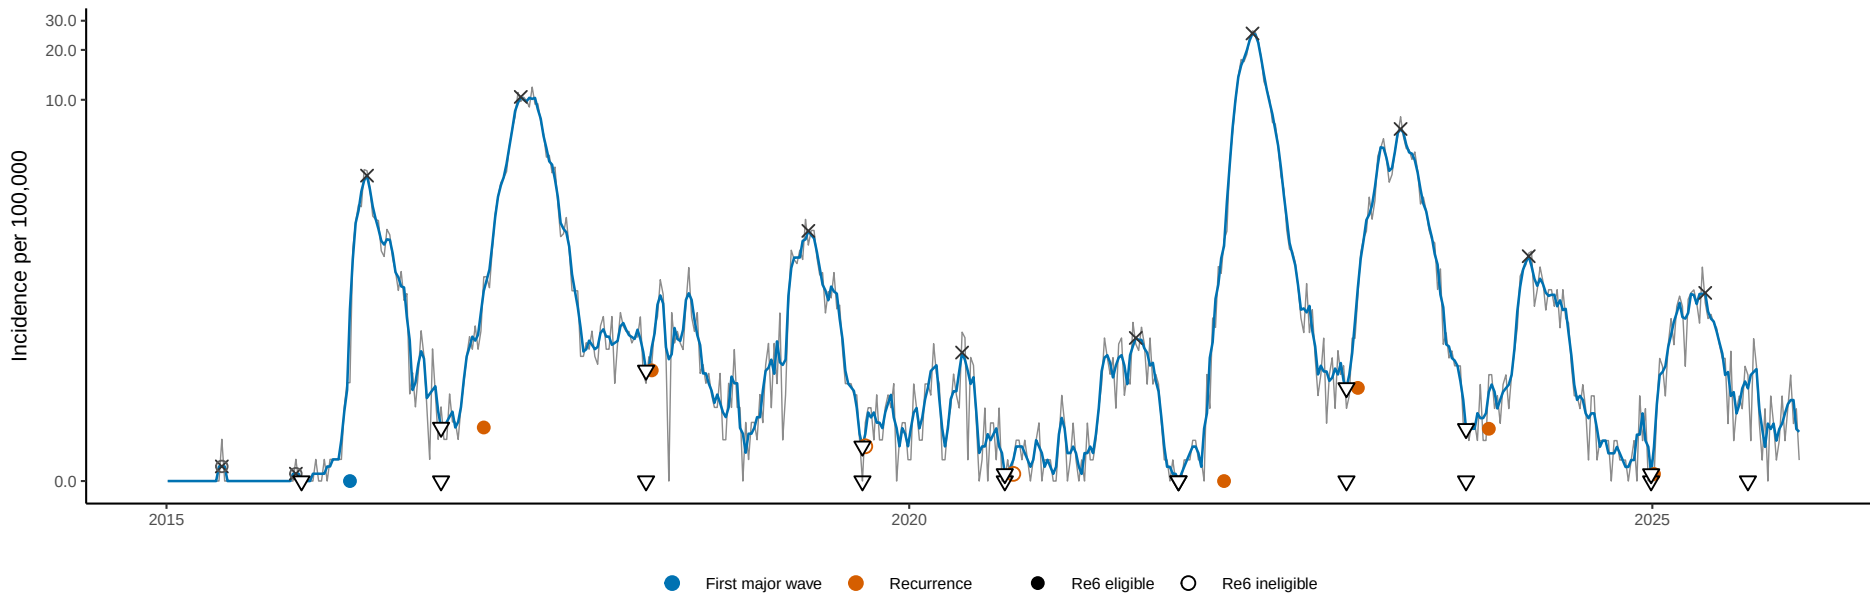

PI: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

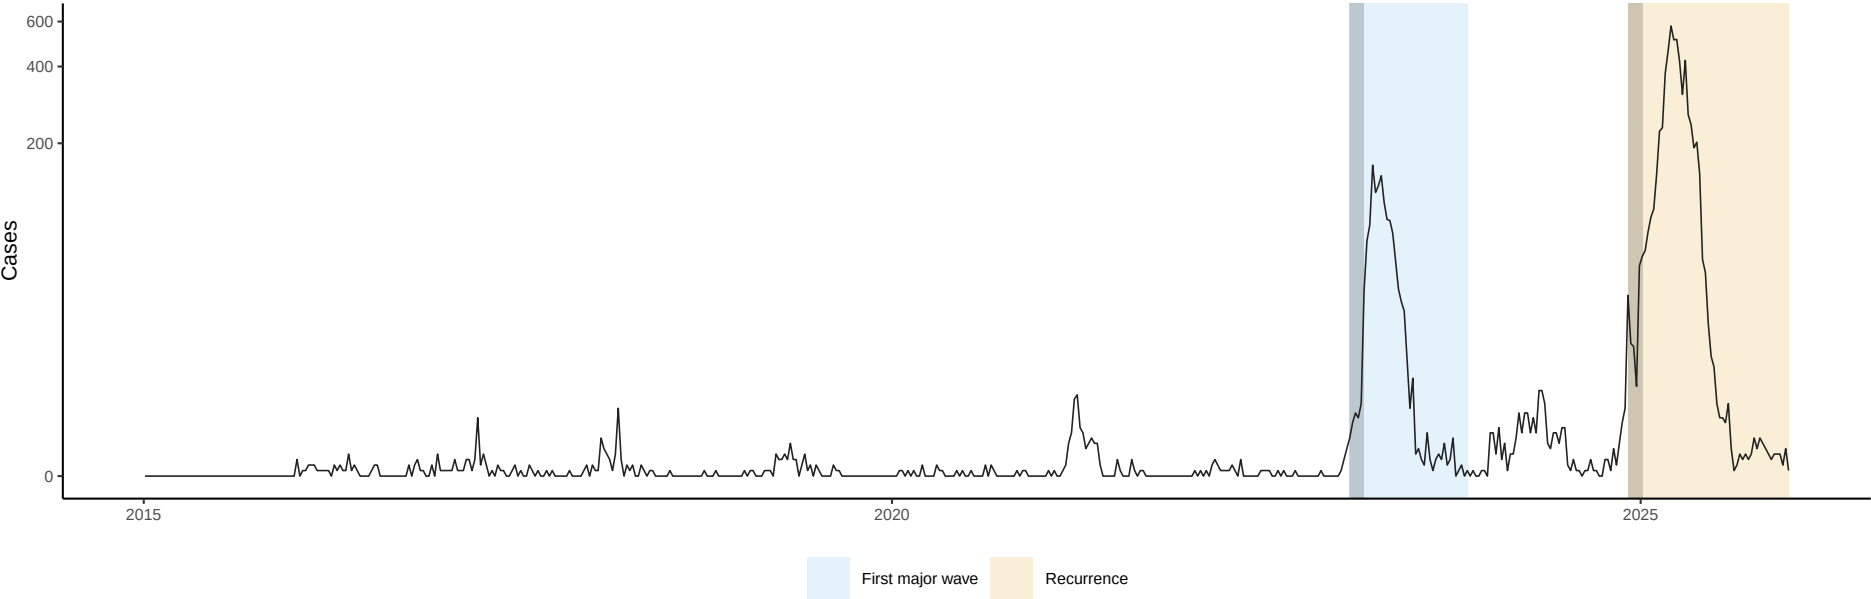

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

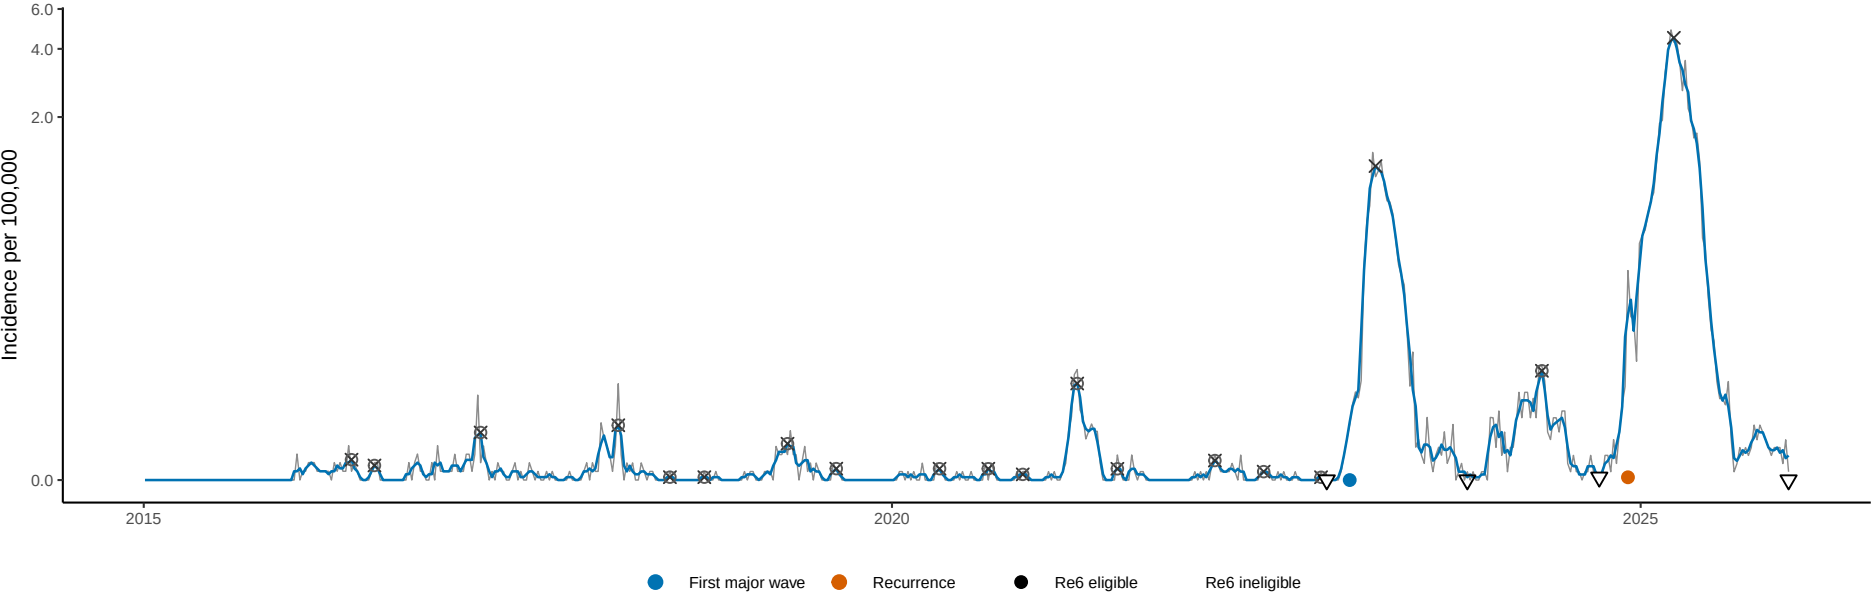

PR: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

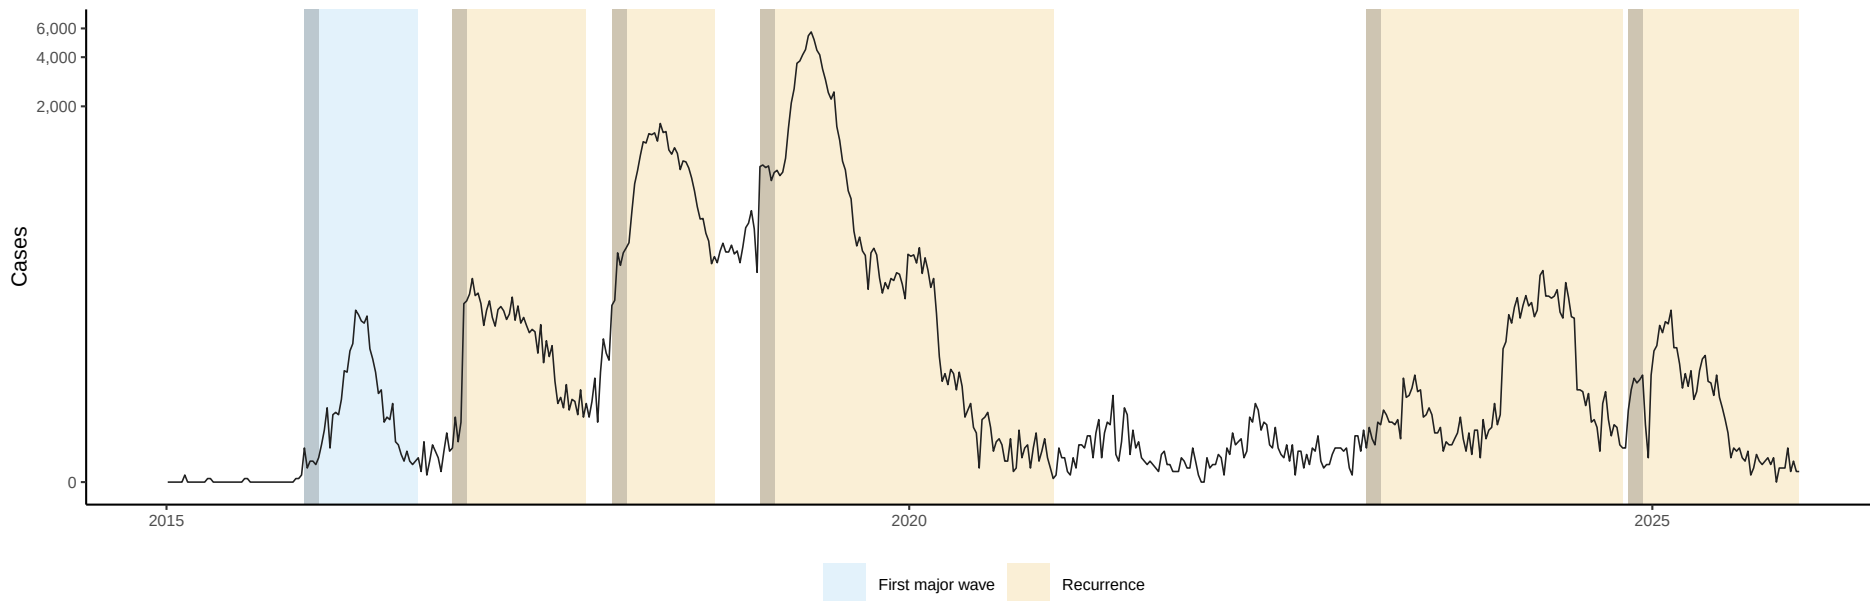

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

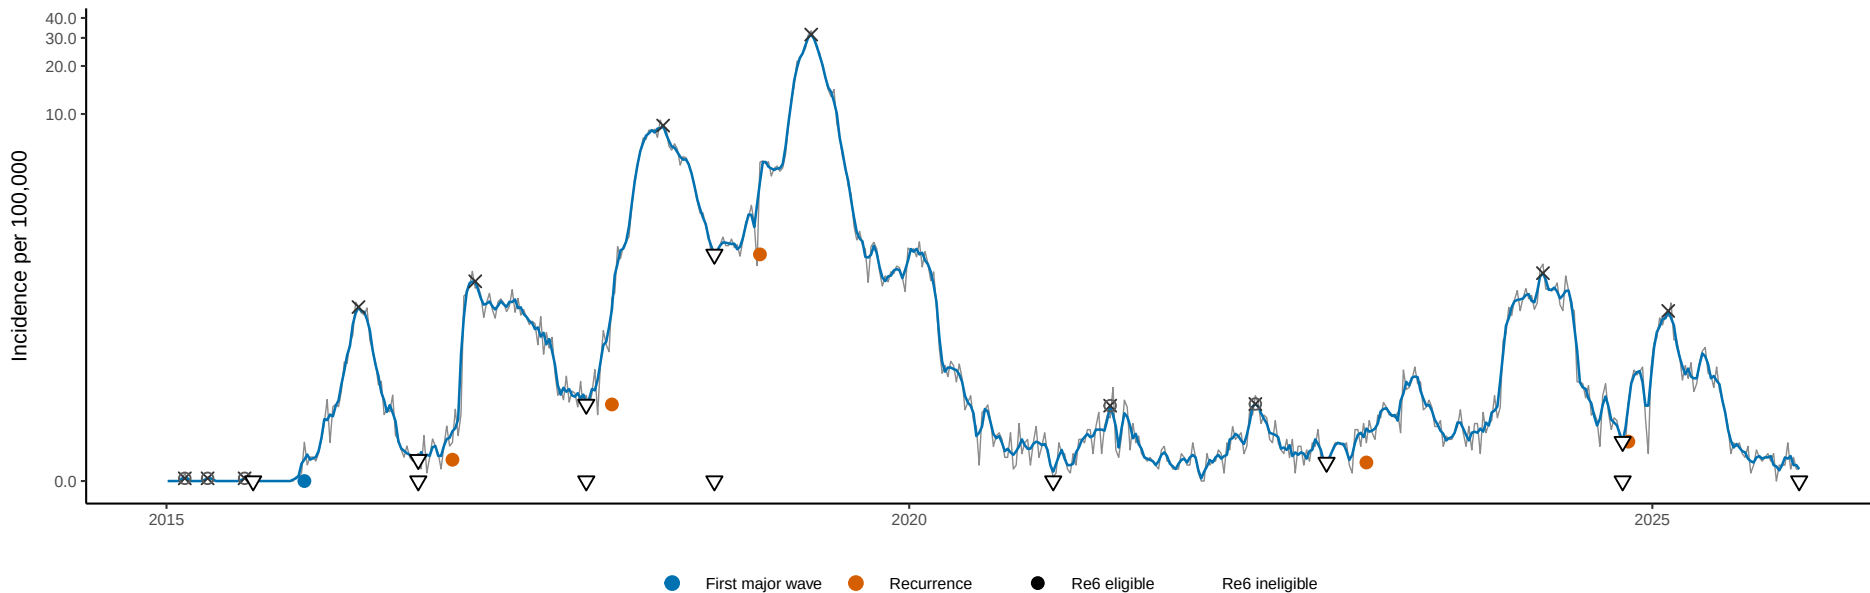

RJ: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

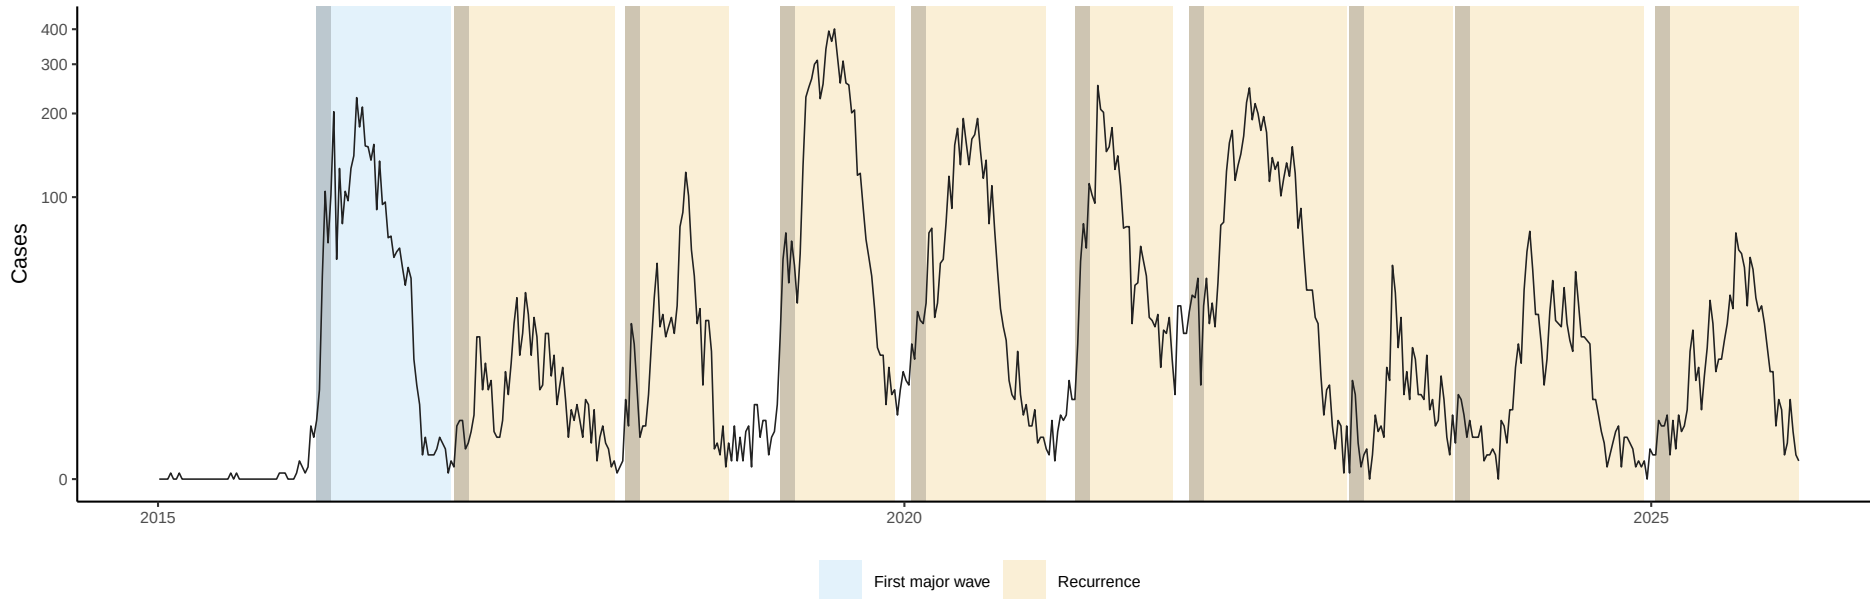

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

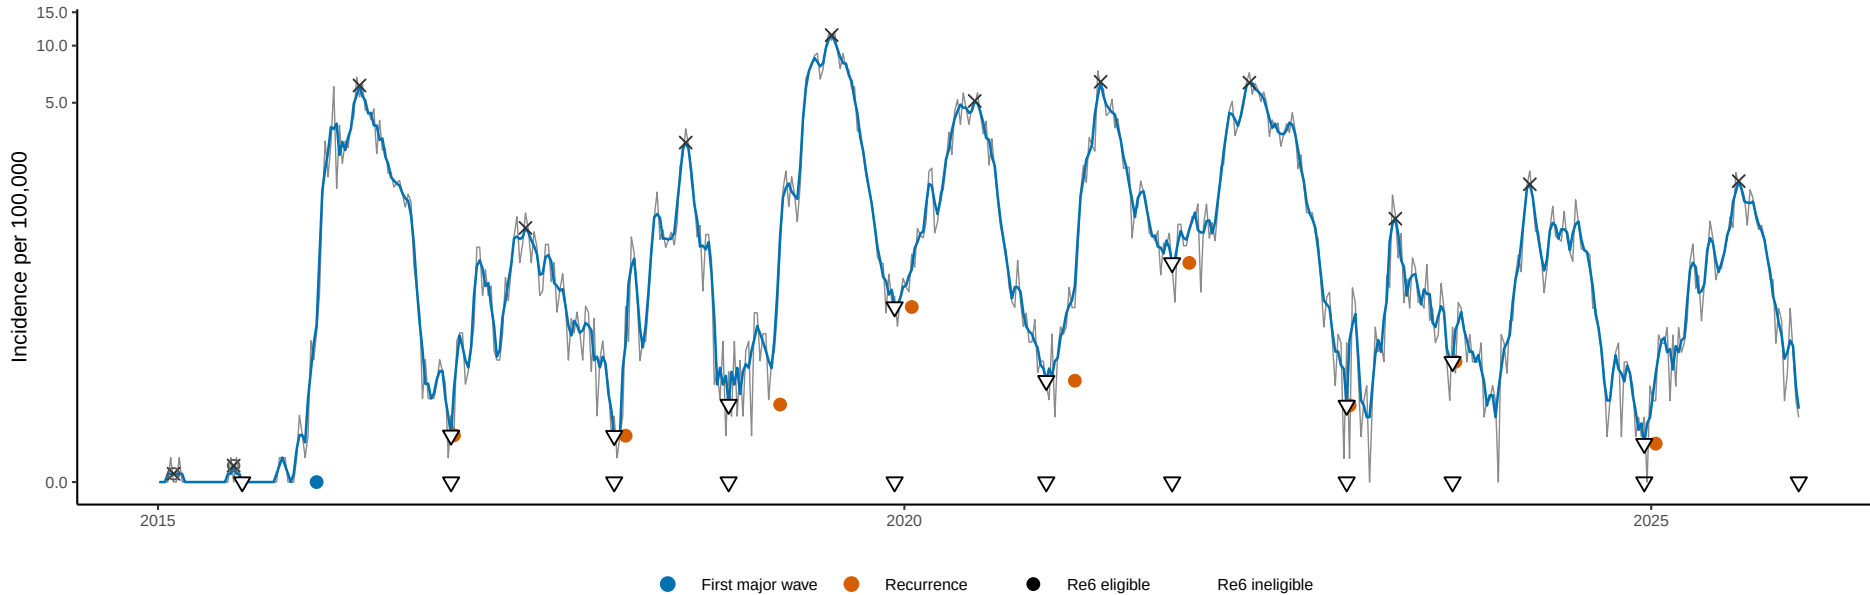

RN: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

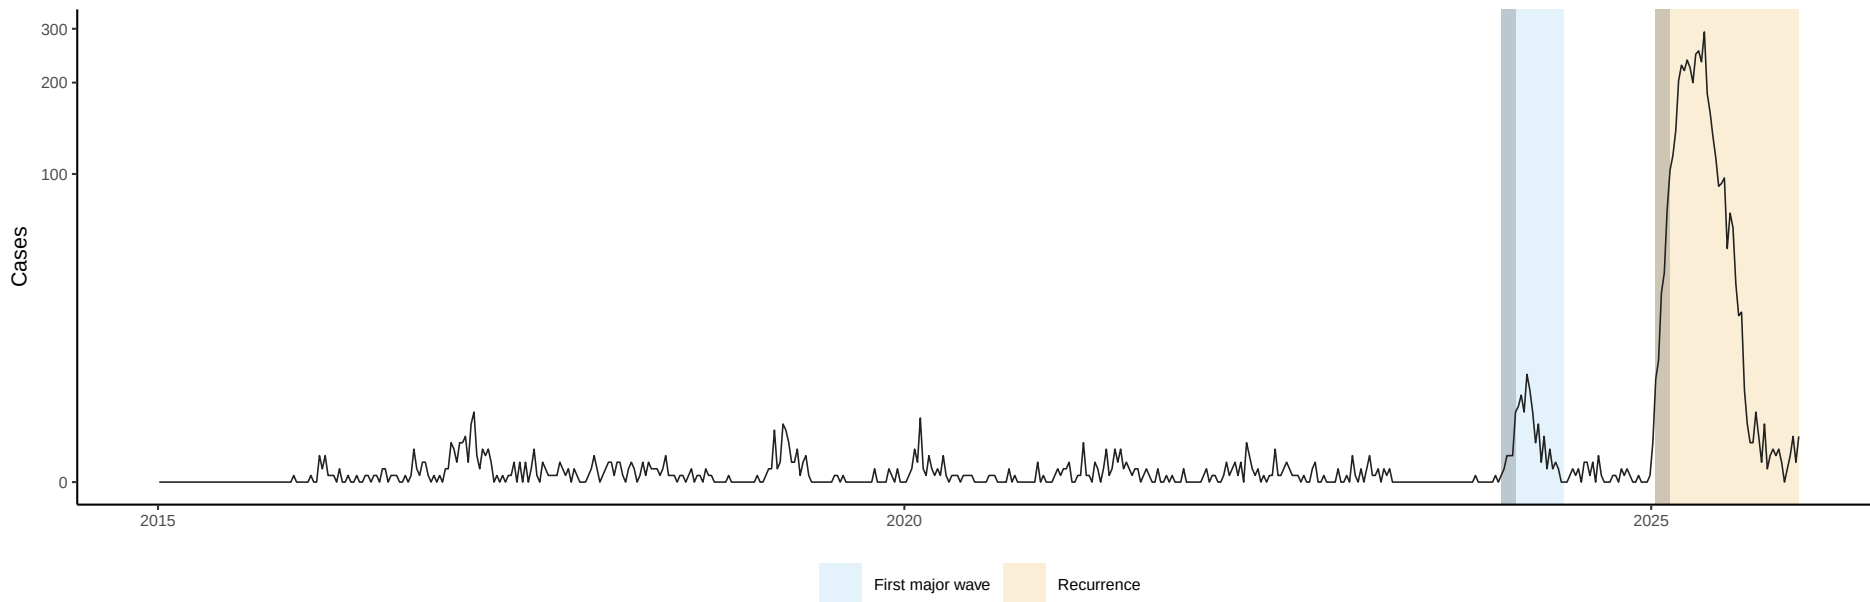

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

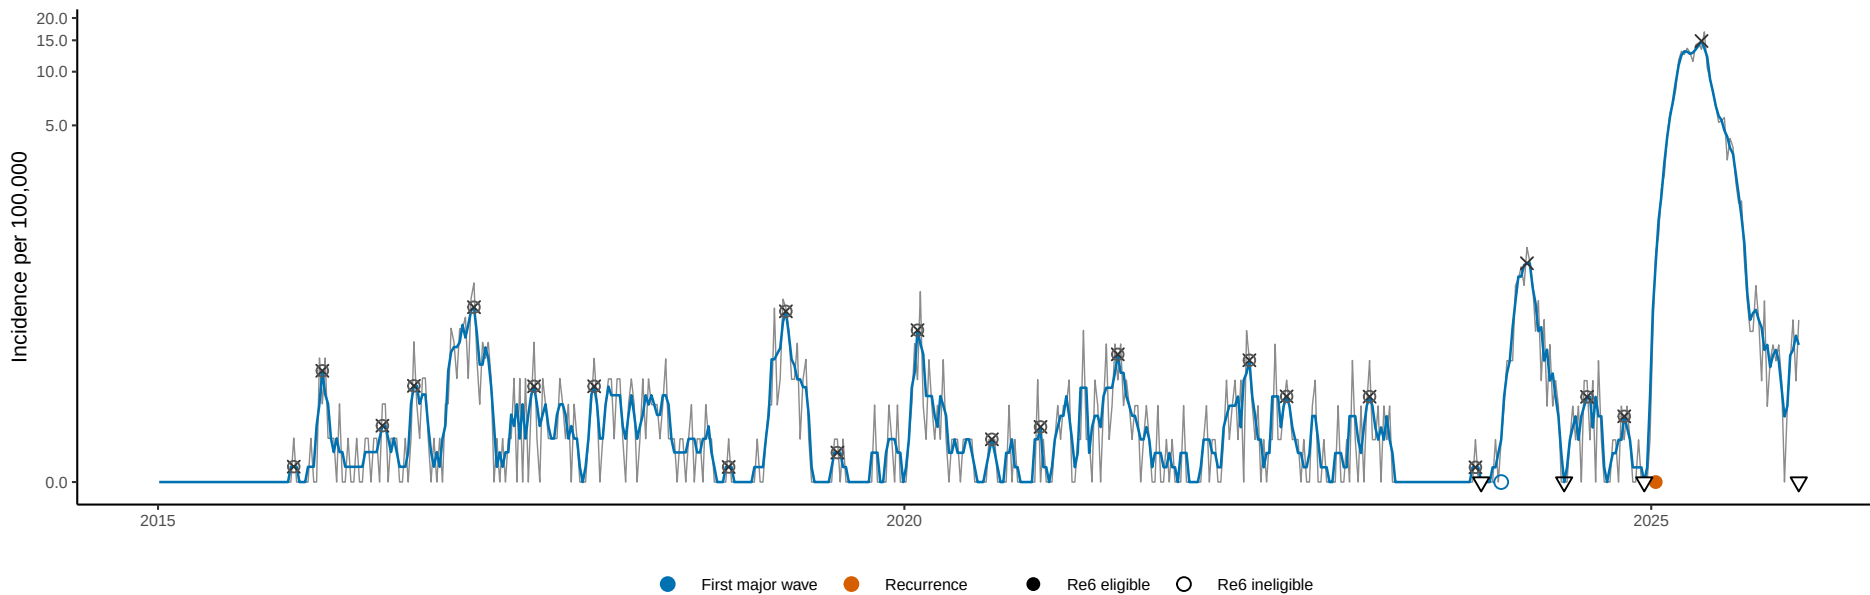

RO: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

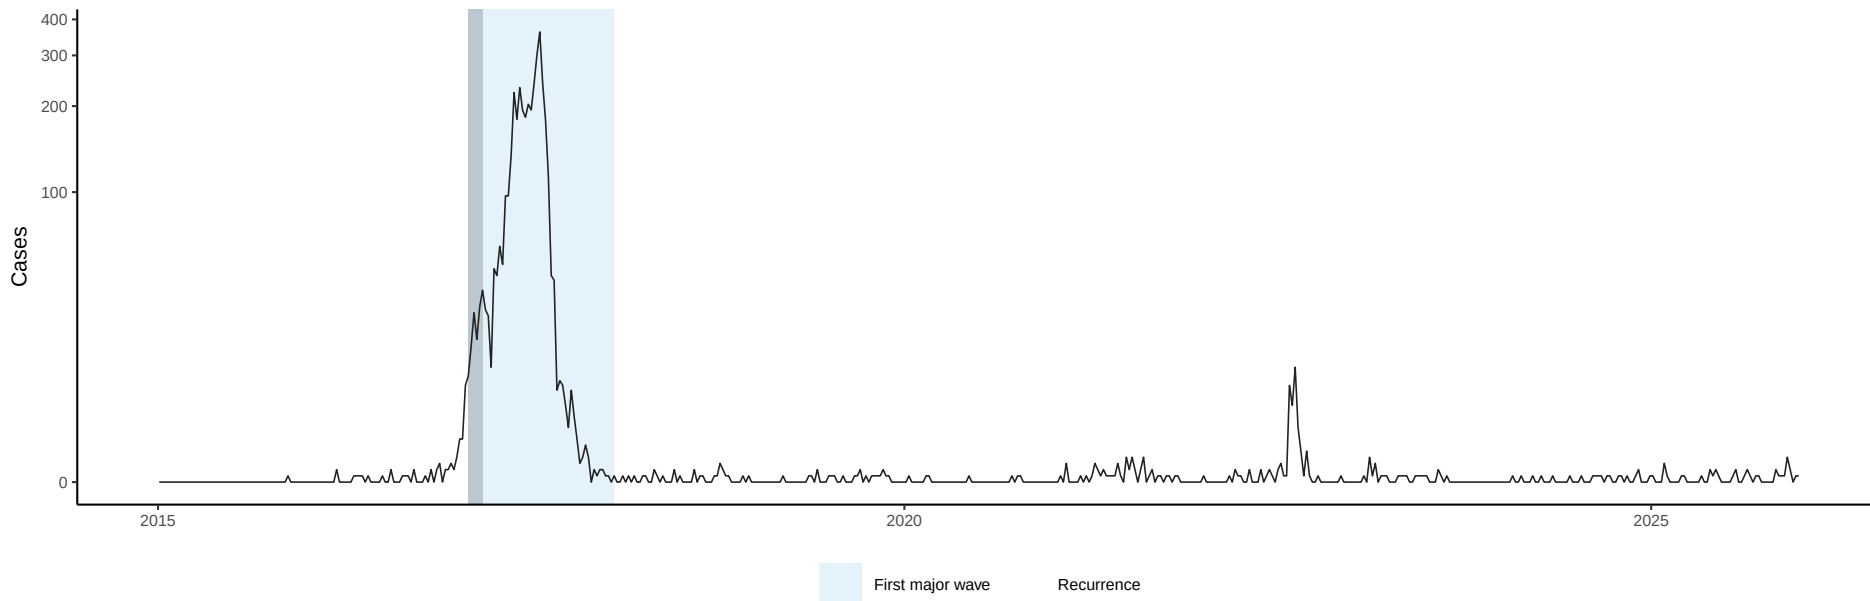

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

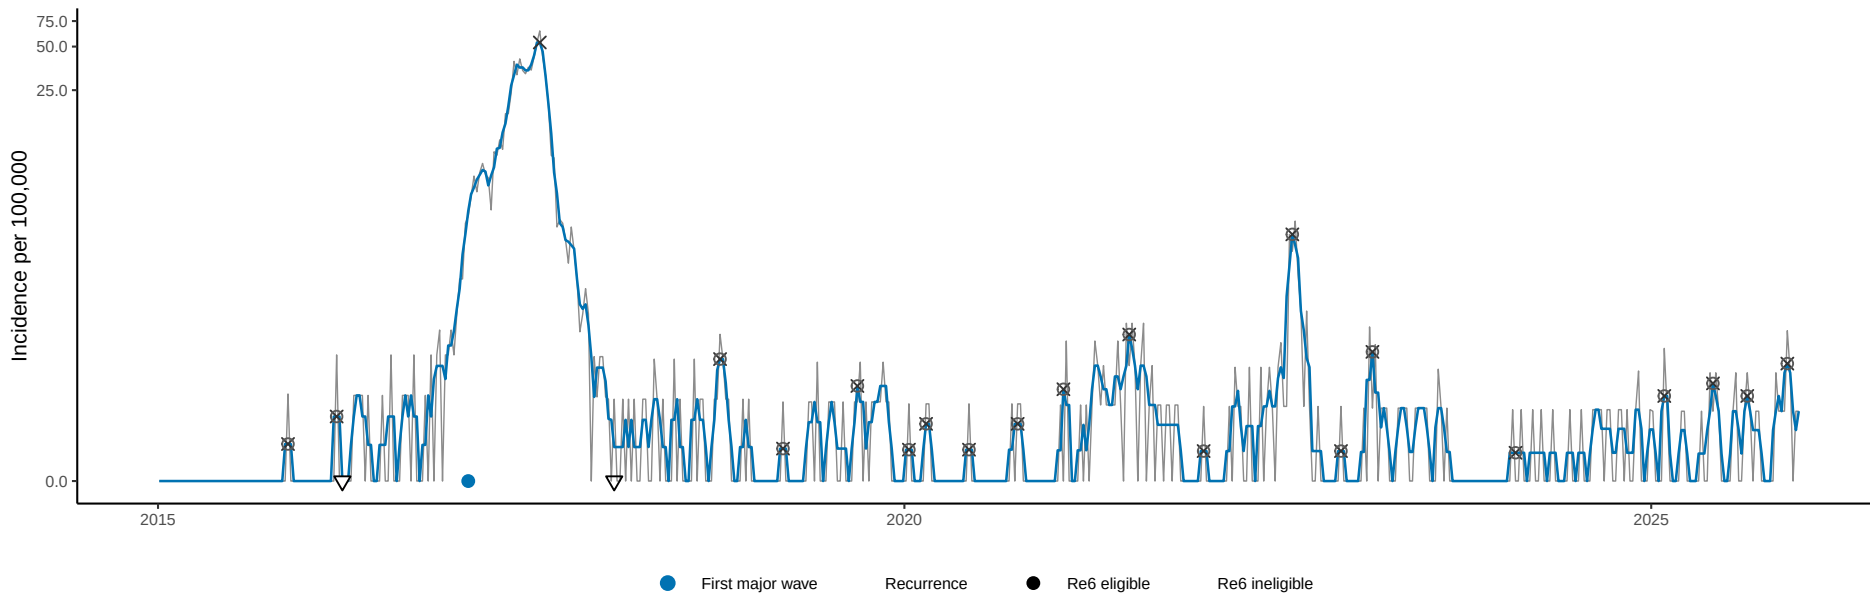

RR: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

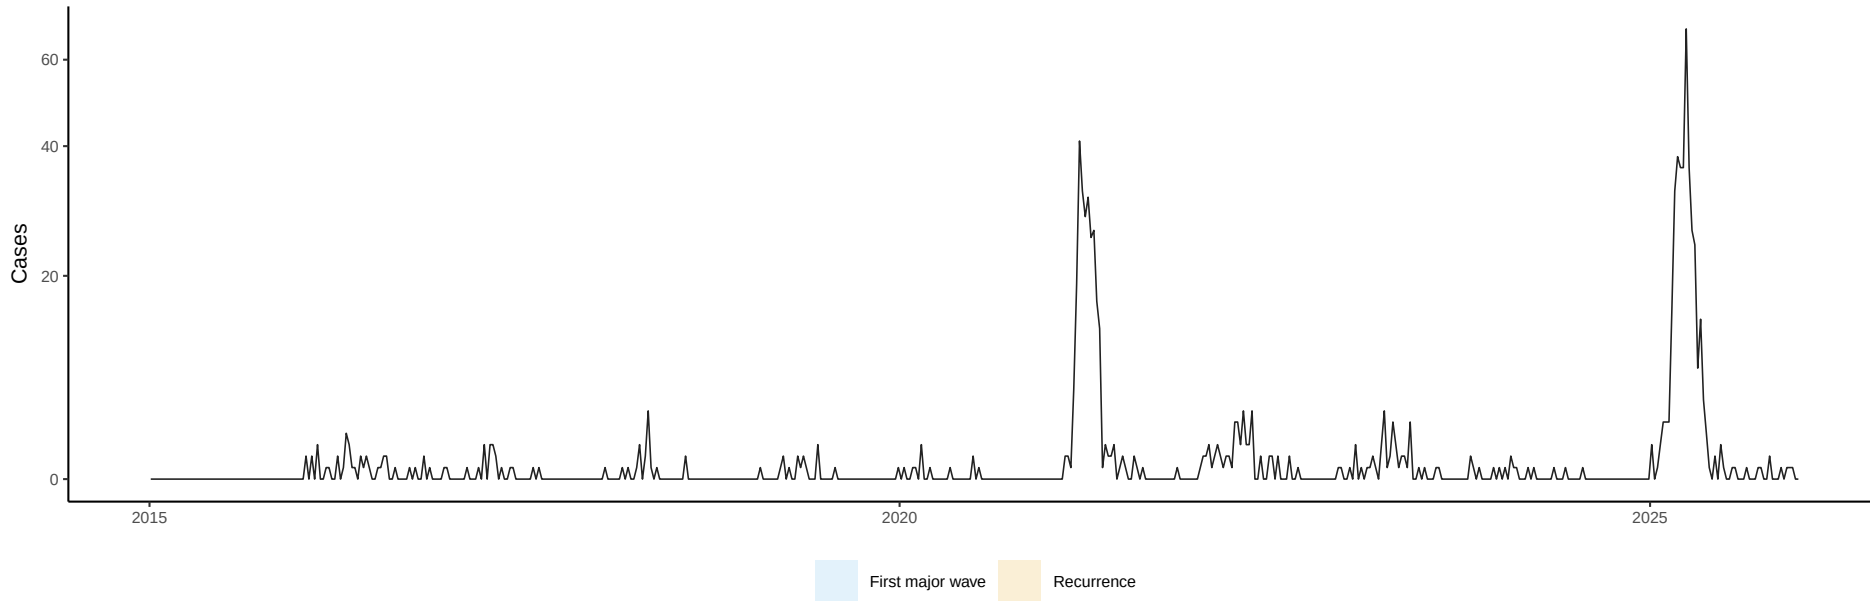

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

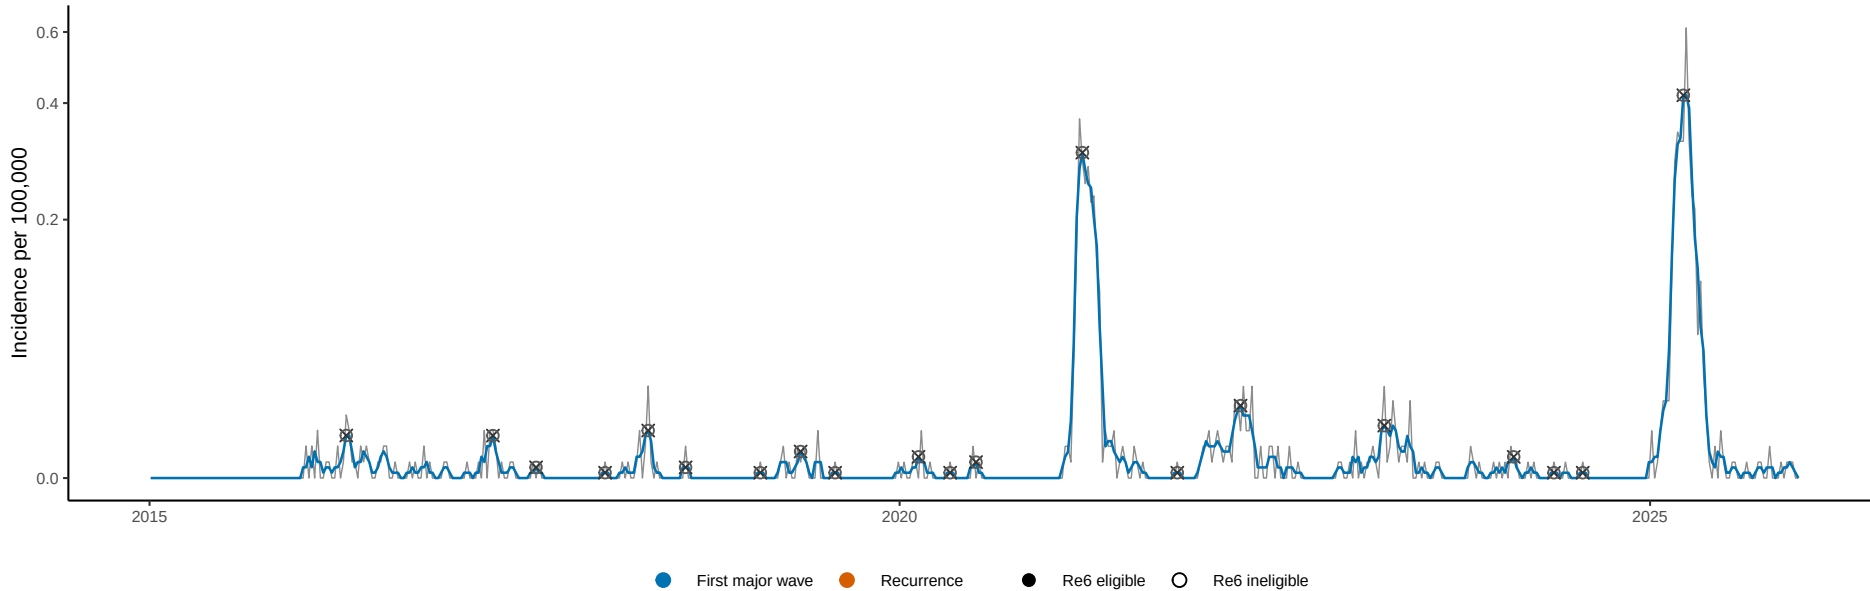

RS: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

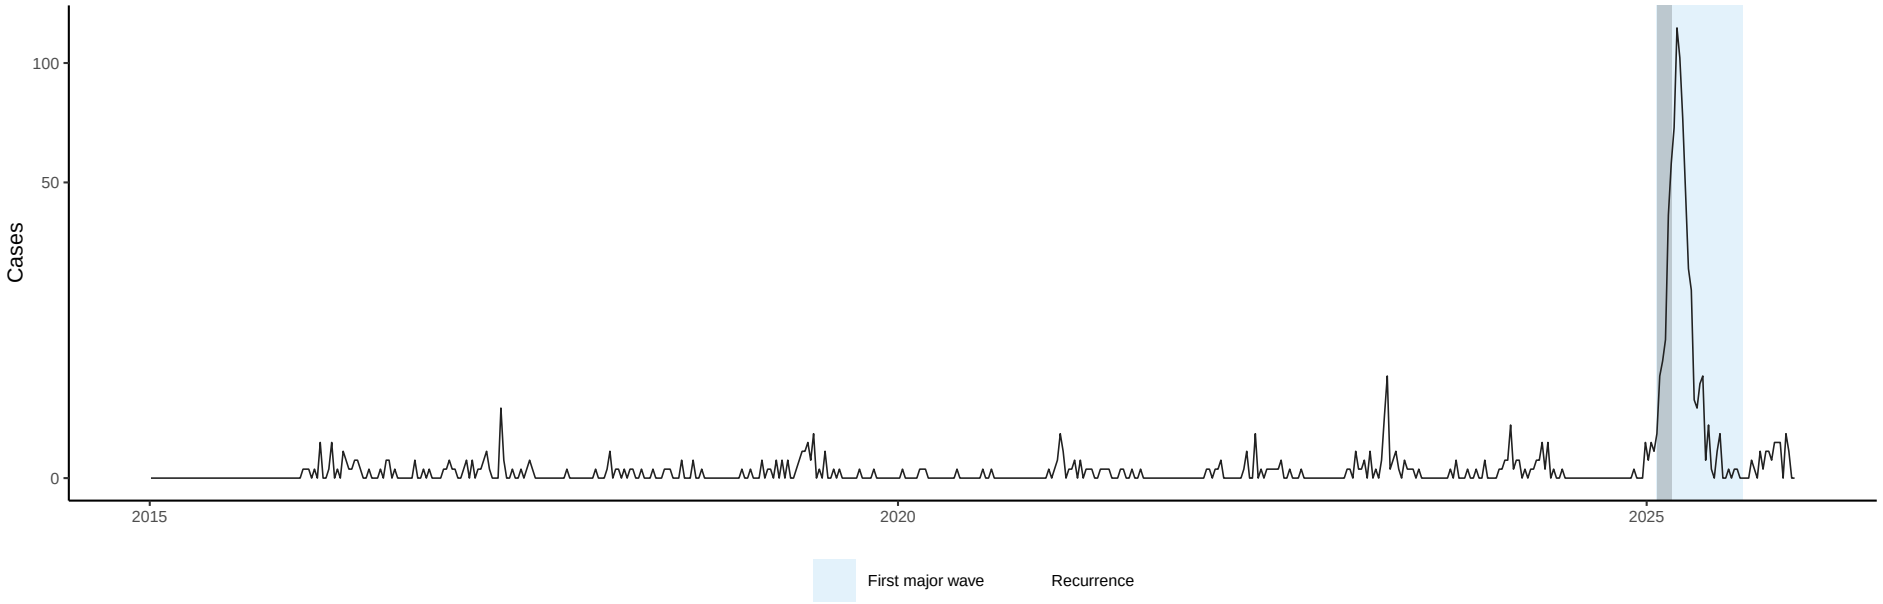

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

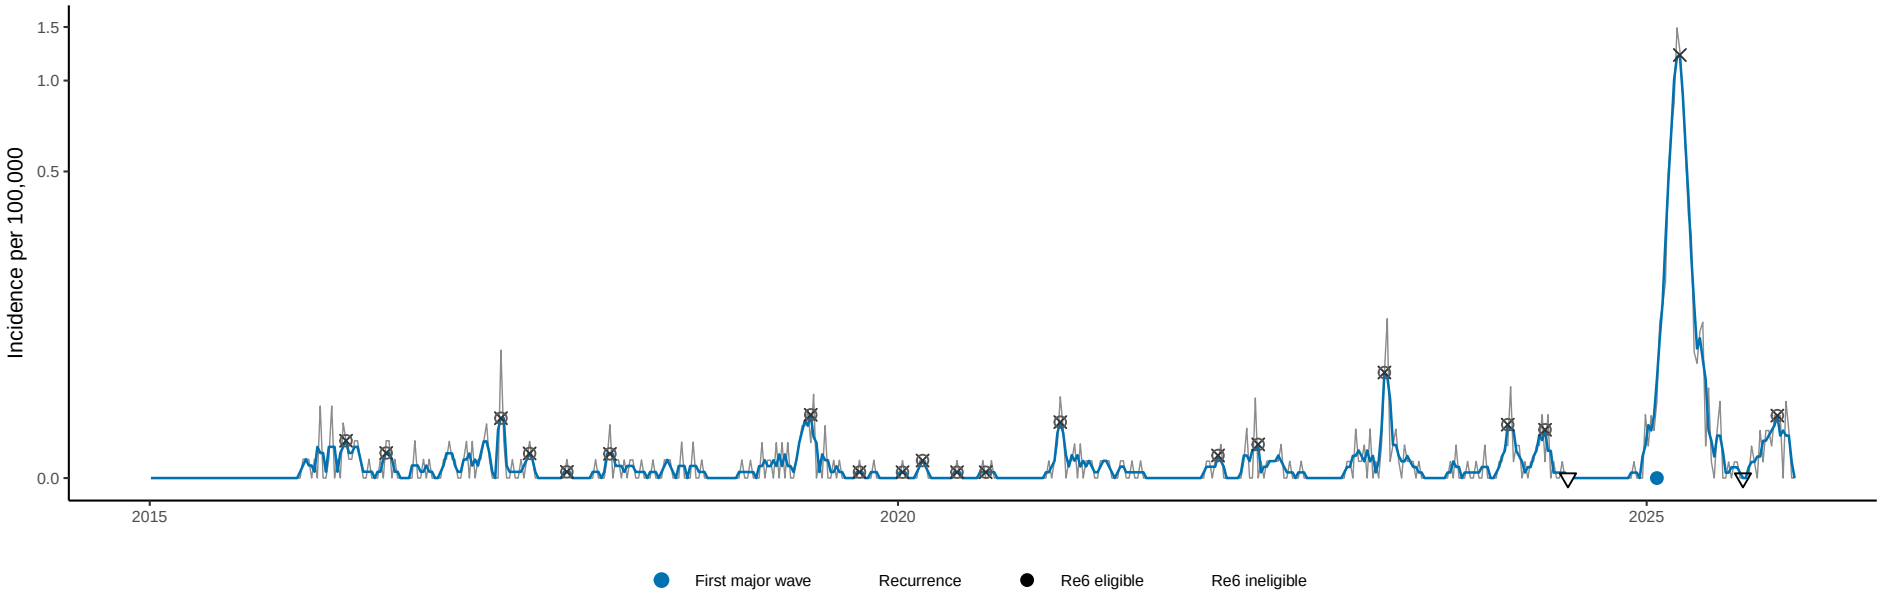

SC: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

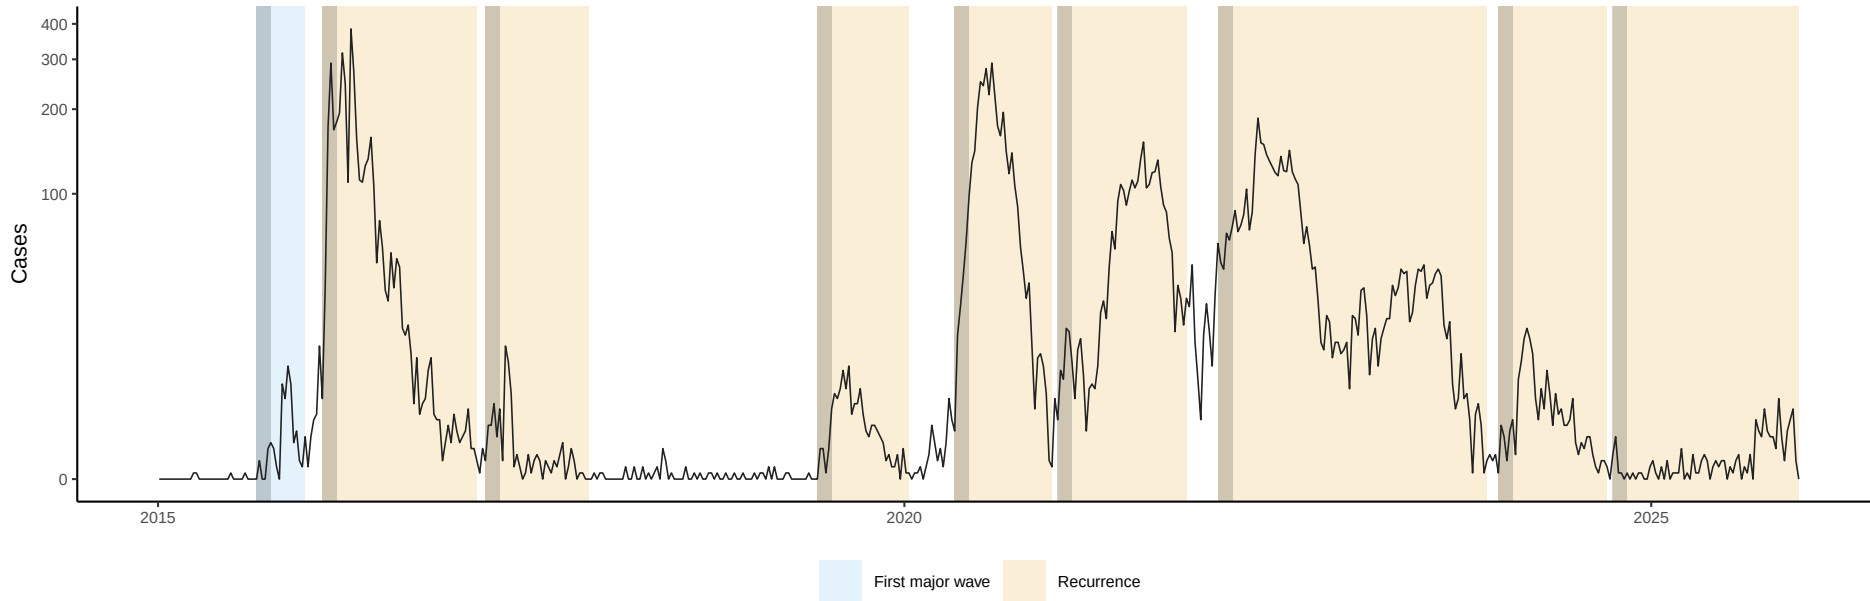

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

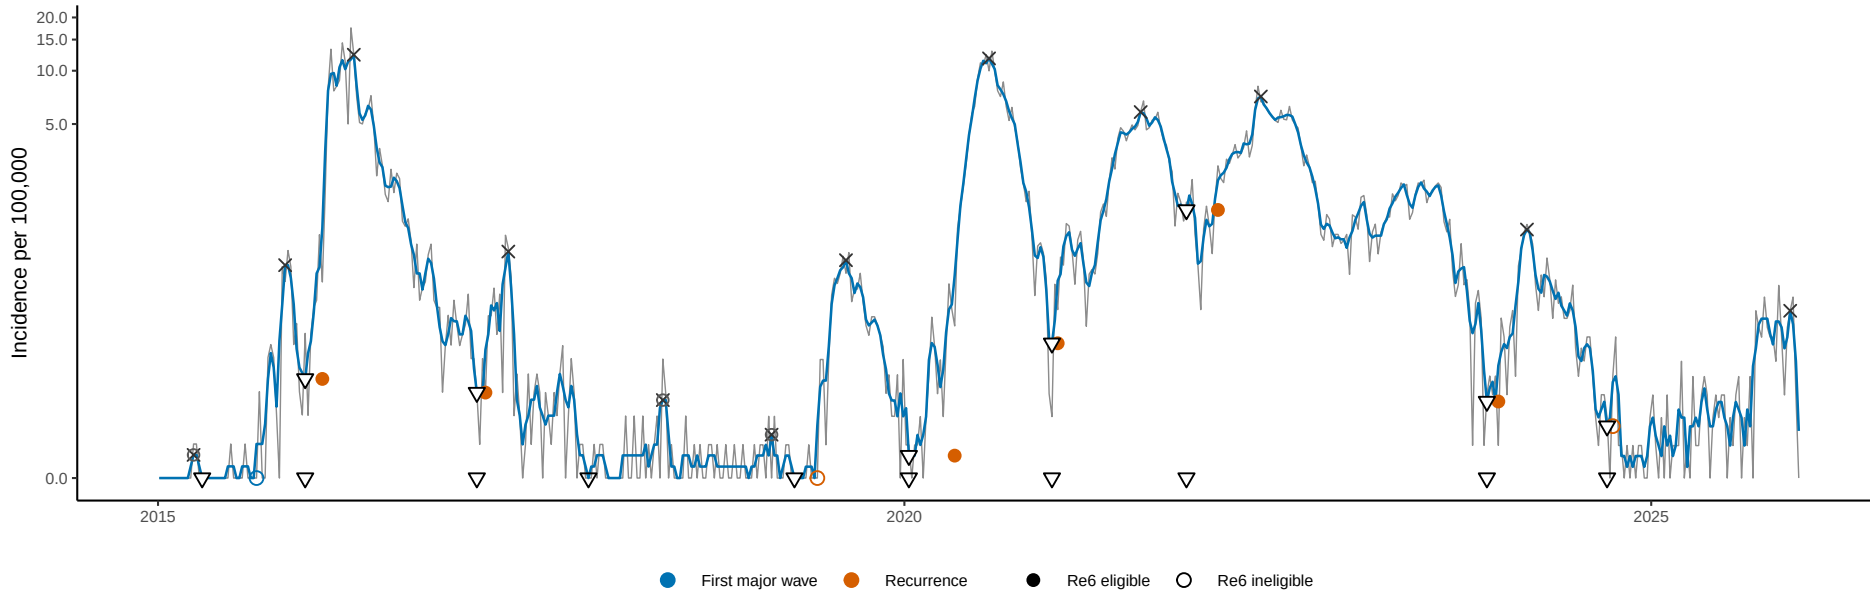

SE: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

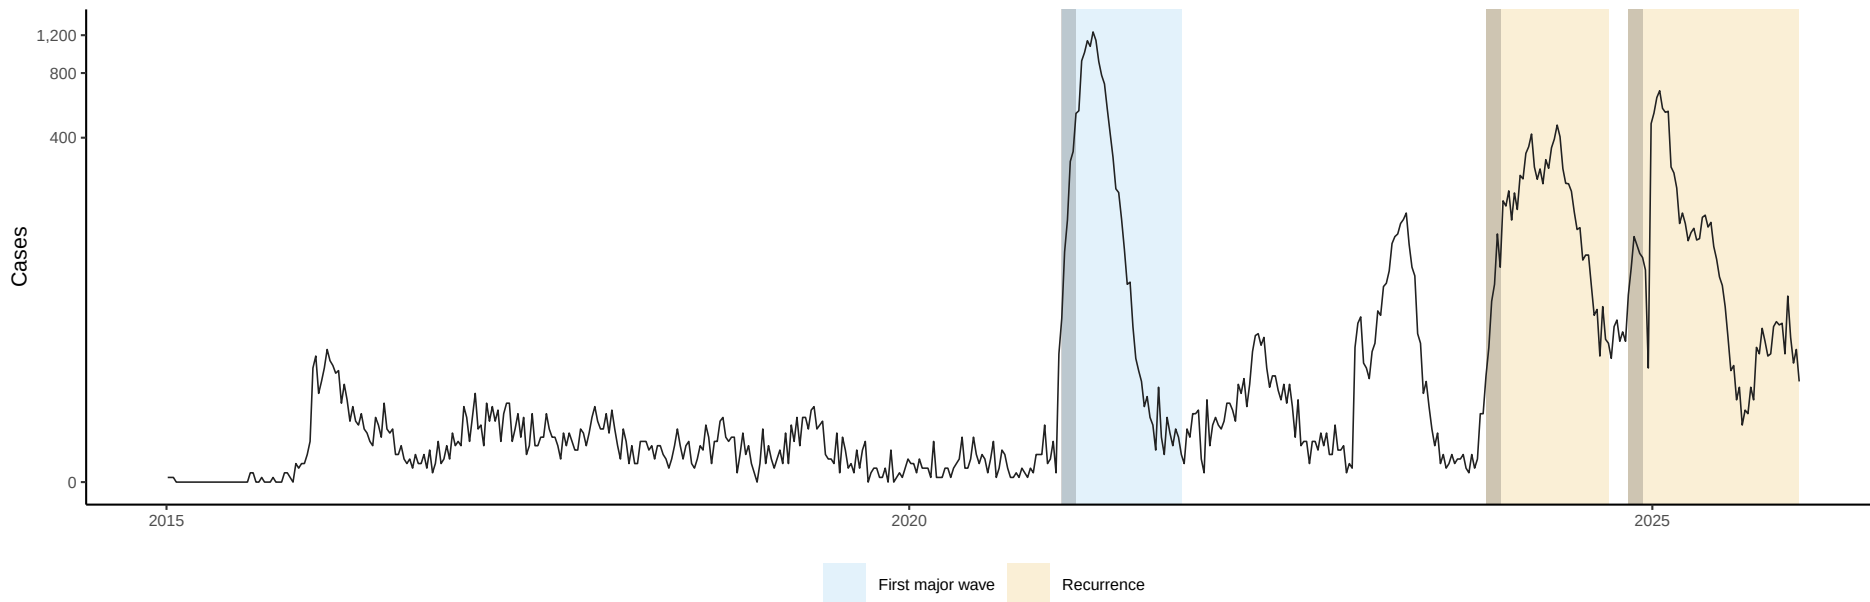

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

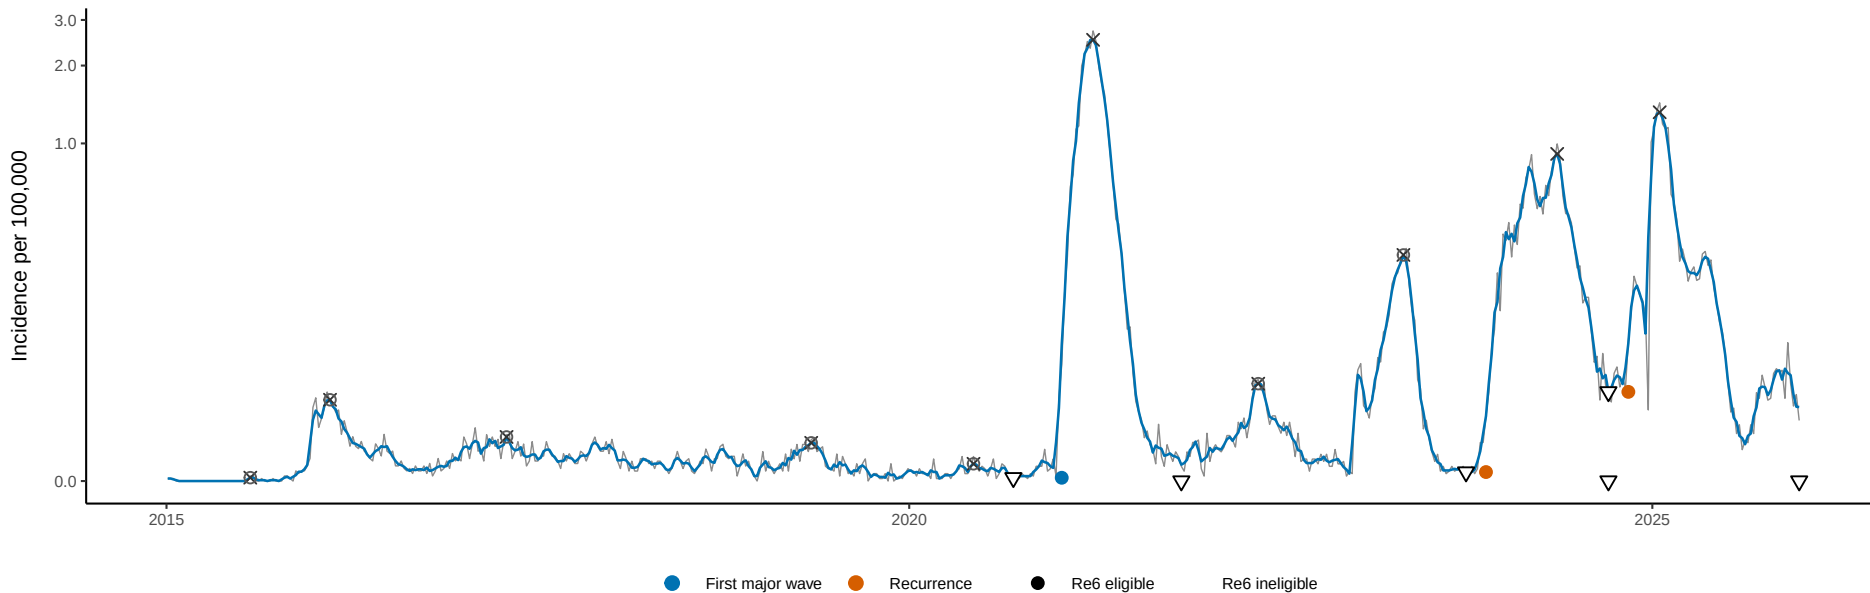

SP: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

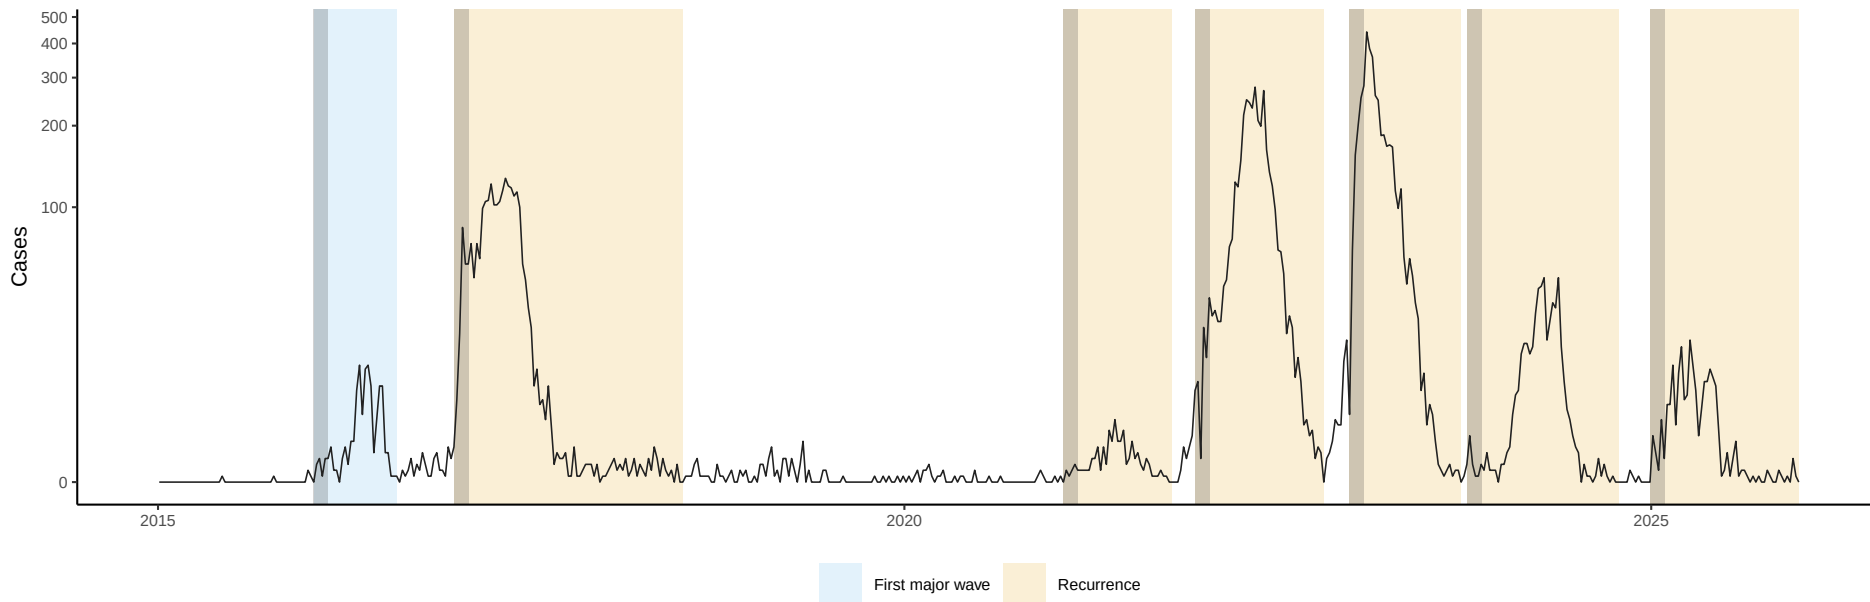

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough

TO: raw weekly confirmed cases

Light shading: full major wave; dark shading: exact first 6-week Re window

Raw and 3-week smoothed incidence

Cross: candidate peak; open circle: minor candidate; coloured onset: major wave; triangle: end; diamond: qualifying trough
